§ 22.1-2. System of free public elementary and secondary schools to be maintained; administration.

There shall be a system of free public elementary and secondary schools established and maintained as provided in this title and administered by the Board of Education, the Superintendent of Public Instruction, division superintendents and school boards.

Code 1950, §§ 22-1.1, 22-2; 1971, Ex. Sess., c. 100; 1976, cc. 681, 713; 1978, c. 518; 1980, c. 559.

§ 22.1-3. Persons to whom public schools shall be free.

A. The public schools in each school division shall be free to each person of school age who resides within the school division. Every person of school age shall be deemed to reside in a school division:

1. When the person is living with a natural parent or a parent by legal adoption;
2. When, in accordance with the provisions of § [22.1-360](#), the person is living with a noncustodial parent or other person standing in loco parentis, not solely for school purposes, pursuant to a Special Power of Attorney executed under 10 U.S.C. § 1044b by the custodial parent;
3. When the parents of such person are dead and the person is living with a person in loco parentis who actually resides within the school division;
4. When the parents of such person are unable to care for the person and the person is living, not solely for school purposes, with another person who resides in the school division and is (i) the court-appointed guardian, or has legal custody, of the person; (ii) acting in loco parentis pursuant to placement of the person for adoption by a person or entity authorized to do so under § [63.2-1200](#); or (iii) an adult relative providing temporary kinship care as that term is defined in § [63.2-100](#). Local school divisions may require one or both parents and the relative providing kinship care to submit signed, notarized affidavits (a) explaining why the parents are unable to care for the person, (b) detailing the kinship care arrangement, and (c) agreeing that the kinship care provider or the parent will notify the school within 30 days of when the kinship care arrangement ends, as well as a power of attorney authorizing the adult relative to make educational decisions regarding the person. A school division may also require the parent or adult relative to obtain written verification from the local department of social services where the parent or parents live, or from both that department and the department of social services where the kinship provider lives, that the kinship arrangement serves a legitimate purpose that is in the best interest of the person other than school enrollment. With written consent from the parent or adult relative, for the purposes of expediting enrollment, a school division may obtain such written verification directly from the local department or departments of social services. The verification process shall be consistent with confidentiality provisions of Article 5 (§ [22.1-287](#) et seq.) of Chapter 14 of this title and Chapter 1 (§ [63.2-100](#) et seq.) of Title 63.2. If the kinship care arrangement lasts more than one year, a school division may require continued verification directly from one or both departments of social services as to why the parents are unable to care for the person and that the kinship care arrangement serves a legitimate purpose other than school enrollment. A local school division may enroll a person living with a relative in a kinship care arrangement that has not been verified by a local department of social services;
5. When the person is living in the school division not solely for school purposes, as an emancipated minor;
6. When all or any portion of the building in which such person resides (i) with another person as set forth in subdivisions 1 through 4 or (ii) as an emancipated minor as set forth in subdivision 5 is taxable by the locality in which the school division is located; or

7. When the person living in the school division is a homeless child or youth, as set forth in this subdivision, who lacks a fixed, regular, and adequate nighttime residence. Such persons shall include (i) children and youths, including unaccompanied youths who are not in the physical custody of their parents, who (a) are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to lack of alternative adequate accommodations or in emergency or transitional shelters; or are abandoned in hospitals; (b) have a primary nighttime residence that is a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings; or (c) are living in parked cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and (ii) migratory children, as defined in the federal Elementary and Secondary Education Act of 1965, P.L. 89-10, as amended, who are deemed homeless as they are living in circumstances set forth in clause (i).

School divisions shall comply with the requirements of Subtitle VII-B of the federal McKinney-Vento Homeless Assistance Act, as amended (42 U.S.C. § 11431 et seq.), to ensure that homeless children and youths shall receive the educational services comparable to those offered to other public school students.

School divisions serving the students identified in this subdivision shall coordinate the identification and provision of services to such students with relevant local social services agencies and other agencies and programs providing services to such students, and with other school divisions as may be necessary to resolve interdivisional issues.

B. In the interest of providing educational continuity to the children of military personnel, no child of a person on active military duty:

1. Who is attending a school free of charge in accordance with this section shall be charged tuition by that school division upon such child's relocation to military housing located in another school division in the Commonwealth, pursuant to orders received by such child's parent to relocate to base housing. Such children shall be allowed to continue attending school in the school division they attended immediately prior to the relocation and shall not be charged tuition for attending such school;

2. Who is attending a school free of charge in accordance with this section shall be charged tuition by that school division upon such child's relocation pursuant to orders received by such child's parent to relocate to a new duty station or to be deployed. Such children shall be allowed to remain enrolled in the current school division free of tuition through the end of the school year; and

3. Who is eligible to attend school free of charge in accordance with this section shall be charged tuition by a school division that will be the child's school division of residence once his service member parent is relocated pursuant to orders received. Such a child shall be allowed to enroll in the school division of the child's intended residence if documentation is provided, at the time of enrollment, of military orders of the service member parent or an official letter from the service member's command indicating such relocation. Documentation indicating a permanent address within the

school division shall be provided to the school division within 120 days of a child's enrollment or tuition may be charged, including tuition for the days since the child's enrollment in school. In the event that the child's service member parent is ordered to relocate before the 120th day following the child's enrollment, the school division shall not charge tuition. Students eligible to enroll in a school division pursuant to this subdivision may register, remotely or in-person, for courses and other academic programs and participate in the lottery process for charter schools and college partnership laboratory schools in the school division in which such student will reside at the same time and in the same manner as students who reside in the local school division. The assignment of the school such child will attend shall be determined by the local school division.

Such children as listed in subdivisions 1, 2, and 3 shall be counted in the average daily membership of the school division in which they are enrolled. Further, the school division in which such children are enrolled subsequent to their relocation to base housing shall not be responsible for providing for their transportation to and from school.

§ 22.1-3.1. Birth certificates required upon admission; required notice to the local law-enforcement agency.

A. Except as otherwise provided in this subsection, no pupil shall be admitted for the first time to any public school in any school division in this Commonwealth unless the person enrolling the pupil shall present, upon admission, a certified copy of the pupil's birth record. The principal or his designee shall record the official state birth number from the pupil's birth record into the pupil's permanent school record and may retain a copy in the pupil's permanent school record. If a certified copy of the pupil's birth record cannot be obtained, the person so enrolling the pupil shall submit an affidavit setting forth the pupil's age and explaining the inability to present a certified copy of the birth record. If the school division cannot ascertain a child's age because of the lack of a birth certificate, the child shall nonetheless be admitted into the public schools if the division superintendent determines that the person submitting the affidavit presents information sufficient to estimate with reasonable certainty the age of such child.

However, if the student seeking enrollment is a homeless child or youth as defined in § [22.1-3](#), the school shall immediately enroll such student, even if such student is unable to produce the records required for enrollment, and shall immediately contact the school last attended by the student to obtain relevant academic and other records, and shall comply with the provisions of Subtitle VII-B of the federal McKinney-Vento Homeless Assistance Act, as amended (42 U.S.C. § 11431 et seq.), including immediately referring the parent of the student or the youth to the local school division liaison, as described in the federal Act, who shall assist in obtaining the necessary records for enrollment.

B. Upon the failure of any person enrolling a pupil to present a certified copy of the pupil's birth record, the principal of the school in which the pupil is being enrolled or his designee shall immediately notify the local law-enforcement agency. The notice to the local law-enforcement agency shall include copies of the submitted proof of the pupil's identity and age and the affidavit explaining the inability to produce a certified copy of the birth record.

C. Within 14 days after enrolling a transferred pupil, the principal of the school in which the pupil has been enrolled or his designee shall request that the principal or his designee of the school in which the pupil was previously enrolled submit documentation that a certified copy of the pupil's birth record was presented upon the pupil's initial enrollment.

D. Principals and their designees shall be immune from any civil or criminal liability in connection with any notice to a local law-enforcement agency of a pupil lacking a birth certificate or failure to give such notice as required by this section.

§ 22.1-3.2. Notice of student's school status required as condition of admission; penalty.

A. Prior to admission to any public school of the Commonwealth, a school board shall require the parent, guardian, or other person having control or charge of a child of school age to provide, upon registration:

1. A sworn statement or affirmation indicating whether the student has been expelled from school attendance at a private school or in a public school division of the Commonwealth or in another state for an offense in violation of school board policies relating to weapons, alcohol or drugs, or for the willful infliction of injury to another person. This document shall be maintained as a part of the student's scholastic record.

2. A sworn statement or affirmation indicating whether the student has been found guilty of or adjudicated delinquent for any offense listed in subsection G of § [16.1-260](#) or any substantially similar offense under the laws of any state, the District of Columbia, or the United States or its territories. This document shall be maintained as provided in § [22.1-288.2](#).

B. When the child is registered as a result of a foster care placement as defined in § [63.2-100](#), the information required under this section shall be furnished by the local social services agency or licensed child-placing agency that made the foster care placement.

C. Any person making a materially false statement or affirmation shall be guilty upon conviction of a Class 3 misdemeanor.

1993, c. 889; 2006, cc. [53](#), [183](#).

§ 22.1-3.3. Transfer of students under certain circumstances.

Whenever any student has been the victim of any crime against the person pursuant to Chapter 4 (§ [18.2-30](#) et seq.) of Title 18.2, and such crime was committed by another student attending classes in the school, or by any employee of the school board, or by any volunteer, contract worker or other

person who regularly performs services in the school, or if the crime was committed upon school property or on any school bus owned or operated by the school division, the student upon whom the crime was committed shall, upon written request from the student's parent, or the student, if such student is an emancipated minor, be permitted by the relevant school board to transfer to another comparable school within the school division, if available. Any transportation services for such students shall be provided in accordance with school board policies.

For the purposes of this section, "victim" means any student who has been the victim of a crime against the person pursuant to Chapter 4 (§ [18.2-30](#) et seq.) of Title 18.2, and who has suffered physical, psychological, or economic harm as a direct result of the commission of such crime.

1997, cc. [362](#), [408](#).

§ 22.1-3.4. Enrollment of certain children placed in foster care.

A. Whenever a student has been placed in foster care by a local social services agency and the placing social services agency is unable to produce any of the documents required for enrollment pursuant to § [22.1-3.1](#), [22.1-270](#), or [22.1-271.2](#), the student shall immediately be enrolled; however, the person enrolling the student shall provide a written statement that, to the best of his knowledge, sets forth (i) the student's age, (ii) compliance with the requirements of § [22.1-3.2](#), and (iii) that the student is in good health and is free from communicable or contagious disease.

B. The sending and receiving school divisions shall cooperate in facilitating the enrollment of any child placed in foster care across jurisdictional lines for the purpose of enhancing continuity of instruction. The child shall be allowed to continue to attend the school in which he was enrolled prior to the most recent foster care placement, upon the joint determination of the placing social services agency and the local school division that such attendance is in the best interest of the child.

C. In the event the student continues to attend the school in which he was enrolled prior to the most recent foster care placement, the receiving school division shall be accorded foster children education payments pursuant to § [22.1-101.1](#); further, the receiving school division may enter into financial arrangements with the sending school division pursuant to subsection C of § [22.1-5](#). Under no circumstances shall a child placed in foster care be charged tuition regardless of whether such child is attending the school in which he was enrolled prior to the most recent foster care placement or attending a school in the receiving school division.

D. For the purposes of subsections A, B, and C:

"A child or student placed in foster care" means a pupil who is the subject of a foster care placement through an entrustment or commitment of such child to the local social services board or licensed child-placing agency pursuant to clause (ii) of the definition of "foster care placement" as set forth in § [63.2-100](#).

For the purposes of this section:

"Receiving school division" means the school division in which the residence of the student's foster care placement is located.

"Sending school division" means the school division in which the student last attended school.

E. Notwithstanding the provisions of subsections A, B, and C or § [22.1-3](#) or [22.1-5](#), no person of school age who is the subject of a foster care placement, as such term is defined in § [63.2-100](#), shall be charged tuition.

F. The provisions of this section shall apply to any student who was in foster care upon reaching 18 years of age but who has not yet reached 22 years of age.

2005, c. [343](#); 2011, c. [154](#); 2020, cc. [474](#), [475](#).

§ 22.1-4. Repealed.

Repealed by Acts 1991, c. 523.

§ 22.1-4.1. Street addresses required in certain school admission documents.

Documents submitted for admission of any child to public schools in the Commonwealth, except such documents required in accordance with §§ [22.1-3.1](#) and [22.1-270](#), shall include the street address or route number of each pupil's residence. If no street address or route number exists for such residence, a post office box number shall be required.

If the pupil is a homeless child or youth as defined in subdivision A 7 of § [22.1-3](#), and for that reason the school division determines, on the basis of the affidavit of the person seeking to enroll the pupil, that a street address, route number, or post office box number cannot be provided, it may accept an address in an alternate form it deems appropriate.

Address information provided under this section shall not be released to any person unless otherwise authorized by law.

1997, c. [900](#); 2000, c. [209](#); 2004, c. [500](#); 2019, c. [586](#).

§ 22.1-4.2. Designation of race or ethnicity.

A. School board employees administering tests or other assessment instruments shall not require any public school students being tested to disclose their race or ethnicity on such tests.

Nothing in this subsection shall, however, prevent relevant school division personnel from obtaining such information from the students' permanent record and placing such information on such test or assessment instrument.

B. No student or his parent shall be required to disclose information related to the student's race or ethnicity unless (i) the student or his parent is given an option to designate "other" for the student's race or ethnicity or (ii) such disclosure is required by federal law.

2000, c. [273](#); 2018, c. [587](#).

§ 22.1-4.3. Participation by and notification of noncustodial parent.

Unless a court order has been issued to the contrary, the noncustodial parent of a student enrolled in a public school or day care center (i) shall not be denied the opportunity to participate in any of the student's school or day care activities in which such participation is supported or encouraged by the policies of the school or day care center solely on the basis of such noncustodial status and (ii) shall be included, upon the request of such noncustodial parent, as an emergency contact for the student's school or day care activities.

For the purposes of this section, "school or day care activities" shall include, but shall not be limited to, lunch breaks, special in-school programs, parent-teacher conferences and meetings, and extra-curricular activities. It is the responsibility of the custodial parent to provide the court order to the school or day care center.

§ 22.1-5. Regulations concerning admission of certain persons to schools; tuition charges.

A. Consistent with Article VIII, Section 1 of the Constitution of Virginia, no person may be charged tuition for admission or enrollment in the public schools of the Commonwealth, whether on a full-time or part-time basis, who meets the residency criteria set forth in § [22.1-3](#). No person of school age shall be charged tuition for enrollment in a program preparing students to pass a high school equivalency examination approved by the Board of Education or alternative program offered as a regional or divisionwide initiative by the local school division in which such person is deemed to reside pursuant to § [22.1-3](#). Further, no person of school age shall be denied admission or charged tuition when (i) such person's custodial parent has been deployed outside the United States as a member of the Virginia National Guard or as a member of the United States armed forces; and (ii) such person's custodial parent has executed a Special Power of Attorney under Title 10, United States Code, § 1044b providing for the care of the person of school age by an individual who is defined as a parent in § [22.1-1](#) during the time of his deployment outside the United States. The person of school age shall be allowed to attend a school in the school division in which the individual providing for his care, pursuant to the Special Power of Attorney under Title 10, United States Code, § 1044b, resides. Furthermore, when practicable, such persons of school age may continue to attend school in the Virginia school division they attended immediately prior to the deployment and shall not be charged tuition for attending such division.

The following persons may, however, in the discretion of the school board of a school division and pursuant to regulations adopted by the school board, be admitted into the public schools of the division and may, in the discretion of the school board, be charged tuition:

1. Persons who reside within the school division but who are not of school age.
2. Persons of school age who are residents of the Commonwealth but who do not reside within the school division, except as provided in this section.
3. Persons of school age who are attending school in the school division pursuant to a foreign student exchange program approved by the school board.

4. Persons of school age who reside beyond the boundaries of the Commonwealth but near thereto in a state or the District of Columbia which grants the same privileges to residents of the Commonwealth.
5. Persons of school age who reside on a military or naval reservation located wholly or partly within the geographical boundaries of the school division and who are not domiciled residents of the Commonwealth of Virginia; however, no person of school age residing on a military or naval reservation located wholly or partly within the geographical boundaries of the school division may be charged tuition if federal funds provided under P.L. 874 of 1950, commonly known as Impact Aid, shall fund such students at not less than 50 percent of the total per capita cost of education, exclusive of capital outlay and debt service, for elementary or secondary pupils, as the case may be, of such school division. Notwithstanding any other provision of law to the contrary, such persons of school age who reside on a military or naval reservation with military-owned housing located wholly or partly within the geographical boundaries of multiple school divisions shall be deemed eligible for interscholastic programs immediately upon enrollment in a public elementary or secondary school in any of the aforementioned school divisions, provided that such persons (i) satisfy all other requirements for eligibility and (ii) are dependents of a military service member required by the military to live on the military installation as evidenced by a statement on command letterhead signed by, or by direction of, the service member's commanding officer.
6. Persons of school age who, as domiciled residents of the Commonwealth who were enrolled in a public school within the school division, are required as a result of military or federal orders issued to their parents to relocate and reside on federal property in another state or the District of Columbia, if the school division subsequently enrolling such persons is contiguous to such state or District of Columbia.
7. Persons of school age who reside in the school division and who are enrolled in summer programs, exclusive of required remediation as provided in § [22.1-253.13:1](#), or in local initiatives or programs not required by the Standards of Quality or the Standards of Accreditation.

For the purposes of determining the residency of persons described in subdivisions 1 and 2, local school boards shall adopt regulations consistent with the residency requirements regarding persons residing in housing or temporary shelter, or on property located in multiple jurisdictions, as articulated in § [22.1-3](#).

B. Persons of school age who are not residents of the Commonwealth but are living temporarily with persons residing within a school division may, in the discretion of the school board and pursuant to regulations adopted by it, be admitted to the public schools of the school division. Tuition shall be charged such persons.

C. No tuition charge authorized or required in this section shall exceed the total per capita cost of education, exclusive of capital outlay and debt service, for elementary or secondary pupils, as the case may be, of such school division and the actual, additional costs of any special education or gifted and talented program provided the pupil, except that if the tuition charge is payable by the school board of

the school division of the pupil's residence pursuant to a contract entered into between the two school boards, the tuition charge shall be that fixed by such contract.

D. School boards may accept and provide programs for students for whom English is a second language who entered school in Virginia for the first time after reaching their twelfth birthday, and who have not reached 22 years of age on or before August 1 of the school year. No tuition shall be charged such students, if state funding is provided for such programs.

§ 22.1-5.1. Organizations governing public school interscholastic programs; participation by students in military families.

A. No public elementary or secondary school shall become a member of any organization or entity whose purpose is to regulate or govern interscholastic programs that does not deem eligible for participation a student who:

1. Previously attended the school and (i) moved with a parent, as defined in § [22.1-1](#), out of the school's attendance area because that parent is a full-time active duty member of the uniformed services of the United States, including service in the National Guard and Reserve on active duty orders pursuant to 10 U.S.C. §§ 1209 and 1211, and received orders to relocate and (ii) moved back to and currently lives in the school's attendance area; or

2. Continues to live in the school's attendance area, but whose parent, as defined in § [22.1-1](#), moved out of the school's attendance area because that parent is a full-time active duty member of the uniformed services of the United States, including service in the National Guard and Reserve on active duty orders pursuant to 10 U.S.C. §§ 1209 and 1211, and received orders to relocate.

B. Nothing in this section shall affect the school board's discretion to admit a student to a public school in the local school division and charge tuition for his attendance if the student is not deemed to reside in the local school division pursuant to §§ [22.1-3](#) and [22.1-5](#).

§ 22.1-7. Responsibility of each state board, agency, and institution having children in residence or in custody.

A. Each state board, state agency, and state institution having children in residence or in custody shall have responsibility for providing for the education and training to such children which is at least comparable to that which would be provided to such children in the public school system. Such board, agency, or institution may provide such education and training either directly with its own facilities and personnel in cooperation with the Board of Education or under contract with a school division or any other public or private nonreligious school, agency, or institution.

B. The Board of Education shall supervise the education and training provided to school-age individuals in state training centers, and shall provide for and direct the education for school-age individuals in state hospitals operated by the Department of Behavioral Health and Developmental Services in cooperation with the Department of Behavioral Health and Developmental Services.

C. The Board shall prescribe standards and regulations for all such education and training provided directly by a state board, state agency, or state institution.

D. Each state board, state agency, or state institution providing such education and training shall submit annually its program therefor to the Board of Education for approval in accordance with regulations of the Board.

E. Members shall be appointed by the circuit court of the county within thirty days after the first day of July, 1950, and every four years thereafter. Any vacancy occurring other than by expiration of term shall be filled by the circuit court within thirty days after the vacancy occurs. Each member shall receive twenty-five dollars for each day actually engaged in the performance of duties as such member, to be paid out of the funds of the school board. Article 7 - POPULAR ELECTION OF SCHOOL BOARD

§ 22.1-57.1. Applicability.

The provisions of this article shall apply to any county, city, or town constituting a separate and entire school division. If a town within a county constitutes a separate school division and the balance of that county constitutes a separate school division, the term county as used in this article shall be construed to mean the balance of the county excepting the town. If a county and city, or any combination thereof, constitute a consolidated school division, each county or city shall be treated as a separate entity for the purposes of this article and be entitled to hold its own referendum and proceed to elect the same number of members to the consolidated board as have been appointed from the county or city. The provisions of this article shall apply to every school division, county, city, and town notwithstanding any other provision of this chapter, of Title 15.2, or of any charter.

1992, c. 594.

§ 22.1-57.1:1. Referendum in certain consolidated cities.

Notwithstanding the provisions of this article or any other statutory provision, where an existing city and a county consolidate into a consolidated city and where the county at the time of consolidation is providing all school services to the existing city by contract pursuant to § [22.1-27](#) and the voters of the county have approved direct election of the school board, the consolidation plan or agreement shall provide for the election of school board members directly by the voters of the consolidated city without the necessity of a further referendum under § [22.1-57.2](#); in such case, the consolidation plan or agreement shall provide that the members of the initial school board shall be elected from the municipal election districts designated in the consolidation plan or agreement. The provisions of § [22.1-57.3](#) shall apply in all other respects.

1995, c. [728](#).

§ 22.1-57.2. Referendum on direct election of school board members by the voters.

The registered voters of any such county, city, or town may, by petition filed with the circuit court thereof, ask that a referendum be held on the question of whether the members of the school board of the county, city, or town shall be elected directly by the voters. The petition shall be signed by registered voters equal in number to at least 10 percent of the number registered in such locality on the January 1 preceding its filing. Upon the filing of a petition, the circuit court shall order and require the election officials at the next general election to open the polls and take the sense of the voters therein on that question. The petition shall be filed with the court not less than 111 days prior to the

general election. The clerk of the court shall cause notice of the referendum to be published once a week for the three consecutive weeks prior to the referendum in a newspaper having general circulation in the county, city, or town, and a copy of the notice shall be posted during the same time on the door of the courthouse of the county or city, or of the county within which the town is located. The question on the ballot shall be:

"Shall the method of selecting the school board be changed from appointment by the governing body (or the school board selection commission, whichever is applicable) to direct election by the voters?

☐ YES

☐ NO"

The election shall be held and the results certified as provided in § [24.2-684](#).

1992, c. 594; 2011, c. [599](#).

§ 22.1-57.3. Election of school board members; election of tie breaker.

A. If a majority of the qualified voters voting in such referendum vote in favor of changing the method of selecting school board members to direct election by the voters, then the members of the school board shall be elected by popular vote. Elections of school board members in a county, city, or town shall be held to coincide with the elections for members of the governing body of the county, city, or town at the regular general election in November or the regular general election in May, as the case may be.

B. The initial elected board shall consist of the same number of members as the appointed school board it replaces, and the members shall be elected from the established county or municipal election districts, at large, or a combination thereof, on the same basis as the school board previously was appointed. If the appointed school board being replaced has not been appointed either on an at-large basis or on the basis of the established county or municipal election districts, or a combination thereof, the members shall be elected at large unless the governing body of the county, city, or town provides for the election of school board members on the basis of the established county or municipal election districts. If the appointed school board being replaced has been appointed at large, the governing body of the county, city, or town may establish school election districts for the election of school board members. The governing body may provide for a locality-wide district, one or more districts comprised of a part of the locality, or any combination thereof, and for the apportionment of one or more school board members to any district.

The terms of the members of the elected school board for any county, city, or town shall be the same as the terms of the members of the governing body for the county, city, or town. In any locality in which both the school board and the governing body are elected from election districts, as opposed to being elected wholly on an at-large basis, the elections of the school board member and governing body member from each specific district shall be held simultaneously except as otherwise provided in §§ [22.1-57.3:1](#), [22.1-57.3:1.1](#), and [22.1-57.3:1.2](#).

At the first election for members of the school board, so many members shall be elected as there are members to be elected at the regular election for the governing body. At each subsequent regular election for members of the governing body, the same number of members of the school board shall be elected as the number of members to be elected at the regular election to the governing body. However, if the number of members on the school board differs from the number of members of the governing body, the number of members elected to the school board at the first and subsequent general election shall be either more or less than the number of governing body members, as appropriate, to the end that the number of members on the initial elected school board is the same as the number of members on the appointed board being replaced.

Except as provided in §§ [22.1-57.3:1](#), [22.1-57.3:1.1](#), and [22.1-57.3:1.2](#), the terms of the members of the school board shall be staggered only if the terms of the members of the governing body are staggered. If there are more, or fewer, members on the school board than on the governing body, the number of members to be elected to the school board at the first and subsequent election for school board members shall be the number required to establish the staggered term structure so that (i) a majority of the members of the school board is elected at the same time as a majority of the members of the governing body; (ii) if one-half of the governing body is being elected and the school board has an even number of members, one-half of the members of the school board is elected; (iii) if one-half of the governing body is being elected and the school board has an odd number of members, the majority by one member of the school board is elected at the first election and the remainder of the school board is elected at the second election; or (iv) if a majority of the members of the governing body is being elected and the school board has an even number of members, one-half of the members of the school board is elected.

If the school board is elected at large and the terms of the members of the school board are staggered, the school board members to be replaced at the first election shall include all appointed school board members whose appointive terms are scheduled to expire on December 31 or on June 30, as the case may be, next following the first election of county, city or town school board members. If the number of school board members whose appointive terms are so scheduled to expire is zero or less than the number of school board members to be elected at the first election, the appointed school board members to be replaced at the first election shall also include those whose appointive terms are scheduled to expire next subsequent to the date on which the terms of office of the first elected school board members will commence. If the appointive terms of more than one school board member are scheduled to expire simultaneously, but less than all of such members are to be replaced at the first election, then the identity of such school board member or members to be replaced at the first election shall be determined by a drawing held by the county or city electoral board at least ten days prior to the last day for a person to qualify as a candidate for school board member.

In any case in which school board members are elected from election districts, as opposed to being elected from the county, city, or town at large, the election districts for the school board shall be coterminous with the election districts for the county, city, or town governing body, except as may be

specifically provided for the election of school board members in a county, city, or town in which the governing body is elected at large.

C. The terms of office for the school board members shall commence on January 1 or July 1, as the case may be, following their election. On December 31 or June 30, as the case may be, following the first election of county, city or town school board members, the terms of office of the members of the school board in office through appointment shall expire and the school board selection commission, if there is one, shall be abolished. If the entire school board is not elected at the first election of school board members, only the terms of the appointed members being replaced shall so expire and the terms of the appointed members being replaced at a subsequent election shall continue or be extended to expire on December 31 or June 30, as appropriate, of the year of the election of the school board members replacing them.

D. Except as otherwise provided herein, a vacancy in the office of any elected school board member shall be filled pursuant to §§ [24.2-226](#) and [24.2-228](#). In any county that has adopted the urban county executive form of government and that has adopted an elected school board, any vacancy on the elected school board shall be filled in accordance with the procedures set forth in § [15.2-802](#), mutatis mutandis. Notwithstanding any provision of law or charter to the contrary, if no candidates file for election to a school board office and no person who is qualified to hold the office is elected by write-in votes, a vacancy shall be deemed to exist in the office as of January 1 or July 1, as the case may be, following the general election. For the purposes of this subsection and Article 6 (§ [24.2-225](#) et seq.) of Chapter 2 of Title 24.2, local school boards comprised of elected and appointed members shall be deemed elected school boards.

E. In order to have their names placed on the ballot, all candidates shall be nominated only by petition as provided by general law pursuant to § [24.2-506](#).

F. For the purposes of this section, the election and term of the mayor or chairman of the board of supervisors shall be deemed to be an election and term of a member of the governing body of the municipality or county, respectively, whether or not the mayor or chairman is deemed to be a member of the governing body for any other purpose.

G. No employee of a school board shall be eligible to serve on the board with whom he is employed.

H. Any elected school board may have a position of tie breaker for the purpose of casting the deciding vote in cases of tie votes of the school board as provided in § [22.1-75](#). The position of tie breaker, if any, shall be held by a qualified voter who is a resident of the county, city, or town and who shall be elected in the same manner and for the same length of term as members of the school board and at a general election at which members of the school board are elected. A vacancy in the position of tie breaker shall be filled pursuant to §§ [24.2-226](#) and [24.2-228](#).

Notwithstanding § [22.1-57.3:1](#) and the second enactment of Chapter 744 of the Acts of Assembly of 1994, the school board of Loudoun County shall be elected as provided in § [22.1-57.3](#), except that upon a majority vote of its members the terms of school board members may be staggered as provided in this section. At the November election immediately preceding the end of the board's term, and upon the board's prior vote for staggered terms, the members from four of the nine districts, inclusive of the at-large district, to be determined by lot by the electoral board of the county prior to its meeting immediately preceding the deadline for candidate filing, shall be elected for four-year terms, and the remaining districts' successful candidates shall be elected for two-year terms.

Thereafter, all members shall be elected for four-year terms, and the school board elections shall be conducted biennially for staggered terms.

§ 22.1-57.3:1.2. Pittsylvania County school board; staggered terms.

The school board of Pittsylvania County shall be elected as provided in § [22.1-57.3](#), except that upon a majority vote of its members the terms of school board members may be staggered as provided in this section. At the November 2011 general election, the members from four districts, to be determined by lot by the electoral board of the county as soon as practicable before the election, shall be elected for four-year terms and the remaining districts' successful candidates shall be elected for two-year terms.

Thereafter, all members shall be elected for four-year terms and the school board elections shall be conducted biennially for staggered terms.

§ 22.1-57.3:3. Election of school board and chairman in certain counties.

A. The provisions of this section shall be applicable in any county (i) which has the county executive form of government and which is contiguous to a county having the urban county executive form of government and (ii) in which the chairman of the board of supervisors is elected at large.

B. Following a referendum held in 1994 or thereafter in which the qualified voters of the county approve a change to an elected school board, the school board shall be elected as provided in § [22.1-57.3](#) except as otherwise provided in this section. One member of the school board shall be elected at

large. All other members shall be elected from the same districts from which the members of the board of supervisors other than the chairman are elected. The member of the school board who is elected at large at the initial or any subsequent election shall be the chairman of the school board during his term of office notwithstanding the provisions of § [22.1-76](#).

1995, c. [842](#).

§ 22.1-57.4. Referendum to revert to appointment of the school board.

A. By the same procedure and under the same requirements as provided in § [22.1-57.2](#), the registered voters of any county, city, or town which selects members of the school board by direct election of the voters may petition for, and the circuit court shall so order, a referendum on the question of changing from direct election of the school board to appointment of school board members by the governing body or, if the petition so states in the case of a county, by a school board selection commission. The question on the ballot shall be:

"Shall the method of selecting the school board be changed from direct election by the voters to appointment by the governing body (or, if the petition in a county so requests, a school board selection commission)?

☐ YES

☐ NO"

B. If a majority of the qualified voters voting in such referendum vote in favor of changing the method of selecting school board members to appointment by the governing body or by a school board selection commission, as the case may be, the terms of the school board members in office through direct election shall terminate on June 30 following the referendum. A school board selection commission shall be appointed pursuant to § [22.1-35](#) if a majority have voted in the referendum for that selection method. The members of the appointed school board shall be appointed for the terms and in the manner provided in the article of this chapter or the chapter of Title 15.2 applicable to the county, city, or town in which the referendum has been held.

1992, c. 594.

§ 22.1-98. Reduction of state aid when length of school term below 180 days or 990 hours.

A. For the purposes of this section:

"Declared state of emergency" means the declaration of an emergency before or after an event, by the Governor or by officials in a locality, that requires the closure of any or all schools within a school division.

"Severe weather conditions or other emergency situations" means those circumstances presenting a threat to the health or safety of students that result from severe weather conditions or other emergencies, including natural and man-made disasters, energy shortages, or power failures.

B. Except as provided in this section:

1. The length of every school's term in every school division shall be at least 180 teaching days or 990 teaching hours in any school year; and

2. If the length of the term of any school or the schools in a school division shall be less than 180 teaching days or 990 teaching hours in any school year, the amount paid by the Commonwealth from the Basic School Aid Fund shall, except as otherwise hereinafter provided or as otherwise provided by law, be reduced in the same proportion as the length of the school term has been reduced in any school or the schools in the school division from 180 teaching days or 990 teaching hours.

C. Notwithstanding the requirements of subsection B, in any case in which severe weather conditions or other emergency situations result in the closing of a school or the schools in a school division or in an unscheduled remote learning day for a school or the schools in a school division, the amount paid by the Commonwealth from the Basic School Aid Fund shall not be reduced if one of the following methods of make-up days, make-up hours, or unscheduled remote learning days, as appropriate in the circumstances, is followed:

1. When severe weather conditions or other emergency situations have resulted in the closing of a school or the schools in a school division for five or fewer days, the school or the schools in the school division shall make up all missed days by adding teaching days to the school calendar or extending the length of the school day;

2. When severe weather conditions or other emergency situations have resulted in the closing of a school or the schools in a school division for six days or more, the school or the schools in the school division shall make up the first five days plus one day for each two days missed in excess of the first five by adding teaching days to the school calendar or extending the length of the school day;

3. When severe weather conditions or other emergency situations have resulted in the closing of any school in a school division and such school has been unable to meet the 180 teaching day requirement, the school division may make up the missed teaching days by providing its students with instructional hours equivalent to such missed teaching days to meet the minimum 990 teaching hour requirement; or

4. When severe weather conditions or other emergency situations have resulted in the closing of any school in a school division for in-person instruction, the school division may declare an unscheduled

remote learning day whereby the school provides instruction and student services that are consistent with guidelines established by the Department of Education to ensure the equitable provision of such services. No school division shall claim more than 10 unscheduled remote learning days in a school year unless the Superintendent of Public Instruction grants an extension.

D. The local appropriations for educational purposes necessary to fund 180 teaching days or 990 teaching hours shall also not be proportionally reduced by any local governing body because of any reduction in the length of the term of any school or the schools in a school division authorized by subsection C.

E. The foregoing provisions of this section notwithstanding, the Board of Education may waive the requirement that school divisions provide additional teaching days or teaching hours to compensate for school closings resulting from a declared state of emergency or severe weather conditions or other emergency situations. If the local school board desires a waiver, it shall submit a request to the Board of Education. The request shall include evidence of efforts that have been made by the school division to reschedule as many days as possible and certification by the division superintendent and chairman of the local school board that every reasonable effort for making up lost teaching days or teaching hours was exhausted before requesting a waiver of this requirement. If the waiver is denied, the school division shall make up the missed instructional time in accordance with this section.

If the Board grants such a waiver, there shall be no proportionate reduction in the amount paid by the Commonwealth from the Basic School Aid Fund. Further, the local appropriations for educational purposes necessary to fund 180 teaching days or 990 teaching hours shall not be proportionally reduced by any local governing body due to any reduction in the length of the term of any school or the schools in a school division permitted by such waiver.

F. Notwithstanding the provisions of this section, the Board of Education shall waive the requirement that school divisions provide additional teaching days or teaching hours to compensate for school closings resulting from an evacuation directed and compelled by the Governor pursuant to § [44-146.17](#) for up to five teaching days. If the local school board desires such a waiver, it shall notify the Board of Education and provide evidence of efforts that have been made by the school division to reschedule as many days as possible and certification by the division superintendent and chairman of the local school board that every reasonable effort for making up lost teaching days or teaching hours was exhausted. After receiving such notification, the Board shall grant the waiver and there shall be no proportionate reduction in the amount paid by the Commonwealth from the Basic School Aid Fund. Further, the local appropriations for educational purposes necessary to fund 180 teaching days or 990 teaching hours shall not be proportionally reduced by any local governing body due to any reduction in the length of the term of any school or the schools in a school division permitted by such waiver.

G. If the professional personnel of any such school division actually render service for less than the contracted period for such school year and their compensation is reduced because of insufficient

funds or other reason, the proportionate amount paid by the Commonwealth for the personnel component of the Basic School Aid Fund for such school year shall be reduced pro rata.

Notwithstanding any provision of law to the contrary, the school board of any school division in which the length of the term for any school or for the schools in the school division is reduced as provided in this section may pay its professional personnel such salary as they would have received if the term had not been so reduced.

H. In developing the school calendar as provided for in § [22.1-79.1](#), each local school board shall establish such calendars and teaching contracts in accordance with applicable regulations of the Board of Education to include contingencies for making up teaching days and teaching hours missed for emergency situations described in this section. Historical data shall be used to determine the needs of the locality including scheduled holidays and breaks and work days.

I. The Board of Education may authorize the Superintendent of Public Instruction to approve, in compliance with this section, reductions in the school term for a school or the schools in a school division without a proportionate reduction in the amount paid by the Commonwealth from the Basic School Aid Fund.

J. With the exception of the Basic School Aid Fund as provided for above, the Commonwealth shall not distribute funds to a locality for costs not incurred when the school term is reduced below 180 teaching days or 990 teaching hours.

K. As part of the annual report required by § [22.1-81](#), the division superintendent and local school board chairman shall certify the total number of teaching days and teaching hours each year.

§ 22.1-98.1. Extended School Year Incentive Program.

From such funds as may be appropriated for such purpose and from such gifts, donations, grants, bequests, and other funds as may be received on its behalf, there is hereby established the Extended School Year Incentive Program, hereinafter referred to as the "Program," to be administered by the Board of Education.

In accordance with the appropriation act, any funds appropriated or otherwise provided for the Program shall be disbursed to award incentive grants to public school divisions for the operation of schools beyond the 180-day school year or 990 hours in any school year as required by § [22.1-98](#) and the Standards of Accreditation. However, the grants shall not be awarded to support summer school initiatives.

2000, c. [858](#).

§ 22.1-98.2. Certain agreements; adjustment of state share for basic aid.

A. Any school board of a school division in which fewer than 1,100 students were included in average daily membership for the preceding school year, in a locality that has a local composite index of .6000 or greater, and has 65 percent or more of its local taxes coming from real estate taxes, as calculated by the Auditor of Public Accounts and reported annually to the Department of Education, upon entering into certain cost-savings agreements with a contiguous school division for the consolidation or sharing of educational, administrative, or support services, shall receive the state share for basic aid computed on the basis of the composite index of local ability-to-pay of the contiguous school division, calculated annually.

The Board of Education shall develop eligibility criteria for such cost-savings and service-sharing agreements and for the adjustment of the state share for basic aid, consistent with the appropriation act.

The Governor shall approve the adjustment to the state share prior to the disbursement of funds. The Department of Education shall annually report to the Chairmen of the House Committee on Appropriations and Senate Committee on Finance and Appropriations the cost-savings agreements made and the adjusted state shares so approved.

B. The local school board receiving the adjusted state share shall not use the additional funds received to supplant local funds appropriated for education. The adjusted state share shall be used solely for educational purposes and shall not be used to reduce local operating expenditures for public education from the prior fiscal year. However, no school division shall be required to maintain a per pupil expenditure for operations that exceeds the per pupil expenditure in the prior fiscal year. The superintendent of the school division shall inform the Superintendent of Public Instruction of the public education purpose for which these local funds shall be used.

C. Nothing in this section shall prohibit the Commonwealth from terminating or modifying any program or function under which distribution to a local school board has been made, and if so terminated or modified all obligations hereunder shall cease or be reduced in proportion with such modifications, as the case may be.

D. Except as provided in subsection C, such contractual agreements shall remain in effect until terminated by the relevant school divisions. If any such contractual agreements between the relevant school divisions terminate, the Commonwealth's obligation under this section shall cease.

E. This agreement and adjusted state payment shall be in lieu of any existing funds a locality receives from a Small School Division Assistance grant.

F. Any standard of quality set forth in this act that is not required as of June 30, 2004, and for which additional state funding is required, shall not take effect unless the state's share of funding that standard is included in the general appropriation act for the period July 1, 2004, through June 30, 2006, passed during the 2004 Session of the General Assembly and signed into law by the Governor.

§ 22.1-99. Approval and certification of apportionment of school funds.

Subject to approval or amendment by the Board of Education, the Superintendent of Public Instruction shall apportion the state funds appropriated for public school purposes among the several school divisions and, when approved, the Superintendent of Public Instruction shall certify to the Comptroller such apportionment for the payment of the same.

Code 1950, § 22-140; 1972, c. 663; 1980, c. 559.

§ 22.1-100. Unexpended school and educational funds.

All sums of money derived from the Commonwealth which are unexpended in any year in any school division shall revert to the fund of the Commonwealth from which derived unless the Board of Education directs otherwise. All sums derived from local funds unexpended in any year shall remain a part of the funds of the governing body appropriating the funds for use the next year, but no local funds shall be subject to redivision outside of the locality in which they were raised.

Code 1950, § 22-138; 1956, Ex. Sess., c. 67; 1980, c. 559.

§ 22.1-100.1. Lottery proceeds nonrecurring costs escrow accounts.

A. Notwithstanding the provisions of § [22.1-100](#), the governing body of any locality may authorize the local treasurer or fiscal officer, by ordinance or resolution, to create a separate escrow account upon the books of the locality for the deposit of that portion of the locality's appropriation from the lottery proceeds which are designated, pursuant to Item 139 B 4 of Chapter 935 of the 1999 Acts of Assembly or any other state law, for nonrecurring costs incurred by the relevant school division.

Such nonrecurring costs shall include school construction, additions, infrastructure, site acquisition, renovations, technology, and other expenditures related to modernizing classroom equipment, and debt service payments on school projects completed during the last ten years. Upon adoption of the proper ordinance or resolution, the treasurer or local fiscal officer of the locality shall place such appropriation into a separate lottery proceeds nonrecurring costs escrow account. Under no circumstances shall the escrow account allowed for the school construction grants pursuant to § [22.1-175.5](#) be used for these deposits.

B. The escrow account shall be known as the "County/City/Town of _____ Lottery Proceeds Nonrecurring Costs Fund." All principal deposited to such fund, together with all income from or attributable to the fund, shall be used solely for (i) construction, additions, renovations, including retrofitting and enlarging public school buildings, infrastructure, including technology infrastructure, and site acquisition for public school buildings and facilities or (ii) debt service payments, or a portion thereof, for any such projects completed in the previous ten years if so designated.

No disbursement from the fund may be made except upon specific appropriation by the governing body in accordance with applicable law. If a locality establishes such a fund and designates any portion of the funds deposited therein to pay debt service for (i) any general obligation of the locality held by the Virginia Public School Authority or (ii) any Literary Fund loan, the locality shall obtain an opin-

ion of bond counsel that designation of funds to pay debt service on obligations described in clauses (i) and (ii) hereof does not adversely impact the tax-exempt status of such obligations.

C. All moneys deposited in the fund, including all income from or attributable to such fund, shall be deemed public funds of the locality and shall be subject to all limitations upon deposit and investment provided by general law, including, but not limited to, the Virginia Security for Public Deposits Act (§ [2.2-4400](#) et seq.). Income, dividends, distributions, and grants accruing to the fund shall be retained in such fund and shall be expended only in accordance with the terms of this section.

D. Nothing in this section shall be deemed or construed to authorize a school board or school division to receive, hold or invest funds in its own name, or to expend funds in the absence of a specific appropriation by the governing body of the locality in accordance with applicable law.

§ 22.1-101. Repealed.

Repealed by Acts 1988, c. 101.

§ 22.1-101.1. Increase of funds for certain nonresident students; how increase computed and paid; billing of out-of-state placing agencies or persons.

A. To the extent such funds are appropriated by the General Assembly, a school division shall be reimbursed for the cost of educating a child who is not a child with disabilities and who is not a resident of such school division under the following conditions:

1. When such child has been placed in foster care or other custodial care within the geographical boundaries of the school division by a Virginia agency, whether state or local, which is authorized under the laws of this Commonwealth to place children;
2. When such child has been placed within the geographical boundaries of the school division in an orphanage or children's home which exercises legal guardianship rights; or
3. When such child, who is a resident of Virginia, has been placed, not solely for school purposes, in a child-caring institution or group home licensed under the provisions of Chapter 17 (§ [63.2-1700](#) et seq.) of Title 63.2 which is located within the geographical boundaries of the school division.

B. To the extent such funds are appropriated by the General Assembly, a school division shall be reimbursed for the cost of educating a child with disabilities who is not a resident of such school division under the following conditions:

1. When the child with disabilities has been placed in foster care or other custodial care within the geographical boundaries of the school division by a Virginia agency, whether state or local, which is authorized under the laws of this Commonwealth to place children;
2. When such child with disabilities has been placed within the geographical boundaries of the school division in an orphanage or children's home which exercises legal guardianship rights; or

3. When such child with disabilities, who is a resident of Virginia, has been placed, not solely for school purposes, in a child-caring institution or group home licensed under the provisions of Chapter 17 (§ [63.2-1700](#) et seq.) of Title 63.2 which is located within the geographical boundaries of the school division.

C. Each school division shall keep an accurate record of the number of days which any child, identified in subsection A or B above, was enrolled in its public schools, the required local expenditure per child, the handicapping condition, if applicable, the placing agency or person and the jurisdiction from which the child was sent. Each school division shall certify this information to the Board of Education by July 1 following the end of the school year in order to receive proper reimbursement. No school division shall charge tuition to any such child.

D. When a child who is not a resident of Virginia, whether disabled or not, has been placed by an out-of-state agency or a person who is the resident of another state in foster care or other custodial care or in a child-caring institution or group home licensed under the provisions of Chapter 17 (§ [63.2-1700](#) et seq.) of Title 63.2 located within the geographical boundaries of the school division, the school division shall not be reimbursed for the cost of educating such child from funds appropriated by the General Assembly. The school division in which such child has been enrolled shall bill the sending agency or person for the cost of the education of such child as provided in subsection C of § [22.1-5](#).

The costs of the support and maintenance of the child shall include the cost of the education provided by the school division; therefore, the sending agency or person shall have the financial responsibility for the educational costs for the child pursuant to Article V of the Interstate Compact on the Placement of Children as set forth in Chapters 10 (§ [63.2-1000](#) et seq.) and 11 (§ [63.2-1100](#) et seq.) of Title 63.2. Upon receiving the bill for the educational costs from the school division, the sending agency or person shall reimburse the billing school division for providing the education of the child. Pursuant to Article III of the Interstate Compact on the Placement of Children, no sending agency or person shall send, bring, or cause to be sent or brought into this Commonwealth any child for placement unless the sending agency or person has complied with this section by honoring the financial responsibility for the educational cost as billed by a local school division.

E. To the extent that state funds appropriated by the General Assembly pursuant to subsection A or B or other state funds, such as those provided on the basis of average daily membership, do not cover the full cost of educating a child pursuant to this subsection, a school division shall be reimbursed by (i) the school division in which a child's custodial parent or guardian resides or (ii) in the case of a child who has been placed in the custody of the Department of Social Services, the school division in which the parent or guardian who had custody immediately preceding the placement resides, for any remaining costs of educating such child, whether disabled or not, who has been placed, not solely for school purposes, in (a) foster care or other custodial care within the geographical boundaries of the school division to be reimbursed, or (b) a child-caring institution or group home licensed under the provisions of Chapter 17 (§ [63.2-1700](#) et seq.) of Title 63.2 that is located within the geographical boundaries of the school division to be reimbursed.

Such levy or levies shall be at such rate or rates as the governing body levying the tax may deem necessary for the purpose or purposes for which levied, except that where the tax is for raising funds for capital expenditures the rate shall not be more than \$2.50 on each \$100 of the assessed value of such property in any one year.

In any county in which the governing body imposes district levies for school purposes, the school board may, by resolution, request the governing body to impose a uniform county levy for school purposes with the proceeds to be expended as provided by law and such expenditures shall include the repayment of district school obligations. Upon the receipt of any such resolution the governing body shall petition the circuit court of the county to fix a date for a referendum to obtain the sense of the qualified voters upon such change.

If a majority of those voting in the referendum vote against a uniform county school levy the governing body may levy such taxes as it deems best, subject to law. But if a majority of those voting vote for a uniform county school levy the governing body of the county thereafter shall, for each succeeding tax

year, lay a uniform county school levy and the proceeds thereof shall be expended as provided by law for school purposes including the repayment of district school obligations.

All glebe lands and church property, or the proceeds thereof, which may be appropriated under § [57-3](#) for education shall be vested in the school board of the school division within whose boundaries the property lies and shall be managed and applied by the school board according to the wishes of the donor. The treasurer of each school division within whose boundaries there is located any land owned by the United States government and held as a forest reserve shall ascertain the area of such land so situated in the school division and the reserve in which the same is located and make a report thereof to the Comptroller. Upon receipt of such information from the treasurer, the Comptroller shall apportion all federal funds arising from such forest reserve among the school divisions in which such forest reserve is located according to the area in each school division. Subject to the approval of the governing body or bodies appropriating funds to the school board, any school board is authorized to borrow money, when necessary, not to exceed in the aggregate one-half of the amount produced by the school levy for the school division for the year in which such money is so borrowed or one-half of the

amount of the cash appropriation made to such school board for the preceding year or, in school divisions for which there is both a school levy and appropriation, one-half of the amount of each. Such loans shall be evidenced by notes or bonds negotiable or nonnegotiable, as the school board determines. In the case of temporary loans in anticipation of loans from the Literary Fund, such loans shall be repaid within two years of their dates. Other temporary loans shall be repaid within one year of their dates. However, loans made to purchase new school buses to replace obsolete or worn out equipment shall be repaid within not less than 10 years of their dates.

If such examination reveals any defect or irregularity in the administration of such trust funds or other property, it shall be the duty of the school board to institute prompt proceedings for carrying the matter before the courts. In cases where donations or other funds have been set apart for the education of the poor, a school board is authorized to receive and apply the same in connection with the public schools in obedience to the will of the donor. Article 4 - TOWN SCHOOL DIVISION FUNDS

§ 22.1-113. Town school division's share of county school funds.

A. Funds to be paid by county treasurer to town treasurer. -- For the benefit of each school division composed of a town, the treasurer of the county in which the town is located shall pay over to the town treasurer, if and when properly bonded, the following funds to be used for public school purposes within such town school division:

1. From the amount derived from a county school levy for public school purposes, a sum equal to the pro rata amount from such levy derived from such town;

2. From federal funds allocated to and received by the county on the basis of federally-connected pupils for operations or capital outlay purposes, to be apportioned between the county and the town on the same basis of distribution as used in making the allotment of such federal funds to the county and in the ratio that such federally-connected pupils residing in the town bear to the total of such federally-connected pupils residing in the county including the town and which were included in the county's application for such federal funds.

B. Division located in adjoining counties. -- Where a town school division is located partly in each of two adjoining counties and operated by a town school board created or constituted by the charter of such town, each county treasurer shall pay over to the town treasurer, if and when properly bonded, from the amount derived from a county school levy or appropriations in each respective county for public school purposes, a sum equal to the pro rata amount from such levy or appropriations derived from such town to be used for public school purposes within the town school division.

C. State funds from special sources. -- None of the provisions of this section shall require the county treasurer to pay over to the town treasurer of a town school division any funds received from the Commonwealth from special sources, including funds distributed to the localities from the profit realized from the operation of the state alcoholic beverage control system, when the town has received direct appropriations or allocations from the Commonwealth from the same special sources.

Code 1950, § 140.1; 1972, c. 663; 1980, c. 559.

§ 22.1-114. Town school division's share of general county funds.

For the benefit of each school division composed of a town, the governing body of the county in which such town is located shall require the county treasurer to pay over to the town treasurer, if and when properly bonded, the following funds to be placed in the general fund of the town, subject to appropriation by the governing body of the town as it may deem necessary:

From the amount derived from a general or unit levy for all county purposes, a sum equal to such town's pro rata share of the general or unit levy receipts derived from the taxable property within the town, including real estate, tangible personal property, merchants' capital and machinery and tools. The pro rata share of the town shall be determined by allocating to the town the same percentage of general or unit levy receipts as is appropriated by the county governing body for the support of public schools.

The failure of such governing body to provide for the payment of such loan or the interest thereon when and as due shall be deemed a cause for removal of the members thereof from office on motion before the circuit court having jurisdiction in such county, city or town, instituted by the attorney for the Commonwealth of such county or city or by the Attorney General where the attorney for the Commonwealth refuses or neglects to act after demand is made on him to proceed.

For the purposes of this section, "long-term lease" means a lease for a term of twenty-five years or more.

§ 22.1-159. Loans for construction of school facilities to serve portions of counties; levy of taxes for purpose of repaying such loans.

Notwithstanding any other provision of law to the contrary, the school board of any school division composed of part or all of a county, with the approval of the governing body of the county, is authorized to borrow from the Literary Fund for the purpose of constructing school facilities in such county to

serve a portion of such county. Taxes on property in the magisterial districts served by such facilities shall be levied by the governing body of the county and collected for the purpose of repaying such loan; provided that, for the purposes of this section, a magisterial district shall not include a town constituting a separate school division but the governing body of the county may levy a separate tax on property in a town in such county constituting a separate school division to repay money borrowed by such county from the Literary Fund for the purpose of constructing school facilities in such town. Except as otherwise provided by this section all other provisions of law relating to Literary Fund loans shall apply to a loan authorized by this section.

§ 22.1-160. School boards authorized to anticipate payment of loans.

Any school board which is indebted for any money borrowed from the Literary Fund may anticipate the payment of the principal amount of any such loan or loans, or any part thereof, by the payment of such principal amount with interest thereon to the date of such anticipated payment and may borrow money and issue bonds for the purpose of raising funds to pay any notes or other obligations of the school board now and hereafter held by the Literary Fund.

Code 1950, § 22-115; 1980, c. 559.

§ 22.1-161. Loan declared indebtedness of the county, city or town; lien on locality's funds created.

Any bonds or notes of a school board held by the Literary Fund are hereby declared to be valid and legally binding indebtedness of the county, city or combination thereof constituting the school division or of the town if the town constitutes the school division. There shall be a lien in favor of the Literary Fund on all funds and income of the county, city or town for the amount of such bonds and notes. Therefore, Literary Fund loans are considered to be general obligation debt of the governing body as defined in § [15.2-2602](#), and are subject to the provisions of §§ [15.2-2638](#) and [15.2-2659](#). The provisions of this section shall not be affected by the release of any memorandum of lien pursuant to subsection B of § [22.1-151](#).

In conformity with Article VII, Section 10 of the Constitution of Virginia, any school board is hereby authorized to contract to borrow money from the Virginia Retirement System for capital projects for school purposes, with the approval of the governing body of each county and city or part thereof constituting the school division, or of the town if the town constitutes the school division; and the Board of Trustees of the Virginia Retirement System is hereby authorized to lend the money if it is available for investment, subject to and in conformity with the provisions of this chapter.

1995, c. [250](#).

§ 22.1-161.2. Resolution by school board; approval or rejection by governing body; indebtedness evidenced by bonds.

Whenever a school board desires to contract with the Board of Trustees of the Virginia Retirement System to borrow money for capital projects for school purposes, it shall adopt a resolution setting forth the purpose for which it is desired to borrow the money and the amount of such proposed borrowing. Such resolution shall be entered in the minutes of the school board, and a copy of the same, certified by the clerk of the school board, shall be submitted by the school board to the governing body of the county, city or town for its approval or rejection. If the governing body approves the resolution, it shall enter its approval in its minutes, and the school board may then endeavor to negotiate an agreement with the Board of Trustees of the Virginia Retirement System for the borrowing of such money. If agreement is reached, the question of borrowing such money on the terms agreed upon by the school board and the Board of Trustees of the Virginia Retirement System shall again be submitted to the governing body of the county, city or town for its approval or rejection. If the governing body approves the terms of the agreement, it shall enter its approval in its minutes, and the school board may then, by resolution entered in its minutes, provide for the issuance of negotiable bonds evidencing the indebtedness for sale to the Virginia Retirement System. Such bonds shall be issued in conformity with the provisions of this chapter.

1995, c. [250](#).

§ 22.1-161.3. Issuance of bonds; procedure; form and requirements.

Such bonds shall be issued by the school board in the name of the county, city or town. For the payment of the principal of and the interest on such bonds, the full faith and credit of the county, city or town shall be pledged. The bonds shall be signed by the chairman of the school board and countersigned by the clerk thereof, but the bonds may bear or be executed with the facsimile signature of one of such officials, and in the case of coupon bonds, the coupons may bear the facsimile signatures of both of such officials; the bonds shall be under the seal of the school board, but in lieu of impressing such seal physically upon such bonds, a facsimile of such seal may be imprinted on the bonds if so authorized by the school board. The bonds shall be in the denomination or denominations of not less than \$1,000 each; they may be in coupon or registered form, or both, as may be agreed upon by the school board and the Board of Trustees of the Virginia Retirement System; they shall bear interest at the agreed rate or rates, and such interest shall be payable semiannually; they shall be serial bonds with maturities and amounts as agreed upon but the first maturity date shall not be longer than two years from the date of such bonds and the maximum maturity date shall not be longer than thirty years from the date of such bonds. The place or places of payment of principal and interest shall be as agreed upon by the school board and the Board of Trustees of the Virginia Retirement System. In case any officer whose signature or a facsimile thereof shall appear on any bond or coupon shall cease to be such officer before the delivery of such bond, the signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery, and

any bond may bear the signature of a person who at the actual time of the execution of such bond shall be the proper officer to sign the bond although at the date of the bond, the person may not have been such officer.

§ 22.1-161.4. Disposition of proceeds from sale of bonds; separate fund.

All proceeds received from the sale of the bonds issued under the provisions of this chapter shall be paid to the treasurer or chief financial officer of the county, city or town, who shall promptly deposit such funds in a bank or banks as prescribed by general law. He shall account for such money through a fund, separate from all other funds, in the system of accounting.

1995, c. [250](#).

§ 22.1-161.5. Investment of proceeds pending application to authorized purpose.

Pending the application of the proceeds of any bonds issued under the provisions of this chapter to the purpose for which such bonds have been issued, all or any part of such proceeds may be invested, upon resolution of the school board, in securities that are legal investments under the laws of this Commonwealth for public sinking funds, which shall mature, or which shall be subject to redemption by the holder thereof at the option of such holder, not later than the date on which the moneys will be required to make the payments for which such moneys have been designated. Any security so purchased as investment of the proceeds of such bonds shall be deemed at all times to be a part of such proceeds, and the interest accruing thereon and any profit realized from such investment shall be credited to such proceeds. Any security so purchased shall be held by the treasurer or chief financial officer of the county, city or town, and shall be sold by him upon resolution of the school board directing such sale, at the best price obtainable, or presented for redemption, whenever it shall be necessary, as determined by such resolution, in order to provide moneys to meet the purpose for which the bonds shall have been issued.

1995, c. [250](#).

§ 22.1-161.6. Repealed.

Repealed by Acts 1996, cc. [105](#) and [819](#).

§ 22.1-161.7. Tax to pay principal and interest on bonds.

For the payment of the principal of and the interest on any bonds issued under the provisions of this chapter, the governing body of the county, city or town is hereby authorized and required to levy and collect annually, at the same time and in the same manner as other taxes of the county, city or town are assessed, levied and collected, a tax upon all locally taxable property within the county, city or town over and above all other taxes authorized or limited by law sufficient to pay such principal and interest as the same respectively become due and payable.

1995, c. [250](#).

§ 22.1-161.8. Bonds deemed negotiable instruments; sale of bonds by Trustees of Retirement System; bonds made legal investments.

Bonds issued under the provisions of this chapter and purchased by the Board of Trustees of the Virginia Retirement System shall be deemed negotiable instruments under the laws of this Commonwealth. The Board of Trustees may, in its discretion, sell any such bonds so purchased and held by it at such time or times as to it may seem desirable in the management of the funds under its control; and such bonds are hereby made securities in which all public officers and bodies of this Commonwealth, and all counties, cities and towns and municipal subdivisions, all insurance companies and associations, all savings banks and savings institutions, including savings and loan associations, trust companies, beneficial and benevolent associations, administrators, guardians, executors, trustees and other fiduciaries in this Commonwealth may properly and legally invest funds under their control.

§ 22.1-166. Purchase and sale of local school bonds.

The Authority is authorized to purchase local school bonds with any funds of the Authority available for such purpose, at public or private sale and for such price and on such terms as it shall determine. The Authority may pledge to the payment of the interest on and the principal of any bonds of the Authority all or any part of the local school bonds so purchased, including payments of principal and interest thereon as they shall become due. The Authority may also, subject to any such pledge, sell any such local school bonds so purchased and apply the proceeds of such sale in the purchase of other like local school bonds or for such purpose and in such manner as shall be provided by any resolution authorizing the issuance of bonds of the Authority, or the Authority may transfer such proceeds to the Literary Fund. For the purpose of Article VII, Section 10(b) of the Constitution of Virginia, the Authority shall be deemed a state agency authorized to purchase bonds issued with the consent of the school board and the governing body of the county by or on behalf of a county or district thereof for capital projects for school purposes.

Notwithstanding the provisions of any general or special law to the contrary, any city completely surrounded by a county having the urban county executive form of government may finance capital pro-

jects for school purposes through the Authority without the requirement of a voter referendum if the financing for the capital project is requested by both the city council and the school board.

The proceeds of all local school bonds issued pursuant to this chapter prior to July 1, 1975, may be used for any capital project for public schools as provided in the resolution by which their issuance was authorized.

§ 22.1-166.1. Loans to local school boards.

The Authority is authorized to make loans or loan interest rate subsidy payments, from any of the funds of the Authority available for such purpose, to local school boards for the purpose of acquiring and installing capital projects for school purposes for which loans from the Literary Fund are not immediately available. For the purpose of this section and § [22.1-166.2](#), capital projects for school purposes shall mean motor vehicles and educational technology equipment.

A. No loan from the Authority shall exceed 100 percent of the cost of the capital project for school purposes for which such loan is made.

B. A loan from the Authority shall be evidenced by notes payable to the Authority, executed or signed by the chairman of the school board, with the approval of the local governing body, attested by the clerk thereof and deposited with the State Treasurer. Payments of interest and principal on such notes shall be made to the State Treasurer. Any loan from the Authority shall be repayable in installments as shall be approved by the local school board, as appropriate, with the final installment being due not more than thirty years after the date of such loan. The time of payment may be extended in the discretion of the Authority.

C. The local governing bodies and the local school boards of the several school divisions are authorized to borrow money from the Authority, at such rate or rates, fixed or variable, as shall be approved by the local school board; any local school board to borrow from the Authority shall first make written application to the Authority for such loan on a form to be prescribed by the Authority.

D. The governing body of any county, city, or town, if the town constitutes the school division, in which the local school board has borrowed money from the Authority shall include in its levies, and appropriate to the local school board, a fund sufficient to meet the liabilities of the local school board on such loan if and to the extent such liabilities are not otherwise provided for by the General Assembly. The governing body of any county in which the local school board has borrowed money from the Authority for capital projects located in a town in such county constituting a separate school division shall have authority to include, in its levies for such town, a levy sufficient to meet the liabilities of the local school board on such loan if and to the extent such liabilities are not otherwise provided for by the General Assembly and shall levy a separate tax in the rest of the county to meet its liabilities on any contract for capital projects outside such town. In the event that such local school board shall fail to pay any installment of interest or principal promptly, upon notice in writing to that effect from the

State Treasurer, the county, city, or town treasurer shall pay to the State Treasurer any such past due installment of interest or principal out of the funds in his hands belonging to such county, city, or town. The failure of such governing body to provide for the payment of such loan or the interest thereon when and as due shall be deemed a cause for removal of the members thereof from office on motion before the circuit court having jurisdiction in such county, city, or town, instituted by the attorney for the Commonwealth of such county or city or by the Attorney General where the attorney for the Commonwealth refuses or neglects to act after demand on him to proceed.

E. The local school board of any school division composed of part or all of a county, with the approval of the governing body of the county, is authorized to borrow from the Authority for the purpose of financing capital projects in such county to serve a portion of such county. Taxes on property in the magisterial districts served by such capital projects shall be levied by the governing body of the county and collected for the purpose of repaying such loan; for the purposes of this section, a magisterial district shall not include a town constituting a separate school division but the governing body of the county may levy a separate tax on property in a town in such county constituting a separate school division to repay money borrowed by such county from the Authority for the purpose of financing capital projects in such town. Except as otherwise provided by this subsection, all other provisions of law relating to loans from the Authority shall apply to a loan authorized by this subsection.

F. Any local school board which is indebted for any money borrowed from the Authority may anticipate the payment of the principal amount of any such loans, or any part thereof, by the payment of such principal amount with interest thereon to the date of such anticipated payment and may borrow money and issue bonds for the purpose of raising funds to pay any notes or other obligations of the local school board now and hereafter held by the Authority.

1990, c. 909.

§ 22.1-166.2. Grants to local school boards.

The Authority is authorized to make grants of money, from any of the funds of the Authority available for such purpose, to local school boards for the purchase of capital projects for school purposes.

1990, c. 909.

§ 22.1-167. Issuance of bonds of Authority.

In order to provide funds for the purchase of local school bonds as authorized by § [22.1-166](#), to provide funds for the making of loans to local school boards as authorized by § [22.1-166.1](#), or to provide funds for the making of grants to local school boards as authorized by § [22.1-166.2](#), the Board of Commissioners is hereby authorized to provide by resolution, at one time or from time to time, for the issuance of bonds of the Authority in such amount or amounts as the Board of Commissioners shall determine. Such bonds of the Authority shall be payable solely from funds of the Authority, including, without limitation, all or any combination of the following sources: (i) payments of principal of and interest on local school bonds purchased by the Authority, (ii) the proceeds of the sale of any such local school bonds, (iii) payments of principal of and interest on obligations transferred to the Authority

from the Literary Fund, (iv) the proceeds of the sale of any such obligations, (v) any moneys transferred to the Authority from the Literary Fund, (vi) payments of principal of and interest on loans made to local school boards, and (vii) any funds authorized by the General Assembly from the Literary Fund or otherwise appropriated by the General Assembly, as shall be provided by the resolution of the Board of Commissioners authorizing any such bonds. Bonds of the Authority issued under the provisions of this chapter shall not be deemed to constitute a debt of the Commonwealth or a pledge of the faith or credit of the Commonwealth, and all bonds of the Authority shall contain on the face thereof a statement to the effect that neither the faith and credit nor the taxing power of the Commonwealth or of any political subdivision thereof is or shall be pledged to the payment of the principal of or the interest on such bonds.

The bonds of each issue shall be dated, shall bear interest and shall mature at such time or times, not exceeding thirty years from their date or dates, as may be determined by the Board of Commissioners and may be made redeemable before maturity, at the option of the Board of Commissioners, at such price or prices and under such terms and conditions as may be fixed by the Board of Commissioners prior to the issuance of the bonds. The principal and interest of such bonds may be made payable in any lawful medium. The Board of Commissioners shall determine the form of the bonds, including any interest coupons to be attached thereto, and the manner of execution of the bonds and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest thereof, which may be at the office of the State Treasurer or at any bank or trust company within or without the Commonwealth. If any officer whose signature or a facsimile of whose signature appears on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. All bonds issued under the provisions of this chapter shall have and are hereby declared to have, as between successive holders, all the qualities and incidents of negotiable instruments under the negotiable instruments law of the Commonwealth. The bonds may be issued in coupon or in registered form or both, as the Board of Commissioners may determine, and provision may be made for the registration of any coupon bonds as to principal alone and as to both principal and interest and for the reconversion of any bonds registered as to both principal and interest into coupon bonds. The Board of Commissioners may sell such bonds in such manner, either at public or at private sale, and for such price as it may determine to be for the best interests of the Authority. The proceeds of such bonds shall be disbursed for the purposes for which such bonds were issued under such restrictions, if any, as the resolution authorizing the issuance of such bonds or the trust indenture provided for in [§ 22.1-171](#) may provide. Prior to the preparation of definitive bonds, the Board of Commissioners may under like restrictions issue temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Board of Commissioners may also provide for the replacement of any bond which shall become mutilated or shall be destroyed or lost. Such bonds may be issued without any other proceedings or the happening of any other conditions or things than the proceedings, conditions, and things which are specified and required by this chapter.

Code 1950, § 22-29.7; 1962, c. 194; 1972, c. 745; 1980, c. 559; 1990, c. 909.

§ 22.1-167.1. Refunding issues; pass-through of savings realized.

A. In the event the Authority refunds any bonds previously issued to finance the purchase of local school bonds, the Authority shall pass-through to the issuers of such local school bonds, an allocable share of any savings realized. Such pass-through shall be accomplished, at the option of the Authority, by means of a debt service reduction over the remaining term of the local school bonds, by a lump sum payment of the present value of such allocable share of the savings, or by such other method as the Authority shall determine to be in the mutual best interests of the issuers of the local school bonds and the Authority.

B. For the purposes of this section, "savings" means the net reduction in debt service, if any, to be realized by the Authority, after subtracting the total costs, expenses, and equity contributions associated with the refunding and with the pass-through of such savings to the issuers of the local school bonds and of any Authority funds transferred, or required to be transferred, by mandate of the General Assembly, other than to the issuers of the local school bonds.

Notwithstanding the provisions of this section, no savings shall be passed-through to the issuers of local school bonds for which an interest rate subsidy has been paid or which were issued at below market interest rates. The savings in connection with the refunding of bonds issued by the Authority and allocable to local school bonds for which an interest rate subsidy has been paid, to the extent such subsidy was paid from the Literary Fund, shall be transferred to the Literary Fund and used exclusively for Literary Fund loans to local school boards pursuant to Chapter 10 (§ [22.1-142](#) et seq.) of Title 22.1.

C. This section shall have no application if it conflicts with a preexisting trust indenture.

D. Whenever the Authority shall defease its bonds previously issued to finance the purchase of local school bonds, the Authority may, consistent with the provisions of this section respecting the return of savings to the issuers of the related local school bonds, designate to such issuers of local school bonds which issues, series and maturities with which interest rates shall be deemed by the Authority to have been paid. Immediately upon such designation, the local school bonds so designated shall likewise be deemed defeased and no longer outstanding, the same as if the defeasance had occurred in accordance with the provisions of § [15.2-2623](#). Such defeasance shall not require any action by the issuer of the affected local school bonds, shall be effective immediately, and shall be duly noted on the records of the Authority which shall no longer have any right to payment with respect to the issues, series and maturities so deemed by the Authority to have been paid. The elected officials and financial officers of the affected locality are hereby authorized to execute and deliver such federal tax forms, certificates, and other documents as the Authority may request in connection with the defeasance of its local school bonds and the bonds of the Authority.

1994, c. [272](#); 2006, c. [223](#).

§ 22.1-167.2. Security for payment; appropriations.

A. The Authority is authorized to issue bonds to finance and refinance acquisition of bonds, notes and other obligations of counties, cities and towns (local school bonds) issued for the purpose of financing and refinancing capital projects for school purposes and to pledge to the bonds all or any combination of the following sources: (i) payments of principal and interest on the local school bonds purchased by the Authority; (ii) payments to the localities by the Commonwealth as contemplated under the provisions of § [15.2-2659](#) (state aid intercept) of the Code of Virginia; (iii) funds in the Literary Fund available and appropriated for such purpose; and (iv) any funds in the general fund of the Commonwealth appropriated for such purpose.

B. The Governor's Budget Bill presented each year to the General Assembly shall include an appropriation to the Authority of a sum sufficient first, from funds in the Literary Fund available for such purpose, and second, from the general fund of the Commonwealth, to cure any shortfall in pledged primary revenues on any debt service payment date on the bonds of the Authority described by this section. A shortfall in pledged primary revenues shall exist when the sum of the payments made on local school bonds due on or before such date and any proceeds derived from the implementation of § [15.2-2659](#) (state aid intercept) of the Code of Virginia as of such date is less than required to pay the debt service due on the Authority's bonds on such date.

C. The Literary Fund and the general fund of the Commonwealth shall be subrogated to the rights of the Authority to the extent of any such funds paid to the Authority and shall be entitled to enforce the Authority's remedies with respect to the local school bonds and to full recovery of the amount of such shortfall.

D. On or before September 30 of each year, the Authority shall submit to the Governor and the chairmen of the House Committee on Appropriations and the Senate Committee on Finance and Appropriations a report as of the end of the prior fiscal year detailing the total amount of the Authority's outstanding bonds secured by appropriations as described in subsection B. The report shall also describe any instances where any such appropriation has been used.

1998, cc. [4](#), [900](#).

§ 22.1-167.3. Bonds or notes issued for the purpose of making grants; security for payment; appropriations.

A. The Authority is authorized to pledge to the bonds or notes of the Authority (i) authorized under the provisions of a resolution adopted subsequent to June 30, 2000, for the purpose described in § [22.1-166.2](#), (ii) issued subsequent to June 30, 2000, and (iii) not benefiting from the provisions of either clause (iii) or (iv) of § [22.1-168](#), or § [22.1-168.1](#), in addition to other sources available for such purpose, any funds in the general fund of the Commonwealth appropriated for such purpose.

B. The Governor's budget bill presented each year to the General Assembly pursuant to § [2.2-1509](#) shall include an appropriation to the Authority of a sum sufficient from the general fund of the Commonwealth to cure any shortfall in pledged primary revenues on any debt service payment date on the bonds or notes of the Authority described by this section. A shortfall in pledged primary revenues shall

exist when the available moneys in the Literary Fund as of such date are less than the amount required to pay the debt service due on such bonds or notes on such date. For purposes of this subsection "available moneys in the Literary Fund" means moneys remaining after the payment, or provision for payment, of debt service on bonds or notes like those described in this section and payable from the Literary Fund, but issued prior to July 1, 2000.

C. On or before September 30 of each year, the Authority shall submit to the Governor and the chairmen of the House Committee on Appropriations, the House Committee on Finance, and the Senate Committee on Finance and Appropriations a report as of the end of the prior fiscal year detailing the total amount of the Authority's outstanding bonds and notes secured by an appropriation of a sum sufficient from the general fund of the Commonwealth as described in subsection B. The report shall also describe any instances where any such appropriation has been used.

2001, cc. [431](#), [456](#).

§ 22.1-168. Security for payment and bonds; provisions of trust indenture or resolution of Board.

In the discretion of the Board of Commissioners any bonds issued under the provisions of this chapter may be secured by a trust indenture by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. Such trust indenture or the resolution providing for the issuance of such bonds may pledge or assign all or any part of the funds of the Authority available for such purpose including, but without limitation, all or any combination of the following sources: (i) payments of principal of and interest on local school bonds purchased by the Authority, (ii) the proceeds of the sale of any such local school bonds, (iii) payments of principal of and interest on obligations transferred to the Authority from the Literary Fund, (iv) the proceeds of the sale of any such obligations, (v) any moneys transferred to the Authority from the Literary Fund, (vi) payments of principal of and interest on loans made to local school boards, and (vii) any funds authorized by the General Assembly for such purpose from the Literary Fund or otherwise appropriated by the General Assembly. Such trust indenture or resolution providing for the issuance of such bonds may provide for the creation and maintenance of such reserves as the Board of Commissioners shall determine to be proper and may include covenants setting forth the duties of the Board of Commissioners in relation to the acquisition of any local school bonds, the substitution of any local school bonds as security for payment of the bonds of the Authority, the collection of payments of principal and interest on (i) any local school bonds, (ii) on any obligations transferred to the Authority from the Literary Fund, and (iii) on any loans made to local school boards. Such trust indenture or resolution may include provisions requiring the Authority or the trustee under such trust indenture or any depository to file a petition with the Governor and to take any and all other action required under [§ 15.2-2659](#) to secure payment of all sums necessary to cover any default as to any bonds or the interest thereon held by the Authority or by such trustee or depository to which [§ 15.2-2659](#) shall be applicable. Such trust indenture or resolution may contain provisions respecting the custody, safeguarding and application of all moneys and securities including local school bonds purchased by the Authority and obligations transferred to the Authority from the Literary Fund and may

contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depository of the proceeds of bonds or of any other funds or obligations received on behalf of the Authority to furnish such indemnifying bonds or to pledge such securities as may be required by the Board of Commissioners. Any such trust indenture or resolution may contain such other provisions as the Board may deem reasonable and proper for the security of the bondholders. Any reference in this chapter to a resolution of the Board of Commissioners shall include any trust indenture authorized thereby.

§ 22.1-168.1. Reserve fund; limitations.

A. If the Board of Commissioners deems it proper to create a reserve fund or funds from bond proceeds to support an issuance of bonds in accordance with the provisions of this section, all moneys held in such reserve fund, except as hereinafter provided, shall be pledged solely for the payment of the principal and interest on the bonds secured in whole or in part by such a fund. Any income or interest earned on, or increment to, any reserve fund may be transferred by the Board of Commissioners to other funds or accounts of the Authority to the extent it does not reduce the amount of the reserve fund below its minimum requirement.

B. The Board of Commissioners shall not at any time issue bonds secured in whole or in part by any reserve fund referred to in subsection C, if upon the issuance of the bonds, the amount in the reserve fund will be less than its minimum requirement unless the Board of Commissioners, at the time of issuance of the bonds, deposits in the fund an amount which, together with the amount then in the fund, will not be less than the fund's minimum reserve requirement.

C. In order to ensure further the maintenance of reserve funds established in accordance with the provisions of this section, the chairman of the Board of Commissioners shall annually, on or before December 1, make and deliver to the Governor and the Secretary of Administration a certificate stating the sum, if any, required to restore each reserve fund to its minimum requirement. Within five days after the beginning of each session of the General Assembly, the Governor shall submit to the presiding officer of each house of the General Assembly printed copies of a budget including the sum, if any, required to restore each reserve fund to its minimum requirement. All sums, if any, which may be appropriated by the General Assembly for any restoration and paid to the Authority shall be deposited by the Authority in the applicable reserve fund. All amounts paid to the Board of Commissioners by the Commonwealth pursuant to the provisions of this section shall constitute and be accounted for as advances by the Commonwealth to the Authority and, subject to the rights of the holders of any bonds of the Authority, shall be repaid to the Commonwealth without interest from available revenues of the Authority in excess of the amounts required for the payment of bonds or other obligations of the Authority, the maintenance of reserve funds, and operating expenses.

D. Excluding bonds issued prior to July 1, 1991, the total principal amount of bonds outstanding at any one time, issued by the Board of Commissioners in accordance with the provisions of this section, shall not exceed the sum of \$800 million without the prior approval of the General Assembly.

E. Nothing in this section shall be construed as limiting the power of the Board of Commissioners to issue bonds (i) not secured by a reserve fund or (ii) secured by a reserve fund not described in this section.

All assets heretofore or hereafter transferred to the Authority from the Literary Fund pursuant to § [22.1-175](#) shall remain assets of the Literary Fund and shall be repaid to the Literary Fund pursuant to this section but, until so repaid, may be used for all purposes by the Authority to the same extent as if such assets were the sole property of the Authority.

On or before January 10 in each year the Authority shall set aside and repay to the Literary Fund an amount equal to the excess of the principal and interest collected by the Authority in the preceding year on account of obligations transferred to the Authority from the Literary Fund over such portion of such principal and interest as shall have been pledged by any trust indenture or resolution authorizing bonds of the Authority.

The principal collected by the Authority on account of obligations transferred to the Authority from the Literary Fund shall remain part of the principal of the Literary Fund subject to the provisions of Article VIII, Section 8 of the Constitution of Virginia and of this chapter, and the interest collected by the Authority on account of such obligations shall be deemed to be interest on the Literary Fund subject to the provisions of Article VIII, Section 8 of the Constitution of Virginia and of this chapter; provided, however, that any such collected principal and interest pledged by any trust indenture or resolution authorizing bonds of the Authority shall continue to be held by the Authority until no longer so required by the terms of such trust indenture or resolution; and further provided that, on the next succeeding tenth day of January, any amount of such collected principal and interest no longer required to be held by the Authority shall be set aside and repaid to the Literary Fund as if it had been collected at the time it became no longer required to be held.

Local governing bodies may establish a separate escrow fund for the deposit of such funds as provided in § [22.1-175.5](#).

C. The amount of such public school construction grants shall be matched by funds of the qualifying school division based on the locality's composite index of ability to pay. In awarding such grants, the Board shall take into consideration any Literary Fund loan which may have been applied for or awarded for the same projects.

A. All funds appropriated for financial assistance for the purposes of this chapter during fiscal years 1998-1999 and 1999-2000 pursuant to Item 554 of the 1998-2000 Appropriation Act shall be apportioned and distributed among the school divisions of the Commonwealth as follows: (i) there shall be apportioned and distributed equally to every school division grants in the sum of \$200,000 each and (ii) the balance of all available funds shall be apportioned and distributed to each school division on a pro rata basis according to the school division's average daily membership adjusted by the locality's composite index of ability to pay as set forth in the general appropriation act.

Local governing bodies may establish a separate escrow fund for the deposit of such funds as provided in § [22.1-175.5](#).

B. All funds appropriated for financial assistance for the purposes of this chapter for subsequent fiscal years shall be apportioned and distributed among the school divisions of the Commonwealth in accordance with eligibility and needs criteria to be established by the 2000 Session of the General Assembly. No disbursement from the fund may be made except upon specific appropriation by the governing body in accordance with applicable law. If a locality establishes such a fund and designates any portion of the funds deposited therein to pay debt service for (i) any general obligation of the locality held by the Virginia Public School Authority or (ii) any Literary Fund loan, the locality shall obtain an opinion of bond counsel that designation of funds to pay debt service on obligations described in clauses (i) and (ii) hereof does not adversely impact the tax-exempt status of such obligations.

C. All grant awards deposited in the fund, including all income from or attributable to such fund, shall be deemed public funds of the locality and shall be subject to all limitations upon deposit and investment provided by general law, including, but not limited to, the Virginia Security for Public Deposits Act (§ [2.2-4400](#) et seq.). Income, dividends, distributions, and grants accruing to the fund shall be retained in such fund and shall be expended only in accordance with the terms of this section.

For applicants currently possessing a commercial driver's license, such regulations shall require (a) a minimum of four hours of classroom training administered pursuant to this section and (b) three hours of behind-the-wheel training on a school bus that contains no pupil passengers. Behind-the-wheel training shall be administered under the direct on-board supervision of a designated school bus driver trainer.

Each such agreement shall provide for reimbursing the school board in full for the proportionate share of any and all costs, both fixed and variable, of such buses incurred by such school board attributable to the use of such buses pursuant to such agreement. The governing body, state

Any such student or other person or the parent or guardian of any such student may apply for and receive from the principal of any school, institution of higher education, or other educational institution in the Commonwealth a card certifying that the student or other person uses such road, highway, bridge, or ferry daily for regularly attending such school, institution of higher education, or educational institution or classes at any such school or institution. Such card exhibited to the person in charge of any tollgate on any road, highway, bridge, or ferry in the Commonwealth shall be accepted in lieu of all charges for the passage through such tollgate of any such student, person, or the vehicle carrying him when using the road, highway, bridge, or ferry daily for going to or from immediate attendance at any such school, institution of higher education, or other educational institution or classes at any such school or institution.

Chapter 13 - PROGRAMS, COURSES OF INSTRUCTION AND TEXTBOOKS

Article 1 - PROGRAMS AND COURSES OF INSTRUCTION GENERALLY

§ 22.1-199. Kindergarten programs suitable for certain children.

A. The kindergarten program in each school division shall include a program suitable for children who will reach their fifth birthday on or before September 30 of the school year. The school board's plan for such program shall be furnished to the Board of Education and shall include the following:

1. A statement of purpose and objectives of the kindergarten program that reflects consideration of the different readiness and maturity levels of children in the program;
2. A description of the organization, scheduling and staffing of the program that reflects a responsiveness to the needs of the children of the age span to be served in the program;
3. Evidence that the program plan was developed by a committee that included early childhood specialists, parents, teachers and administrators;
4. Scheduling and an agenda of in-service activities for kindergarten teachers to ensure adequate preparation for the program;

5. A plan for the interface of the kindergarten program with the primary program to allow for continuous progress.

B. The Superintendent of Public Instruction shall disseminate to the school divisions information concerning the ages when children are required or eligible to attend school. Each school division shall disseminate such information to parents of such children of such ages upon or prior to enrollment of such children in the public schools of the division.

C. The age requirements set forth in subsection A of this section shall not affect the operation of any two-tiered, junior or other developmentally appropriate pre-kindergarten program or transitional first grade. In those school divisions implementing such programs, children whose fifth birthday occurs between October 1 and December 31 of the school year may be enrolled in kindergarten after an appropriate readiness evaluation has demonstrated that attendance in these programs will educationally benefit such children.

Code 1950, § 22-218.1:1; 1978, c. 518; 1980, cc. 559, 570; 1985, c. 407; 1990, c. 792; 1991, c. 138.

§ 22.1-199.1. Programs designed to promote educational opportunities.

A. The General Assembly finds that Virginia educational research supports the conclusion that poor children are more at risk of educational failure than children from more affluent homes and that reduced pupil/teacher ratios and class sizes result in improved academic performance among young children; to this end, the General Assembly establishes a long-term goal of reducing pupil/teacher ratios and class sizes for grades K through three in those schools in the Commonwealth with high or moderate concentrations of at-risk students.

With such funds as are provided in the appropriation act for this purpose, there is hereby established the statewide voluntary pupil/teacher ratio and class size reduction program for the purpose of reaching the long-term goal of statewide voluntary pupil/teacher ratio and class size reductions for grades K through three in schools with high or moderate concentrations of at-risk students, consistent with the provisions provided in the appropriation act.

In order to facilitate these primary grade ratio and class size reductions, the Department of Education shall calculate the state funding of these voluntary ratio and class size reductions based on the incremental cost of providing the lower class sizes according to the greater of the division average per-pupil cost of all divisions or the actual division per-pupil cost. Localities shall provide matching funds for these voluntary ratio and class size reductions based on the composite index of local ability to pay. School divisions shall notify the Department of Education of their intention to implement the reduced ratios and class sizes in one or more of their qualifying schools by August 1 of each year. By March 31 of each year, school divisions shall forward data substantiating that each participating school has a complying pupil/teacher ratio.

In developing each proposed biennium budget for public education, the Board of Education shall include funding for these ratios and class sizes. These ratios and class sizes shall be included in the annual budget for public education.

B. The General Assembly finds that educational technology is one of the most important components, along with highly skilled teachers, in ensuring the delivery of quality public school education throughout the Commonwealth. Therefore, the Board of Education shall strive to incorporate technological studies within the teaching of all disciplines. Further, the General Assembly notes that educational technology can only be successful if teachers and administrators are provided adequate training and assistance. To this end, the following program is established.

With such funds as are appropriated for this purpose, the Board of Education shall award to the several school divisions grants for expanded access to educational technology. Funding for educational technology training for instructional personnel shall be provided as set forth in the appropriation act.

Funds for improving the quality and capacity of educational technology shall also be provided as set forth in the appropriation act, including, but not limited to, (i) funds for providing a technology resource assistant to serve every elementary school in this Commonwealth beginning on July 1, 1998, and (ii) funds to maintain the currency of career and technical education programs. Any local school board accepting funds to hire technology resource assistants or maintain currency of career and technical education programs shall commit to providing the required matching funds, based on the composite index of local ability to pay.

Each qualifying school board shall establish an individualized technology plan, which shall be approved by the Superintendent of Public Instruction, for integrating technology into the classroom and into schoolwide instructional programs, including career and technical education programs. The grants shall be prioritized as follows:

1. In the 1994 biennium, the first priority for these funds shall be to automate the library media centers and provide network capabilities in Virginia's elementary, middle and high schools, or combination thereof, in order to ensure access to the statewide library and other information networks. If any elementary, middle or high school has already met this priority, the 1994 biennium grant shall be used to provide other educational technologies identified in the relevant division's approved technology plan, such as multimedia and telecomputing packages, integrated learning systems, laptop computer loan programs, career and technical education laboratories or other electronic techniques designed to enhance public education and to facilitate teacher training in and implementation of effective instructional technology. The Board shall also distribute, as provided in the appropriation act, funds to support the purchase of electronic reference materials for use in the statewide automated reference system.

2. In the 1996 biennium and thereafter, the first priority for funding shall be consistent with those components of the Board of Education's revised six-year technology plan which focus on (i) retrofitting and upgrading existing school buildings to efficiently use educational technology; (ii) providing (a) one network-ready multimedia microcomputer for each classroom, (b) a five-to-one ratio of pupils to network-ready microcomputers, (c) graphing calculators and relevant scientific probes/sensors as required by the Standards of Learning, and (d) training and professional development on available technologies

and software to all levels and positions, including professional development for personnel delivering career and technical education at all levels and positions; and (iii) assisting school divisions in developing integrated voice-, video-, and data-connectivity to local, national and international resources.

This funding may be used to implement a local school division's long-range technology plan, at the discretion of the relevant school board, if the local plan meets or exceeds the goals and standards of the Board's revised six-year technology plan and has been approved by the Superintendent of Public Instruction.

3. The Departments of Education, Information Technology, and General Services shall coordinate master contracts for the purchase by local school boards of the aforementioned educational technologies and reference materials.

4. Beginning on July 1, 1998, a technology replacement program shall be, with such funds as may be appropriated for this purpose, implemented to replace obsolete educational hardware and software. As provided in subsection D of § [22.1-129](#), school boards may donate obsolete educational technology hardware and software which are being replaced. Any such donations shall be offered to other school divisions and to preschool programs in the Commonwealth, or to public school students as provided in guidelines to be promulgated by the Board of Education. Such guidelines shall include criteria for determining student eligibility and need; a reporting system for the compilation of information concerning the number and socioeconomic characteristics of recipient students; and notification of parents of the availability of such donations of obsolete educational hardware and software.

5. In fiscal year 2000, the Board of Education shall, with such funds as are appropriated for this purpose, contract for the development or purchase of interactive educational software and other instructional materials designed as tutorials to improve achievement on the Standards of Learning assessments. Such interactive educational software and other instructional materials may be used in media centers, computer laboratories, libraries, after-school or before-school programs or remedial programs by teachers and other instructional personnel or provided to parents and students to be used in the home. This interactive educational software and other instructional materials shall only be used as supplemental tools for instruction, remediation, and acceleration of the learning required by the K through 12 Standards of Learning objectives.

Consistent with school board policies designed to improve school-community communications and guidelines for providing instructional assistance in the home, each school division shall strive to establish a voice mail communication system after regular school hours for parents, families, and teachers by the year 2000.

C. The General Assembly finds that local autonomy in making decisions on local educational needs and priorities results in effective grass-roots efforts to improve education in the Commonwealth's public schools only when coupled with sufficient state funding; to this end, the following block grant program is hereby established. With such funds as are provided in the appropriation act, the Department of Education shall distribute block grants to localities to enable compliance with the Commonwealth's

requirements for school divisions in effect on January 1, 1995. Therefore, for the purpose of such compliance, the block grant herein established shall consist of a sum equal to the amount appropriated in the appropriation act for the covered programs, including the at-risk add-on program; dropout prevention, specifically Project YES; Project Discovery; English as a second language programs, including programs for overage, nonschooled students; Advancement Via Individual Determination (AVID); the Homework Assistance Program; programs initiated under the Virginia Guaranteed Assistance Program, except that such funds shall not be used to pay any expenses of participating students at institutions of higher education; Reading Recovery; and school/community health centers. Each school board may use any funds received through the block grant to implement the covered programs and other programs designed to save the Commonwealth's children from educational failure.

D. In order to reduce pupil/teacher ratios and class sizes in elementary schools, from such funds as may be appropriated for this purpose, each school board may employ additional classroom teachers, remedial teachers, and reading specialists for each of its elementary schools over the requirements of the Standards of Quality. State and local funding for such additional classroom teachers, remedial teachers, and reading specialists shall be apportioned as provided in the appropriation act.

E. Pursuant to a turnaround specialist program administered by the Department of Education, local school boards may enter into agreements with individuals to be employed as turnaround specialists to address those conditions at the school that may impede educational progress and effectiveness and academic success. Local school boards may offer such turnaround specialists or other administrative personnel incentives such as increased compensation, improved retirement benefits in accordance with Chapter 6.2 (§ [51.1-617](#) et seq.) of Title 51.1, increased deferred compensation in accordance with § [51.1-603](#), relocation expenses, bonuses, and other incentives as may be determined by the board.

F. The General Assembly finds that certain schools have particular difficulty hiring teachers for certain subject areas and that the need for such teachers in these schools is particularly strong. Accordingly in an effort to attract and retain high quality teachers, local school boards may offer instructional personnel serving in such schools as a member of a middle school teacher corps administered by the Department of Education incentives such as increased compensation, improved retirement benefits in accordance with Chapter 6.2 (§ [51.1-617](#) et seq.) of Title 51.1, increased deferred compensation in accordance with § [51.1-603](#), relocation expenses, bonuses, and other incentives as may be determined by the board.

For purposes of this subsection, "middle school teacher corps" means licensed instructional personnel who are assigned to a local school division to teach in a subject matter in grades six, seven, or eight where there is a critical need, as determined by the Department of Education. The contract between such persons and the relevant local school board shall specify that the contract is for service in the middle school teacher corps.

§ 22.1-199.2. Standards for remediation programs established.

The Board of Education shall promulgate regulations for establishing standards for remediation programs that receive state funding, without regard to state funding designations, which shall be designed to strengthen and improve the effectiveness of such programs in increasing the scholastic achievement of students with academic deficiencies. Such standards shall require school divisions to evaluate remediation programs, annually, in terms of the pass rate on the Standards of Learning tests and the demographic and educational characteristics of students who have been identified for remediation pursuant to subsection C of § [22.1-253.13:1](#), or clause (ii) of subsection A of § [22.1-254](#), and § [22.1-254.01](#).

The Board shall also establish in regulations, a formula for determining the level of funding necessary to assist school divisions in providing transportation services to students required to attend remediation programs.

Repealed by Acts 2004, c. [872](#), cl. 3, effective May 4, 2005.

§ 22.1-199.4. At-Risk Student Academic Achievement Program and Fund.

A. From such funds as may be appropriated for such purpose and from such gifts, donations, grants, bequests, and other funds as may be received on its behalf, there is hereby established the At-Risk Student Academic Achievement Program, to be administered by the Board of Education, and a special nonreverting fund within the Department of the Treasury known as the At-Risk Student Academic Achievement Fund, hereafter referred to as the "Fund." The Fund shall be established on the books of the Comptroller, and any moneys remaining in such Fund at the end of the biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on such funds shall remain in the Fund and be credited to it.

The Department of the Treasury shall administer and manage the Fund, subject to the authority of the Board of Education to provide for its disbursement. The Fund shall be disbursed to award non-competitive grants to public school divisions to implement research-based programs or programs identified as best practices that are designed to improve the academic achievement of at-risk public school students on the Standards of Learning assessments and decrease the rate of dropout among at-risk public school students.

B. The amount of grants and required local matching funds shall be determined as provided in the appropriation act.

Funds received through this Program shall be used to supplement, not supplant, any local funds currently provided for at-risk programs within the school division.

C. The Board may issue guidelines governing the Program as it deems necessary and appropriate.

§ 22.1-199.7. Community schools.

A. In order to remove nonacademic barriers to learning as a means to enhance student academic success in public elementary and secondary schools throughout the Commonwealth, the Department of Education shall establish an interagency task force composed of state and local agencies and entities in the areas of early childhood development, health, social services, community engagement, family engagement, higher education, communities in schools, and workforce development for the purpose of (i) developing a program for the establishment of community schools whereby public elementary and secondary schools serve as centers for the provision of such community programs and services to students and their families as may be necessary on the basis of unique needs of the student population to be served and (ii) developing and providing to the Governor, the Secretary of Education, local school boards, and other interested state, local, and private entities policy recommendations relating to the coordinated delivery of community services to students and their families and the operation of community schools throughout the Commonwealth in accordance with the Virginia Community School Framework.

B. The community schools program established pursuant to subsection A shall include a process by which school boards and community partnerships consisting of school boards and other community and service providers may apply to the Department of Education to designate an elementary or secondary school in the local school division as a community school. The application process shall include requirements for applicants to provide a plan for the sustainability of the community school and for the measurement of the success and effectiveness of the community school. The Department of Education shall consult with the interagency task force established pursuant to subsection A in the selection of applications and the designation of community schools.

Such program shall consist of classroom training and behind-the-wheel driver training. However, any student who participates in such a program of driver education shall meet the academic requirements established by the Board, and no student in a course shall be permitted to operate a motor vehicle without a license or other document issued by the Department of Motor Vehicles under Chapter 3 (§ [46.2-300](#) et seq.) of Title 46.2, or the comparable law of another jurisdiction, authorizing the operation of a motor vehicle upon the highways.

1. The driver education program shall include (i) instruction concerning (a) alcohol and drug abuse; (b) aggressive driving; (c) the dangers of distracted driving and speeding; (d) motorcycle awareness; (e) organ and tissue donor awareness; (f) fuel-efficient driving practices; and (g) traffic stops, including law-enforcement procedures for traffic stops, appropriate actions to be taken by drivers during traffic stops, and appropriate interactions with law-enforcement officers who initiate traffic stops, and (ii) in Planning District 8, an additional minimum 90-minute parent/student driver education component. Each school board may waive the fee or the surcharge in total or in part for those students it determines cannot pay the fee or surcharge. Only school divisions complying with the standardized program and regulations established by the Board of Education and the provisions of [§ 46.2-335](#) shall be entitled to participate in the distribution of state funds appropriated for driver education.

School boards in Planning District 8 shall make the 90-minute parent/student driver education component available to all students and their parents or guardians who are in compliance with [§ 22.1-254](#).

Such section of road shall be marked with signs, which the Commissioner of Highways shall supply,

F. The Board of Education shall approve correspondence courses for the classroom training component of driver education. These correspondence courses shall be consistent in quality with instructional programs developed by the Board for classroom training in the public schools. Students completing the correspondence courses for classroom training, who are eligible to take behind-the-wheel driver training, may receive behind-the-wheel driver training (i) from a public school, upon payment of the required fee, if the school division offers behind-the-wheel driver training and space is available, (ii) from a driver training school licensed by the Department of Motor Vehicles, or (iii) in the case of a home schooling parent or guardian instructing his own child who meets the requirements for home school instruction under § [22.1-254.1](#) or subdivision B 1 of § [22.1-254](#), from a behind-the-wheel training course approved by the Board. 5. An emphasis on college preparation and college awareness, access to advanced level college preparatory courses at the high school level, building self-esteem and the promotion of personal and social responsibility, the availability of support services for students enrolled in the AVID Program, and the development and fostering of a positive attitude toward learning and the advantages of higher education;

A charter school for at-risk pupils may be established as a residential school.

A waiting list shall be established if adequate space is not available to accommodate all students whose parents have requested to be entered in the lottery process. Such waiting list shall also be prioritized through a lottery process and parents shall be informed of their student's position on the list.

Any services for which a public charter school contracts with a school division shall not exceed the division's costs to provide such services.

D. As negotiated by contract, the local school board or the relevant school boards, in the case of regional public charter schools, may allow a public charter school to use vacant or unused properties or real estate owned by the school board. In no event shall a public charter school be required to pay rent for space which is deemed available, as negotiated by contract, in school division facilities. All other costs for the operation and maintenance of the facilities used by the public charter school shall be subject to negotiation between the public charter school and the school division or, in the case of a regional public charter school, between the regional public charter school and the relevant school divisions.

E. A public charter school shall not charge tuition.

A. Within 90 days of approval of a charter application, the local school board and the management committee of the approved public charter school shall execute a charter contract that clearly sets forth (i) the academic and operational performance expectations and measures by which the public charter school will be judged and (ii) the administrative relationship between the local school board and public charter school, including each party's rights and duties. Such 90-day period may be extended by a period not to exceed 30 days by mutual agreement of the parties. Such performance expectations and measures shall include applicable federal and state accountability requirements and may be refined or amended by mutual agreement after the public charter school has collected baseline achievement data for its enrolled students.

B. The academic and operational performance expectations and measures in the charter contract shall be based on a performance framework that clearly sets forth the academic and operational

The performance framework shall allow the inclusion of additional rigorous, valid, and reliable indicators proposed by a public charter school to augment external evaluations of its performance, provided that the local school board approves the quality and rigor of such indicators and such indicators are consistent with the purposes of this article.

D. The performance framework shall require the disaggregation of all student performance data by major student subgroups based on gender, race, poverty status, special education status, English language learner status, and gifted status.

E. Annual performance targets shall be set by each public charter school and the local school board and shall be designed to help each school meet applicable federal, state, and local school board expectations.

F. The charter contract shall be signed by the chairman of the local school board and the president or chairman of the public charter school's management committee. Within 10 days of executing a charter contract, the local school board shall submit to the Board written notification of the charter contract execution, including a copy of the executed charter contract and any attachments.

G. No public charter school shall commence operations without a charter contract executed in accordance with this section and approved in an open meeting of the local school board.

H. If the charter application proposes a program to increase the educational opportunities for at-risk students, including those proposals for residential charter schools for at-risk students, the local school board or relevant school boards, as the case may be, on behalf of the public charter school, shall also request that the Board approve an Individual School Accreditation Plan for the evaluation of the

performance of the school as authorized by the Standards of Accreditation pursuant to [8VAC20-131-280](#) C of the Virginia Administrative Code.

I. Any material revision of the terms of the contract may be made only with the approval of the local school board or relevant school boards and the management committee of the public charter school.

However, no charter school application that is initiated by one or more local school boards shall be subject to the provisions of subsection C.

Following a local school board decision to deny a public charter school application or to revoke or fail to renew a charter agreement, the local school board shall submit documentation to the Board as to the rationale for the local school board's denial of the public charter school application or revocation of or failure to renew the charter agreement.

E. The Board has no authority to grant or deny a public charter school application or to revoke or fail to renew a charter agreement but may communicate any Board finding relating to the rationale for the local school board's denial of the public charter school application or revocation of or failure to renew the charter agreement based on the documentation submitted pursuant to subsection D in any school division in which at least half of the schools receive funding pursuant to Title I, Part A of the Elementary and Secondary Education Act of 1965, P.L. 89-10, as amended.

§ 22.1-212.11. Public charter school restrictions.

A. Local school boards may establish public charter schools within the school division. Priority shall be given to public charter school applications designed to increase the educational opportunities of at-

risk students, and at least one-half of the public charter schools per division shall be designed for at-risk students; however, the one-half requirement shall not apply in cases in which an existing public school is converted into a public charter school that serves the same community as the existing public school, nor shall such public charter school conversions be counted in the determination of school division compliance with the one-half requirement.

B. Local school boards shall report the grant or denial of public charter school applications to the Board and shall specify the maximum number of charters that may be authorized, if any; the number of charters granted or denied; and whether a public charter school is designed to increase the educational opportunities of at-risk students.

C. Nothing in this article shall be construed to prevent a school that is the only school in the division from applying to become a public charter school.

2. A financial statement, on forms prescribed by the Board, that discloses the costs of administration, instruction, and other spending categories for the public charter school and that has been concisely and clearly written to enable the school board or boards and the public to compare such costs to those of other schools or comparable organizations.

B. Local school boards may revoke a charter if the public charter school:

1. Violates the conditions, standards, or procedures established in the public charter school application;
2. Fails to meet or make reasonable progress toward achievement of the content standards or student performance standards identified in the charter application;
3. Fails to meet generally accepted standards of fiscal management; or

B. Professional, licensed education personnel may volunteer for assignment to a public charter school. Assignment in a public charter school shall be for one contract year. Upon request of the employee and the recommendation of the management committee of the public charter school, reassignment to the public charter school shall occur on an annual basis.

C. At the completion of each contract year, professional, licensed education personnel who request assignment to a public noncharter school in the relevant school division or who are not recommended for reassignment in the public charter school, other than for the grounds cited in § [22.1-307](#), shall be guaranteed an involuntary transfer to a public noncharter school in the school division according to the employment policies of the school division.

D. Professional, licensed personnel of a public charter school shall be granted the same employment benefits given to professional, licensed personnel in public noncharter schools in accordance with the policies of the relevant school board or boards.

E. School boards may employ such health, mental health, social services, and other related personnel to serve in residential charter schools for at-risk pupils as set forth in the charter agreement between such school board and the charter school; however, nothing herein shall require a school board to fund the residential or other services provided by a residential charter school.

Insofar as constitutionally valid, a local school board or, in the case of a regional public charter school, the relevant school boards may establish by contract an agreement stating the conditions for funding the public charter school, including funding for the educational program to be provided by a residential charter school for at-risk students. In accordance with subsection D, the per pupil funding provided to the charter school by the local school board or, in the case of a regional public charter school, the relevant school boards, shall be negotiated in the charter agreement and shall be commensurate with the average school-based costs of educating the students in the existing schools in the division or divisions unless the cost of operating the charter school is less than that average school-based cost.

C. Services provided the public charter school by the local school board or the relevant school boards, in the case of regional public charter schools, may include food services; custodial and maintenance

services; curriculum, media, and library services; warehousing and merchandising; and such other services not prohibited by the provisions of this article or state and federal laws.

D. Funding and service agreements between local school boards and public charter schools shall not provide a financial incentive or constitute a financial disincentive to the establishment of a public charter school, including any regional public charter school.

E. Any educational and related fees collected from students enrolled at a public charter school shall be credited to the account of such public charter school established by the relevant local school board.

F. Notwithstanding any other provision of law, the proportionate share of state and federal resources allocated for students with disabilities and school personnel assigned to special education programs shall be directed to public charter schools enrolling such students. The proportionate share of moneys allocated under other federal or state categorical aid programs shall be directed to public charter schools serving students eligible for such aid.

G. The management committee of a public charter school is authorized to accept gifts, donations, or grants of any kind made to the public charter school and to spend such funds in accordance with the conditions prescribed by the donor. However, no gift, donation, or grant shall be accepted by the management committee of a public charter school if the conditions for such funds are contrary to law or the terms of the agreement between the local school board and the public charter school or, in the case of a regional public charter school, the relevant school boards and the regional public charter school.

H. The Department of Education shall provide technical assistance to local school boards relating to receipt, review, and ruling upon applications for public charter schools.

§ 22.1-213.1. Definition of "parent."

A. "Parent," for purposes of this article and regulations promulgated thereto, means:

1. A biological or adoptive parent of a child;
2. A foster parent, even if the biological or adoptive parent's rights have not been terminated, but subject to subsection B;
3. A guardian generally authorized to act as the child's parent, or authorized to make educational decisions for the child (but not the Commonwealth if the child is a ward of the Commonwealth);

4. An individual acting in the place of a biological or adoptive parent (including grandparent, step-parent, or other relative) with whom the child lives, or an individual who is legally responsible for the child's welfare; or

5. If no party qualified under subdivisions 1 through 4 can be identified, or those parties are unwilling to act as parent, a surrogate parent who has been appointed in accordance with [8VAC20-81-220](#).

B. The biological or adoptive parent, when attempting to act as the parent pursuant to this section and when more than one party is qualified under subsection A to act as a parent, must be presumed to be the parent for purposes of this section unless the biological or adoptive parent has had their residual parental rights and responsibilities terminated pursuant to § [16.1-277.01](#), [16.1-277.02](#), or [16.1-283](#) or a comparable law in another state.

C. The local school division shall provide written notice to the biological or adoptive parents at their last known address that a foster parent is acting as the parent pursuant to this section, and the local school division is entitled to rely upon the actions of the foster parent pursuant to this section until such time that the biological or adoptive parent attempts to act as the parent.

D. If a judicial decree or order identifies a specific person or persons among subdivisions A 1 through A 5 to act as the "parent" of a child or to make educational decisions on behalf of a child, then such person or persons shall be determined to be the "parent" for purposes of the special education identification, evaluation, and placement of a child and the provision of a free appropriate public education to a child.

A. The Board of Education shall prepare and supervise the implementation by each school division of a program of special education designed to educate and train children with disabilities between the ages defined in § [22.1-213](#) and may prepare and place in operation such program for such individuals of other ages. The program developed by the Board of Education shall be designed to ensure that all children with disabilities have available to them a free and appropriate education, including specially designed instruction to meet the unique needs of such children. The program shall require (i) that the hearing of each disabled child be tested prior to placement in a special education program and (ii) that a complete audiological assessment, including tests that will assess inner and middle ear functioning, be performed on each child who is deaf or hard of hearing or who fails the test required in clause (i). The school boards of the several school divisions, the Department for the Blind and Vision Impaired, the Department for the Deaf and Hard-of-Hearing, the Department of Health, and other state and local agencies that can or may be able to assist in providing educational and related services shall assist and cooperate with the Board of Education in the development of such program.

B. The Board of Education shall prescribe procedures to afford due process to children with disabilities and their parents or guardians and to school divisions in resolving disputes as to program placements, individualized education programs, tuition eligibility and other matters as defined in state or federal statutes or regulations. These procedures shall encourage the use of mediation as an informal means of resolving such disputes. Mediation shall not, however, be used to deny or delay the due process rights of parents or guardians. The procedures shall require that all testimony be given under oath or affirmation administered by the hearing officer.

C. The Board of Education may provide for final decisions to be made by a hearing officer. The parents and the school division shall have the right to be represented by legal counsel or other representative before such hearing officer without being in violation of the provisions of § [54.1-3904](#).

D. Any party aggrieved by the findings and decision made pursuant to the procedures prescribed pursuant to subsections B and C may, within 180 days of such findings and decision, bring a civil action in the circuit court for the jurisdiction in which the school division is located. In any such action, the court shall receive the records of the administrative proceedings, shall hear additional evidence at the request of a party, and basing its decision on the preponderance of the evidence, shall grant such relief as the court determines appropriate.

D1. In any action brought pursuant to subsection D, the court, in its discretion, may award reasonable attorney fees as part of the costs (i) to a prevailing party who is the parent of a child with a disability; (ii) to a prevailing party who is the Board of Education or a local school division against the attorney of a parent who files a complaint or a subsequent cause of action that is frivolous, unreasonable, or without foundation, or against the attorney of a parent who continued to litigate after the litigation clearly became frivolous, unreasonable, or without foundation; or (iii) to a prevailing party who is the Board of Education or a local school division against the attorney of a parent, or against the parent, if the parent's complaint or subsequent cause of action was presented for any improper purpose, such as to harass, to cause unnecessary delay, or to needlessly increase the cause of litigation.

Attorney fees may not be awarded relating to any meeting of the individualized education program (IEP) team unless such meeting is convened as a result of an administrative proceeding or judicial action, or, at the discretion of the State, for a mediation described in subsection B.

E. Whenever the Board of Education, in its discretion, determines that a school division fails to establish and maintain programs of free and appropriate public education that comply with regulations established by the Board, the Board may withhold all special education moneys from the school division and may use the payments that would have been available to such school division to provide special education, directly or by contract, to eligible children with disabilities in such manner as the Board considers appropriate.

F. The Board of Education shall supervise educational programs for children with disabilities by other public agencies and shall ensure that the identification, evaluation, and placement of children with dis-

abilities and youth in education programs by other public agencies, as appropriate, are consistent with the provisions of the Board of Education's special education regulations.

G. The Board of Education shall prescribe regulations to provide a range of assessment procedures for the evaluation of children with disabilities. These regulations shall include provision for parents to participate, if they so request, in the consideration of the assessment components to be used. However, such regulations shall not require any local school board to exceed the requirements of federal law or regulations for the identification and evaluation of children with disabilities.

Any hearing officer appointed pursuant to the procedures provided for in subsections B and C of § [22.1-214](#) shall have the power to issue subpoenas requiring testimony or the production of books, papers, and physical or other evidence. Any person so subpoenaed who objects may, if the hearing officer does not quash or modify the subpoena at a timely request as illegally or improvidently granted, immediately procure by a petition a decision on the validity thereof in the circuit court of the jurisdiction in which the hearing is to be held. § 22.1-214.4. Certain duties of Department.

The Department shall:

1. Provide training and guidance documents to local school divisions on the development of individualized education programs (IEPs) for children with disabilities that incorporate specific examples of high-quality present level of performance descriptions, annual goals, and postsecondary transition sections.
2. Develop a required training module for each individual who participates in an IEP meeting that comprehensively addresses and explains in detail (i) each IEP team member's respective role in the IEP meeting, (ii) the IEP development process, and (iii) components of effective IEPs. The training module shall be required for all IEP participants, with the exception of parents, prior to participating in an IEP meeting and at regular intervals thereafter.
3. Annually conduct structured reviews of a sample of IEPs from a sufficiently large sample of local school divisions to verify that the IEPs are in compliance with state and federal laws and regulations governing IEP content, and provide a summary report of the findings of such reviews and recommendations regarding any necessary corrective actions to the reviewed divisions' superintendents, special education directors, school board chairs and vice-chairs, and local special education advisory committees. In reviewing local school divisions' IEPs, the Department shall determine whether the special education and related services, supplementary aids and services, and program modifications that will be provided to enable students with disabilities to participate in nonacademic and extracurricular activities are sufficient, and include its findings and corrective actions in the summary reports it provides to the reviewed local school divisions' superintendents, special education directors, and

school board members. Nothing in this section shall be construed to (i) direct the Department to make determinations regarding whether a particular IEP provides a free appropriate public education to any individual student or (ii) authorize the Department to override a parent's consent to proposed revisions to an individual student's IEP. In determining corrective actions, the Department shall make recommendations to the relevant school division regarding, among other things, those individual IEPs for which the IEP team should convene to consider revisions necessary to incorporate content required by special education regulations. For those individual IEPs for which the Department recommends that the IEP team should convene to consider such revisions, the relevant school division shall notify the relevant parents or caregivers of the recommendations issued in the summary report of the structured review conducted pursuant to this subdivision.

4. Develop and maintain a statewide plan for improving (i) its ongoing oversight of local practices related to transition planning and services for children with disabilities and (ii) technical assistance and guidance provided for postsecondary transition planning and services for children with disabilities. At a minimum, such plan shall articulate how the Department will reliably and comprehensively assess the compliance and quality of transition plans for children with disabilities on an ongoing basis and communicate findings to local school division staff and local school boards. The Department shall, no later than December 1 of each year, update the Chairmen of the Senate Committee on Education and Health and the House Committee on Education on its progress in implementing such plan.

5. Develop and maintain a statewide strategic plan for recruiting and retaining special education teachers. At a minimum, such plan shall (i) use data analyses to determine the specific staffing needs of each local school division on an ongoing basis; (ii) evaluate the potential effectiveness of strategies for addressing recruitment and retention challenges, including tuition assistance, differentiated pay for special education teachers, and the expansion of special education teacher mentorships; and (iii) estimate the costs of implementing each such strategy, including the extent to which federal funds could be used to support implementation. The Department shall, no later than November 1 of each year, update the Chairmen of the Senate Committee on Education and Health and the House Committee on Education on its progress in implementing such plan.

6. In order to (i) address variation in rates of determinations of student eligibility for special education and related services both across local school divisions in the Commonwealth and based on specific student disabilities, (ii) promote consistency in such eligibility determinations, and (iii) ensure equal access to special education and related services across local school divisions, (a) update its special education eligibility worksheets as necessary, including clarifying any ambiguity or vagueness in eligibility criteria, and (b) provide to each local school division the appropriate level of guidance on eligibility determinations for special education and related services.

7. Develop criteria for what constitutes "exceptional circumstances" that warrant extension of the 60-calendar day regulatory timeline for complaint investigations and include the criteria in its publicly available complaint resolution procedures, (ii) consistently track the Department's receipt of each

sufficient complaint and its issuance of the respective letter of findings, and (iii) require staff to report at least quarterly to the Superintendent of Public Instruction on the specific reasons for granting an extension due to "exceptional circumstances" and the amount of time it took to complete each investigation beyond the 60-calendar day regulatory timeline

8. Develop policies and procedures for considering and addressing credible allegations of local education agency (LEA) noncompliance with the requirements of the Individuals with Disabilities Education Act (P.L. 101-476) that do not meet the current regulatory standard for state complaints. Such policies and procedures shall include expectations and mechanisms for collaboration between the Office of Dispute Resolution and Administrative Services and the Office of Special Education Program Improvement in the Division of Special Education and Student Services at the Department to investigate and resolve such credible allegations of noncompliance that do not qualify for state complaint investigations.

The parent ombudsman for special education shall systematically track and report questions and concerns raised by parents to the Superintendent of Public Instruction. The Department shall develop a one-page comprehensive summary of the roles and responsibilities of the parent ombudsman for special education, the specific supports the parent ombudsman for special education can provide to parents, and how to contact the parent ombudsman for special education. The Department shall make the summary available in multiple languages on its website.

10. Develop and implement a process for systematically auditing and verifying school divisions' self-determinations of compliance with all Individuals with Disabilities Education Act (P.L. 101-476) performance indicators. The verification process shall include a random sample of school divisions each year and ensure that all school divisions' self-determinations are reviewed and verified no less frequently than once every five years.

However, use of Braille shall not be required if other special education services are more appropriate to the student's educational needs, and the provision of other appropriate services shall not preclude Braille instruction.

B. The Virginia Department for the Blind and Vision Impaired shall prepare and deliver a program of special education services in addition to the special education provided in the public school system designed to meet the educational needs of visually impaired children between the ages of birth and twenty-one and may prepare and deliver such programs for such individuals of other ages. § 22.1-227.01. Career and technical education defined.

As used in this article, "career and technical education" means an organized education program offering a sequence of courses that (i) may incorporate field, laboratory, and classroom instruction; (ii) emphasize career and technical occupational experiences; (iii) are designed to prepare individuals for further education and gainful employment; and (iv) are aligned with state or national program certification and accreditation standards, if such standards exist for the sequence of courses. § 22.1-227.1. Career and technical education.

A. The Board of Education shall incorporate into career and technical education the Standards of Learning for mathematics, science, English, and social studies, including history, and other subject areas as may be appropriate. The Board may also authorize, in its regulations for accrediting public schools in Virginia, the substitution of industry certification and state licensure examinations for Standards of Learning assessments for the purpose of awarding credit for career and technical education courses, where appropriate.

B. The Board shall also develop a plan for increasing the number of students receiving industry certification and state licensure as part of their career and technical education. The plan shall include an annual goal for school divisions. Where there is an accepted national industry certification for career and technical education instructional personnel and programs for automotive technology, such certification shall be mandatory.

These guidelines shall include a model waiver form to be used by high schools and local businesses in connection with Partnership programs to protect both the students and the businesses from liability.

Each local school board may establish Partnerships or delegate the authority to establish Partnerships to the local school division's career and technical education administrator or his designee, in

collaboration with the school counselor office of each public high school in the school division, and shall educate high school students about opportunities available through such Partnerships.

Students who miss a partial or full day of school while participating in Partnership programs shall not be counted as absent for the purposes of calculating average daily membership, but each local school board shall develop policies and procedures for students to make up missed work and may determine the maximum number of school days per academic year that a student may spend participating in a Partnership program.

Such written contracts or purchase orders for textbooks approved by the Board shall be exempt from the Virginia Public Procurement Act (§ [2.2-4300](#) et seq.).

The contract price shall not exceed the lowest wholesale price at which the textbook or textbooks involved in the contract are currently bid under contract anywhere in the United States.

If, subsequent to the date of any contract entered into by a local school board, the prices of textbooks named in the contract are reduced or the terms of the contract are made more favorable to purchase anywhere in the United States or a special or other edition of any book named in the contract is sold outside of Virginia at a lower price than contracted in the Commonwealth, the publisher shall grant the same reduction or terms to the local school board and give the local school board the option of using such special or other edition adapted for use in Virginia and at the lowest price at which such special edition is sold elsewhere and the contract shall so state.

B. Contracts and purchase orders with publishers of textbooks approved by the Board shall require the publisher to furnish an electronic file of the textbook in the National Instructional Materials Accessibility Standards (NIMAS) format that will then be deposited in the National Instructional Materials Access Center (NIMAC) from which accessible versions of the particular textbook may be produced for students with print disabilities, as defined in 20 U.S.C. § 1474. C. Every school board shall order directly from the respective publishers the textbooks needed to supply the public schools in the school division. The publishers shall ship the textbooks to the school board. The purchase price of such textbooks shall be paid directly to the publishers by the school board.

D. With the approval of the local school board and the publisher, any private school within the school division that so requests may purchase from the local school board's contract with the publisher. Such private school shall be fully responsible for ordering, purchasing, and receiving shipments of books to be provided from the publisher pursuant to this section. B. Consumable materials such as workbooks, writing books, and drawing books may be purchased by school boards and either provided to students at no cost or sold to students at a retail price not to exceed seven percent added to the publisher's price. If sold, the local school board shall develop a policy ensuring that workbooks, writing books, and drawing books are furnished to students who are unable to afford them at a reduced price or free of charge.

C. Nothing in this section shall be construed to authorize a school board to charge fees to students for instructional materials, textbooks, or other materials used by a school board employee that are not directly used by a public school student.

Chapter 13.2 - STANDARDS OF QUALITY

§ 22.1-253.13:1. Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.

A. The General Assembly and the Board of Education believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board of Education find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, Section 1 of the Constitution of Virginia.

B. The Board of Education shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § [2.2-4001](#).

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; computer science and computational thinking, including computer coding; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade three shall be based on components of effective reading instruction, to include, at a minimum, phonemic awareness, systematic phonics, fluency, vocabulary development, and text comprehension.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board of Education shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing revised Standards

of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board of Education shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board of Education shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 3 of § [22.1-298.1](#) shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

The Board shall establish content standards and curriculum guidelines for courses in career investigation in elementary school, middle school, and high school. Each school board shall (i) require each middle school student to take at least one course in career investigation or (ii) select an alternate means of delivering the career investigation course to each middle school student, provided that such alternative is equivalent in content and rigor and provides the foundation for such students to develop

their academic and career plans. Any school board may require (a) such courses in career investigation at the high school level as it deems appropriate, subject to Board approval as required in subsection A of § [22.1-253.13:4](#), and (b) such courses in career investigation at the elementary school level as it deems appropriate. The Board shall develop and disseminate to each school board career investigation resource materials that are designed to ensure that students have the ability to further explore interest in career and technical education opportunities in middle and high school. In developing such resource materials, the Board shall consult with representatives of career and technical education, industry, skilled trade associations, chambers of commerce or similar organizations, and contractor organizations.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board of Education. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, computer science and computational thinking, including computer coding, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § [22.1-254](#) and § [22.1-254.01](#).

Remediation programs shall include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board of Education, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the division superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board of Education shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § [22.1-199.2](#).

D. Local school boards shall also implement the following:

1. Programs in grades K through three that emphasize developmentally appropriate learning to enhance success.
2. Programs based on prevention, intervention, or remediation designed to increase the number of students who earn a high school diploma and to prevent students from dropping out of school. Such programs shall include components that are research-based.
3. Career and technical education programs incorporated into the K through 12 curricula that include:
 - a. Knowledge of careers and all types of employment opportunities, including, but not limited to, apprenticeships, entrepreneurship and small business ownership, the military, and the teaching profession, and emphasize the advantages of completing school with marketable skills;
 - b. Career exploration opportunities in the middle school grades;
 - c. Competency-based career and technical education programs that integrate academic outcomes, career guidance, and job-seeking skills for all secondary students. Programs shall be based upon labor market needs and student interest. Career guidance shall include counseling about available

employment opportunities and placement services for students exiting school. Each school board shall develop and implement a plan to ensure compliance with the provisions of this subdivision. Such plan shall be developed with the input of area business and industry representatives and local comprehensive community colleges and shall be submitted to the Superintendent of Public Instruction in accordance with the timelines established by federal law;

d. Annual notice on its website to enrolled high school students and their parents of (i) the availability of the postsecondary education and employment data published by the State Council of Higher Education on its website pursuant to § [23.1-204.1](#) and (ii) the opportunity for such students to obtain a nationally recognized career readiness certificate at a local public high school, comprehensive community college, or workforce center; and

e. As part of each student's academic and career plan, a list of (i) the top 100 professions in the Commonwealth by median pay and the education, training, and skills required for each such profession and (ii) the top 10 degree programs at institutions of higher education in the Commonwealth by median pay of program graduates. The Department of Education shall annually compile such lists and provide them to each local school board.

4. Educational objectives in middle and high school that emphasize economic education and financial literacy pursuant to § [22.1-200.03](#).

5. Early identification of students with disabilities and enrollment of such students in appropriate instructional programs consistent with state and federal law.

6. Early identification of gifted students and enrollment of such students in appropriately differentiated instructional programs.

7. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in these standards. Such students shall be counted in average daily membership (ADM) in accordance with the regulations of the Board of Education.

8. Adult education programs for individuals functioning below the high school completion level. Such programs may be conducted by the school board as the primary agency or through a collaborative arrangement between the school board and other agencies.

9. A plan to make achievements for students who are educationally at risk a divisionwide priority that shall include procedures for measuring the progress of such students.

10. An agreement for postsecondary degree attainment with a comprehensive community college in the Commonwealth specifying the options for students to complete an associate degree or a one-year Uniform Certificate of General Studies from a comprehensive community college concurrent with a high school diploma. Such agreement shall specify the credit available for dual enrollment courses and Advanced Placement courses with qualifying exam scores of three or higher.

11. A plan to notify students and their parents of the availability of dual enrollment and advanced placement classes; career and technical education programs, including internships, externships,

apprenticeships, credentialing programs, certification programs, licensure programs, and other work-based learning experiences; the International Baccalaureate Program and Academic Year Governor's School Programs; the qualifications for enrolling in such classes, programs, and experiences; and the availability of financial assistance to low-income and needy students to take the advanced placement and International Baccalaureate examinations. This plan shall include notification to students and parents of the agreement with a comprehensive community college in the Commonwealth to enable students to complete an associate degree or a one-year Uniform Certificate of General Studies concurrent with a high school diploma.

12. Identification of students with limited English proficiency and enrollment of such students in appropriate instructional programs, which programs may include dual language programs whereby such students receive instruction in English and in a second language.

13. Early identification, diagnosis, and assistance for students with reading and mathematics problems and provision of instructional strategies and reading and mathematics practices that benefit the development of reading and mathematics skills for all students.

Local school divisions shall provide reading intervention services to students in kindergarten through grade three who demonstrate deficiencies based on their individual performance on the Standards of Learning reading test or any reading diagnostic test that meets criteria established by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Such reading intervention services shall be evidence-based, including services that are grounded in the science of reading, and include (i) the components of effective reading instruction and (ii) explicit, systematic, sequential, and cumulative instruction, to include phonemic awareness, systematic phonics, fluency, vocabulary development, and text comprehension as appropriate based on the student's demonstrated reading deficiencies. The parent of each student who receives such reading intervention services shall be notified before the services begin in accordance with the provisions of [§ 22.1-215.2](#), and the progress of each such student shall be monitored throughout the provision of services. Each student who receives such reading intervention services shall be assessed again at the end of that school year. The local school division, in its discretion, shall provide such reading intervention services prior to promoting a student from grade three to grade four. Such reading intervention services may be administered through the use of reading specialists; trained aides; trained volunteers under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher provides direct instruction to the students who need extra assistance; and extended instructional time in the school day or school year for these students. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or early intervention reading may be used to meet the requirements of this subdivision.

Local school divisions shall provide algebra readiness intervention services to students in grades six through nine who are at risk of failing the Algebra I end-of-course test, as demonstrated by their individual performance on any diagnostic test that has been approved by the Department of Education.

Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives algebra readiness intervention services will be assessed again at the end of that school year. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or algebra readiness intervention services may be used to meet the requirements of this subdivision.

As used in this subdivision:

"Science of reading" means the study of the relationship between cognitive science and educational outcomes.

14. Incorporation of art, music, and physical education as a part of the instructional program at the elementary school level.

15. A program of physical activity available to all students in grades kindergarten through five consisting of at least 20 minutes per day or an average of 100 minutes per week during the regular school year and available to all students in grades six through 12 with a goal of at least 150 minutes per week on average during the regular school year. Such program may include any combination of (i) physical education classes, (ii) extracurricular athletics, (iii) recess, or (iv) other programs and physical activities deemed appropriate by the local school board. Each local school board shall implement such program during the regular school year.

16. A program of student services for kindergarten through grade 12 that shall be designed to aid students in their educational, social, and career development.

17. The collection and analysis of data and the use of the results to evaluate and make decisions about the instructional program.

18. A program of instruction in the high school Virginia and U.S. Government course on all information and concepts contained in the civics portion of the U.S. Naturalization Test.

E. From such funds as may be appropriated or otherwise received for such purpose, there shall be established within the Department of Education a unit to (i) conduct evaluative studies; (ii) provide the resources and technical assistance to increase the capacity for school divisions to deliver quality instruction; and (iii) assist school divisions in implementing those programs and practices that will enhance pupil academic performance and improve family and community involvement in the public schools. Such unit shall identify and analyze effective instructional programs and practices and professional development initiatives; evaluate the success of programs encouraging parental and family involvement; assess changes in student outcomes prompted by family involvement; and collect and disseminate among school divisions information regarding effective instructional programs and practices, initiatives promoting family and community involvement, and potential funding and support sources. Such unit may also provide resources supporting professional development for administrators and teachers. In providing such information, resources, and other services to school divisions,

the unit shall give priority to those divisions demonstrating a less than 70 percent passing rate on the Standards of Learning assessments.

F. Each local school board may enter into agreements for postsecondary course credit, credential, certification, or license attainment, hereinafter referred to as College and Career Access Pathways Partnerships (Partnerships), with comprehensive community colleges or other public institutions of higher education or educational institutions established pursuant to Title 23.1 that offer a career and technical education curriculum. Such Partnerships shall (i) specify the options for students to take courses as part of the career and technical education curriculum that lead to course credit or an industry-recognized credential, certification, or license concurrent with a high school diploma; (ii) specify the credit, credentials, certifications, or licenses available for such courses; and (iii) specify available options for students to participate in pre-apprenticeship and apprenticeship programs at comprehensive community colleges concurrent with the pursuit of a high school diploma and receive college credit and high school credit for successful completion of any such program.

§ 22.1-253.13:2. Standard 2. Instructional, administrative, and support personnel.

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and

describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. (Effective until July 1, 2022) Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act. Calculations of kindergarten positions shall be based on full-day kindergarten programs. Beginning with the March 31 report of average daily membership, those school divisions offering half-day kindergarten with pupil/teacher ratios that exceed 30 to one shall adjust their average daily membership for kindergarten to reflect 85 percent of the total kindergarten average daily memberships, as provided in the appropriation act.

D. (Effective July 1, 2022) Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § [22.1-253.13:1](#), school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the general appropriation act, shall be provided to support (i) 18.5 full-time equivalent instructional positions in the 2020-2021 school year for each 1,000 students identified as having limited English proficiency and (ii) 20

full-time equivalent instructional positions in the 2021-2022 school year and thereafter for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board of Education.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ the following reading specialists in elementary schools, one full-time in each elementary school at the discretion of the local school board. One reading specialist employed by each local school board that employs a reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § [22.1-253.13:1](#), school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board of Education.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to the type of school and student enrollment:

1. Principals in elementary schools, one half-time to 299 students, one full-time at 300 students; principals in middle schools, one full-time, to be employed on a 12-month basis; principals in high schools, one full-time, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors:

a. Effective with the 2020-2021 school year, in elementary schools, one hour per day per 75 students, one full-time at 375 students, one hour per day additional time per 75 students or major fraction thereof; in middle schools, one period per 65 students, one full-time at 325 students, one additional period per 65 students or major fraction thereof; in high schools, one period per 60 students, one full-time at 300 students, one additional period per 60 students or major fraction thereof.

b. Effective with the 2021-2022 school year, local school boards shall employ one full-time equivalent school counselor position per 325 students in grades kindergarten through 12.

c. Local school divisions that employ a sufficient number of school counselors to meet the school counselor staffing requirements set forth in this subdivision may assign school counselors to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board of Education.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except

for school counselors, and shall be based on the school's total enrollment; school counselor staff requirements shall, however, be based on the enrollment at the various school organization levels, i.e., elementary, middle, or high school. The Board of Education may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § [22.1-254.1](#), and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each school board shall provide at least three specialized student support positions per 1,000 students. For purposes of this subsection, specialized student support positions include school social workers, school psychologists, school nurses, licensed behavior analysts, licensed assistant behavior analysts, and other licensed health and behavioral positions, which may either be employed by the school board or provided through contracted services.

P. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;
2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social work administrative positions not included in subsection O; (ii) school counselor administrative positions not included in subdivision H 4; (iii) home-bound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral administrative positions not included in subsection O;
4. Instructional personnel support, including professional development positions and library and media positions not included in subdivision H 3;
5. Technology professional positions not included in subsection J;
6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;
7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and
8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

Q. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

§ 22.1-253.13:3. Standard 3. Accreditation, other standards, assessments, and releases from state regulations.

A. The Board shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ [2.2-4000](#) et seq.), which shall include (i) student outcome and growth measures, (ii) requirements and guidelines for instructional programs and for the integration of

educational technology into such instructional programs, (iii) administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, (iv) student services, (v) auxiliary education programs such as library and media services, (vi) requirements for graduation from high school, (vii) community relations, and (viii) the philosophy, goals, and objectives of public education in the Commonwealth.

The Board shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board's regulations establishing standards for accreditation shall ensure that the accreditation process is transparent and based on objective measurements and that any appeal of the accreditation status of a school is heard and decided by the Board.

The Board shall review annually the accreditation status of all schools in the Commonwealth. The Board shall review the accreditation status of a school once every three years if the school has been fully accredited for three consecutive years. Upon such triennial review, the Board shall review the accreditation status of the school for each individual year within that triennial review period. If the Board finds that the school would have been accredited every year of that triennial review period the Board shall accredit the school for another three years. The Board may review the accreditation status of any other school once every two years or once every three years, provided that any school that receives a multiyear accreditation status other than full accreditation shall be covered by a Board-approved multiyear corrective action plan for the duration of the period of accreditation. Such multiyear corrective action plan shall include annual written progress updates to the Board. A multiyear accreditation status shall not relieve any school or division of annual reporting requirements.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board. Each local school board shall report the accreditation status of all schools in the local school division annually in public session.

The Board shall establish a review process to assist any school that does not meet the standards established by the Board. The relevant school board shall report the results of such review and any annual progress reports in public session and shall implement any actions identified through such review and utilize them for improvement planning.

The Board shall establish a corrective action plan process for any school that does not meet the standards established by the Board. Such process shall require (a) each school board to submit a corrective action plan for any school in the local school division that does not meet the standards established by the Board and (b) any school board that fails to demonstrate progress in developing or implementing any such corrective action plan to enter into a memorandum of understanding with the Board.

When the Board determines through its review process that the failure of schools within a division to meet the standards established by the Board is related to division-level failure to implement the Standards of Quality or other division-level action or inaction, the Board may require a division-level

academic review. After the conduct of such review and within the time specified by the Board, each school board shall enter into a memorandum of understanding with the Board and shall subsequently submit to the Board for approval a corrective action plan, consistent with criteria established by the Board setting forth specific actions and a schedule designed to ensure that schools within its school division meet the standards established by the Board. If the Board determines that the proposed corrective action plan is not sufficient to enable all schools within the division to meet the standards established by the Board, the Board may return the plan to the local school board with directions to submit an amended plan pursuant to Board guidance. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § [22.1-253.13:6](#).

B. The Superintendent of Public Instruction shall develop, subject to revision by the Board, criteria for determining and recognizing educational performance in the Commonwealth's local school divisions and public schools. The portion of such criteria that measures individual student growth shall become an integral part of the accreditation process for schools in which any grade level in the grade three through eight range is taught. The Superintendent of Public Instruction shall annually report to the Board on the accreditation status of all school divisions and schools. Such report shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance and individual student growth in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of Public Instruction shall assist local school boards in the implementation of action plans for increasing educational performance and individual student growth in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor the implementation of and report to the Board on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall, with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments. In lieu of a one-time end-of-year assessment, the Board shall establish, for the purpose of providing measures of individual student growth over the course of the school year, a through-year growth assessment system, aligned with the Standards of Learning, for the administration of reading and mathematics assessments in grades three through eight. Such through-year growth assessment system shall include at least one beginning-of-year, one mid-year, and one end-of-year assessment in order to provide individual student growth scores over the course of the school year, but the total time scheduled for taking

all such assessments shall not exceed 150 percent of the time scheduled for taking a single end-of-year proficiency assessment. The Department shall ensure adequate training for teachers and principals on how to interpret and use student growth data from such assessments to improve reading and mathematics instruction in grades three through eight throughout the school year. With such funds and content as are available for such purpose, such through-year growth assessment system shall provide accurate measurement of a student's performance, through computer adaptive technology, using test items at, below, and above the student's grade level as necessary.

The Board shall also provide the option of industry certification and state licensure examinations as a student-selected credit.

The Department shall make available to school divisions Standards of Learning assessments typically administered by high schools by December 1 of the school year in which such assessments are to be administered or when newly developed assessments are available, whichever is later.

The Board shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall prescribe alternative methods of Standards of Learning assessment administration for children with disabilities, as that term is defined in § [22.1-213](#), who meet criteria established by the Board to demonstrate achievement of the Standards of Learning. An eligible student's Individual Education Program team shall make the final determination as to whether an alternative method of administration is appropriate for the student.

The Board shall include in the student outcome and growth measures that are required by the standards of accreditation the required assessments for various grade levels and classes, including the completion of the alternative assessments implemented by each local school board, in accordance with the Standards of Learning. These assessments shall include end-of-course or end-of-grade tests for English, mathematics, science, and history and social science and may be integrated to include multiple subject areas.

The Standards of Learning assessments administered to students in grades three through eight shall not exceed (i) reading and mathematics in grades three and four; (ii) reading, mathematics, and science in grade five; (iii) reading and mathematics in grades six and seven; (iv) reading, writing, and mathematics in grade eight; (v) science after the student receives instruction in the grade six science, life science, and physical science Standards of Learning and before the student completes grade eight; and (vi) Virginia Studies and Civics and Economics once each at the grade levels deemed appropriate by each local school board. The reading and mathematics assessments administered to students in grades three through eight shall be through-year growth assessments.

Each school board shall annually certify that it has provided instruction and administered an alternative assessment, consistent with Board guidelines, to students in grades three through eight in each Standards of Learning subject area in which a Standards of Learning assessment was not administered during the school year. Such guidelines shall (a) incorporate options for age-appropriate, authentic performance assessments and portfolios with rubrics and other methodologies designed to ensure that students are making adequate academic progress in the subject area and that the Standards of Learning content is being taught; (b) permit and encourage integrated assessments that include multiple subject areas; and (c) emphasize collaboration between teachers to administer and substantiate the assessments and the professional development of teachers to enable them to make the best use of alternative assessments.

Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

The Department shall award recovery credit to any student in grades three through eight who performs below grade level on a Standards of Learning assessment in English reading or mathematics, receives remediation, and subsequently retakes and performs at or above grade level on such an assessment, including any such student who subsequently retakes such an assessment on an expedited basis.

In addition, to assess the educational progress of students, the Board shall (1) develop appropriate assessments, which may include criterion-referenced tests and other assessment instruments that may be used by classroom teachers; (2) select appropriate industry certification and state licensure examinations; and (3) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels. An annual justification that includes evidence that the student meets the participation criteria defined by the Department shall be provided for each student considered for the Virginia Grade Level Alternative. Each Individual Education Program team shall review such justification and make the final determination as to whether or not the Virginia Grade Level Alternative is appropriate for the student. The superintendent and the school board chairman shall certify to the Board, as a part of certifying compliance with the Standards of Quality, that there is a justification in the Individual Education Program for every student who takes the Virginia Grade Level Alternative. Compliance with this requirement shall be monitored as a part of the special education monitoring process conducted by the Department. The Board shall report to the Governor and General Assembly in its annual reports pursuant to § [22.1-18](#) any school division that is not in compliance with this requirement.

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to § [30-231.2](#), who is enrolled in a preparation program for a high school equivalency examination

approved by the Board or in an adult basic education program or an adult secondary education program to obtain the high school diploma or a high school equivalency certificate.

The Department shall develop processes for informing school divisions of changes in the Standards of Learning.

The Board may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board shall provide notice to local school boards regarding such special provisions.

The Board shall not include in its calculation of the passage rate for a Standards of Learning assessment or the level of achievement of the Standards of Learning objectives for an individual student growth assessment for the purposes of state accountability any student whose parent has decided to not have his child take such Standards of Learning assessment, unless such exclusions would result in the school's not meeting any required state or federal participation rate.

D. The Board may pursue all available civil remedies pursuant to § [22.1-19.1](#) or administrative action pursuant to § [22.1-292.1](#) for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision 10 of § [2.2-3705.3](#). However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments, including computer-adaptive Standards of Learning assessments, for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments, alternative assessments, and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to students, which may include criterion-referenced tests and teacher-made tests and shall include the Standards of Learning assessments, the local school board's alternative assessments, and the National Assessment of Educational Progress state-by-state assessment. Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board, the results from the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, if administered, industry certification examinations, and the Standards of Learning Assessments to the public.

The Board shall not require administration of the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the requirements for home instruction pursuant to § [22.1-254.1](#).

The Board shall include requirements for the reporting of the Standards of Learning assessment data, regardless of accreditation frequency, as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

G. Each local school division superintendent shall regularly review the division's submission of data and reports required by state and federal law and regulations to ensure that all information is accurate and submitted in a timely fashion. The Superintendent of Public Instruction shall provide a list of the required reports and data to division superintendents annually. The status of compliance with this requirement shall be included in the Board's annual report to the Governor and the General Assembly as required by § [22.1-18](#).

H. Any school board may request the Board for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards for

Accreditation pursuant to 8VAC20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements may be granted by the Board based on submission of a request from the division superintendent and chairman of the local school board. The Board may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board may also grant local school boards waivers of specific requirements in § [22.1-253.13:2](#), based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a sufficient number of personnel divisionwide to meet the total number required by § [22.1-253.13:2](#) and all pupil/teacher ratios and class size maximums set forth in subsection C of § [22.1-253.13:2](#) are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board of Education and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall include provisions relating to the completion of graduation requirements through Virtual Virginia. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student.

B. Students identified as disabled who complete the requirements of their individualized education programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet the requirements for any named diploma shall be awarded Applied Studies diplomas by local school boards. The Board shall develop and implement statewide requirements for earning an Applied Studies diploma for implementation at the beginning of the 2022-2023 school year.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ [22.1-213](#) et seq.) of Chapter 13.

The Department shall develop guidance, in multiple languages, for students and parents conveying (i) the limitations of the applied studies diploma, (ii) key curriculum and testing decisions that reduce the likelihood that a student will be able to obtain a standard diploma, and (iii) a statement that the pursuit of an applied studies diploma may preclude a student's ability to pursue a standard diploma.

Each local school board shall provide guidance from the Department to parents of students with disabilities regarding the Applied Studies diploma and its limitations at a student's annual individualized education program meeting corresponding to grades three through 12 when curriculum or statewide assessment decisions are being made that impact the type of diploma for which the student can qualify.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ [22.1-1](#) et seq.), to the parent of students who fail to graduate or who have failed to achieve graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § [22.1-5](#).

D. In establishing graduation requirements, the Board shall:

1. Develop and implement, in consultation with stakeholders representing elementary and secondary education, higher education, and business and industry in the Commonwealth and including parents, policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that identifies the knowledge and skills that students should attain during high school in order to be successful contributors to the economy of the Commonwealth, giving due consideration to critical thinking, creative thinking, collaboration, communication, and citizenship.
2. Emphasize the development of core skill sets in the early years of high school.
3. Establish multiple paths toward college and career readiness for students to follow in the later years of high school. Each such pathway shall include opportunities for internships, externships, and credentialing.
4. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation requirements, which shall include Standards of Learning testing, as necessary.
5. Require students to complete at least one course in fine or performing arts or career and technical education, one course in United States and Virginia history, and two sequential elective courses chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses that provides a foundation for further education or training or preparation for employment.
6. Require that students (i) complete an Advanced Placement, honors, International Baccalaureate, or dual enrollment course; (ii) complete a high-quality work-based learning experience, as defined by the Board; or (iii) earn a career and technical education credential that has been approved by the Board, except when a career and technical education credential in a particular subject area is not readily available or appropriate or does not adequately measure student competency, in which case the student shall receive satisfactory competency-based instruction in the subject area to earn credit. The career and technical education credential, when required, could include the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment. The Department of Education shall develop, maintain, and make available to each local school board a catalogue of the testing accommodations available to English language learners for each such certification, examination, assessment, and battery. Each local school board shall develop and implement policies to require each high school principal or his designee to notify each English language learner of the availability of such testing accommodations prior to the student's participation in any such certification, examination, assessment, or battery.
7. Beginning with first-time ninth grade students in the 2016-2017 school year, require students to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.
8. Make provision in its regulations for students with disabilities to earn a diploma.

9. Require students to complete one virtual course, which may be a noncredit-bearing course.
10. Provide that students who complete elective classes into which the Standards of Learning for any required course have been integrated and achieve a passing score on the relevant Standards of Learning test for the relevant required course receive credit for such elective class.
11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstrating mastery of the course content and objectives and receiving a passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.
12. Provide for the award of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Armed Services Vocational Aptitude Battery assessments passed, and Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

- a. For the purpose of awarding credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications or state licensure examinations; and
 - b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.
13. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

14. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board of Education shall develop guidelines addressing how computer science courses can satisfy graduation requirements.
15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.
16. Provide for the award of verified units of credit for a satisfactory score, as determined by the Board, on the Preliminary ACT (PreACT) or Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) examination.
17. Permit students to exceed a full course load in order to participate in courses offered by an institution of higher education that lead to a degree, certificate, or credential at such institution.
18. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction after the student has completed the course curriculum and relevant Standards of Learning end-of-course assessment, or Board-approved substitute, provided that such student subsequently receives instruction, coursework, or study toward an industry certification approved by the local school board.
19. Permit any English language learner who previously earned a sufficient score on an Advanced Placement or International Baccalaureate foreign language examination or an SAT II Subject Test in a foreign language to substitute computer coding course credit for any foreign language course credit required to graduate, except in cases in which such foreign language course credit is required to earn an advanced diploma offered by a nationally recognized provider of college-level courses.
20. Permit a student who is pursuing an advanced diploma and whose individualized education program specifies a credit accommodation for world language to substitute two standard units of credit in computer science for two standard units of credit in a world language. For any student that elects to substitute a credit in computer science for credit in world language, his or her school counselor must provide notice to the student and parent or guardian of possible impacts related to college entrance requirements.

E. In the exercise of its authority to recognize exemplary performance by providing for diploma seals:

1. The Board shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.
2. The Board shall establish criteria for awarding a diploma seal for science, technology, engineering, and mathematics (STEM) for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) relevant coursework; (ii) technical writing, reading, and oral communication skills; (iii) relevant training; and (iv) industry, professional, and trade association national certifications.

3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who demonstrates proficiency in English and at least one other language for the Board of Education-approved diplomas. The Board shall consider criteria including the student's (i) score on a College Board Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) measure or another nationally or internationally recognized language proficiency test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the Board.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § [22.1-254](#) and have (i) achieved a passing score on a high school equivalency examination approved by the Board of Education; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, report, and make available to the public high school graduation and dropout data using a formula prescribed by the Board.

H. The Board shall also collect, analyze, report, and make available to the public high school graduation and dropout data using a formula that excludes any student who fails to graduate because such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the graduation rate required by this subsection.

I. The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data required by subsections G and H.

B. Consistent with the finding that leadership is essential for the advancement of public education in the Commonwealth, teacher, principal, and superintendent evaluations shall be consistent with the performance standards included in the Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents. Evaluations shall include student academic progress as a significant component and an overall summative rating. student achievement at the school and classroom levels; (ii) as part of the license renewal process, to assist teachers and principals in acquiring the skills needed to work with gifted students, students with disabilities, and students who have been identified as having limited English proficiency and to increase student achievement and expand the knowledge and skills students require to meet the standards for academic performance set by the Board of Education; (iii) in educational technology for all instructional personnel which is designed to facilitate integration of computer skills and related technology into the curricula; and (iv) for principals and supervisors designed to increase proficiency in instructional leadership and management, including training in the evaluation and documentation of teacher and principal performance based on student academic progress and the skills and knowledge of such instructional or administrative personnel.

In addition, each local school board shall also provide teachers and principals with high-quality professional development programs each year in (a) instructional content; (b) the preparation of tests and other assessment measures; (c) methods for assessing the progress of individual students, including Standards of Learning assessment materials or other criterion-referenced tests that match locally developed objectives; (d) instruction and remediation techniques in English, mathematics, science, and history and social science; (e) interpreting test data for instructional purposes; (f) technology applications to implement the Standards of Learning; and (g) effective classroom management.

F. Schools and school divisions shall include as an integral component of their comprehensive plans required by § [22.1-253.13:6](#), high-quality professional development programs that support the recruitment, employment, and retention of qualified teachers and principals. Each school board shall require all instructional personnel to participate each year in these professional development programs.

G. Each local school board shall annually review its professional development program for quality, effectiveness, participation by instructional personnel, and relevancy to the instructional needs of teachers and the academic achievement needs of the students in the school division.

§ 22.1-253.13:6. Standard 6. Planning and public involvement.

A. The Board of Education shall adopt a statewide comprehensive, unified, long-range plan based on data collection, analysis, and evaluation. Such plan shall be developed with statewide participation. The Board shall review the plan biennially and adopt any necessary revisions. The Board shall post the plan on the Department of Education's website if practicable, and, in any case, shall make a hard copy of such plan available for public inspection and copying.

This plan shall include the objectives of public education in Virginia, including strategies for first improving student achievement, particularly the achievement of educationally at-risk students, then maintaining high levels of student achievement; an assessment of the extent to which these objectives are being achieved; a forecast of enrollment changes; and an assessment of the needs of public

education in the Commonwealth. In the annual report required by § [22.1-18](#), the Board shall include an analysis of the extent to which these Standards of Quality have been achieved and the objectives of the statewide comprehensive plan have been met. The Board shall also develop, consistent with, or as a part of, its comprehensive plan, a detailed comprehensive, long-range plan to integrate educational technology into the Standards of Learning and the curricula of the public schools in Virginia, including career and technical education programs. The Board shall review and approve the comprehensive plan for educational technology and may require the revision of such plan as it deems necessary.

B. Each local school board shall adopt a divisionwide comprehensive, unified, long-range plan based on data collection, an analysis of the data, and how the data will be utilized to improve classroom instruction and student achievement. The plan shall be developed with staff and community involvement and shall include, or be consistent with, all other divisionwide plans required by state and federal laws and regulations. Chapter 14 - Pupils

Article 1 - Compulsory School Attendance

§ 22.1-254. Compulsory attendance required; excuses and waivers; alternative education program attendance; exemptions from article.

A. As used in this subsection, "attend" includes participation in educational programs and courses at a site remote from the school with the permission of the school and in conformity with applicable requirements.

Except as otherwise provided in this article, every parent, guardian, or other person in the Commonwealth having control or charge of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday shall, during the period of each year the public schools are in session and for the same number of days and hours per day as the public schools, cause such child to attend a public school or a private, denominational, or parochial school or have such child taught by a tutor or teacher of qualifications prescribed by the Board of Education and approved by the division superintendent, or provide for home instruction of such child as described in § [22.1-254.1](#).

As prescribed in the regulations of the Board of Education, the requirements of this section may also be satisfied by causing a child to attend an alternative program of study or work/study offered by a public, private, denominational, or parochial school or by a public or private degree-granting institution of higher education. Further, in the case of any five-year-old child who is subject to the provisions of this subsection, the requirements of this section may be alternatively satisfied by causing the child to attend any public educational pre-kindergarten program, including a Head Start program, or in a private, denominational, or parochial educational pre-kindergarten program.

Instruction in the home of a child or children by the parent, guardian, or other person having control or charge of such child or children shall not be classified or defined as a private, denominational or parochial school.

The requirements of this section shall apply to (i) any child in the custody of the Department of Juvenile Justice or the Department of Corrections who has not passed his eighteenth birthday and (ii) any child whom the division superintendent has required to take a special program of prevention, intervention, or remediation as provided in subsection C of § [22.1-253.13:1](#) and in § [22.1-254.01](#). The requirements of this section shall not apply to (a) any person 16 through 18 years of age who is housed in an adult correctional facility when such person is actively pursuing the achievement of a passing score on a high school equivalency examination approved by the Board of Education but is not enrolled in an individual student alternative education plan pursuant to subsection E, and (b) any child who has obtained a high school diploma or its equivalent, a certificate of completion, or has achieved a passing score on a high school equivalency examination approved by the Board of Education, or who has otherwise complied with compulsory school attendance requirements as set forth in this article.

B. A school board shall excuse from attendance at school:

1. Any pupil who, together with his parents, by reason of bona fide religious training or belief is conscientiously opposed to attendance at school. For purposes of this subdivision, "bona fide religious training or belief" does not include essentially political, sociological or philosophical views or a merely personal moral code; and
2. On the recommendation of the juvenile and domestic relations district court of the county or city in which the pupil resides and for such period of time as the court deems appropriate, any pupil who, together with his parents, is opposed to attendance at a school by reason of concern for such pupil's health, as verified by competent medical evidence, or by reason of such pupil's reasonable apprehension for personal safety when such concern or apprehension in that pupil's specific case is determined by the court, upon consideration of the recommendation of the principal and division superintendent, to be justified.

C. Each local school board shall develop policies for excusing students who are absent by reason of observance of a religious holiday. Such policies shall ensure that a student shall not be deprived of any award or of eligibility or opportunity to compete for any award, or of the right to take an alternate test or examination, for any which he missed by reason of such absence, if the absence is verified in a manner acceptable to the school board.

D. A school board may excuse from attendance at school:

1. On recommendation of the principal and the division superintendent and with the written consent of the parent or guardian, any pupil who the school board determines, in accordance with regulations of the Board of Education, cannot benefit from education at such school; or

2. On recommendation of the juvenile and domestic relations district court of the county or city in which the pupil resides, any pupil who, in the judgment of such court, cannot benefit from education at such school.

E. Local school boards may allow the requirements of subsection A to be met under the following conditions:

For a student who is at least 16 years of age, there shall be a meeting of the student, the student's parents, and the principal or his designee of the school in which the student is enrolled in which an individual student alternative education plan shall be developed in conformity with guidelines prescribed by the Board, which plan must include:

1. Career guidance counseling;
2. Mandatory enrollment and attendance in a preparatory program for passing a high school equivalency examination approved by the Board of Education or other alternative education program approved by the local school board with attendance requirements that provide for reporting of student attendance by the chief administrator of such preparatory program or approved alternative education program to such principal or his designee;
3. Mandatory enrollment in a program to earn a Board of Education-approved career and technical education credential, such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment;
4. Successful completion of the course in economics and personal finance required to earn a Board of Education-approved high school diploma;
5. Counseling on the economic impact of failing to complete high school; and
6. Procedures for reenrollment to comply with the requirements of subsection A.

A student for whom an individual student alternative education plan has been granted pursuant to this subsection and who fails to comply with the conditions of such plan shall be in violation of the compulsory school attendance law, and the division superintendent or attendance officer of the school division in which such student was last enrolled shall seek immediate compliance with the compulsory school attendance law as set forth in this article.

Students enrolled with an individual student alternative education plan shall be counted in the average daily membership of the school division.

F. A school board may, in accordance with the procedures set forth in Article 3 (§ [22.1-276.01](#) et seq.) of Chapter 14 and upon a finding that a school-age child has been (i) charged with an offense relating to the Commonwealth's laws, or with a violation of school board policies, on weapons, alcohol or drugs, or intentional injury to another person; (ii) found guilty or not innocent of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the

superintendent of the school division pursuant to subsection G of § [16.1-260](#); (iii) suspended pursuant to § [22.1-277.05](#); or (iv) expelled from school attendance pursuant to § [22.1-277.06](#) or [22.1-277.07](#) or subsection C of § [22.1-277](#), require the child to attend an alternative education program as provided in § [22.1-209.1:2](#) or [22.1-277.2:1](#).

G. Whenever a court orders any pupil into an alternative education program, including a program preparing students for a high school equivalency examination approved by the Board of Education, offered in the public schools, the local school board of the school division in which the program is offered shall determine the appropriate alternative education placement of the pupil, regardless of whether the pupil attends the public schools it supervises or resides within its school division.

The juvenile and domestic relations district court of the county or city in which a pupil resides or in which charges are pending against a pupil, or any court in which charges are pending against a pupil, may require the pupil who has been charged with (i) a crime that resulted in or could have resulted in injury to others, (ii) a violation of Article 1 (§ [18.2-77](#) et seq.) of Chapter 5 of Title 18.2, or (iii) any offense related to possession or distribution of any Schedule I, II, or III controlled substances to attend an alternative education program, including, but not limited to, night school, adult education, or any other education program designed to offer instruction to students for whom the regular program of instruction may be inappropriate.

This subsection shall not be construed to limit the authority of school boards to expel, suspend, or exclude students, as provided in §§ [22.1-277.04](#), [22.1-277.05](#), [22.1-277.06](#), [22.1-277.07](#), and [22.1-277.2](#). As used in this subsection, the term "charged" means that a petition or warrant has been filed or is pending against a pupil.

H. Within one calendar month of the opening of school, each school board shall send to the parents or guardian of each student enrolled in the division a copy of the compulsory school attendance law and the enforcement procedures and policies established by the school board.

I. The provisions of this article shall not apply to:

1. Children suffering from contagious or infectious diseases while suffering from such diseases;
2. Children whose immunizations against communicable diseases have not been completed as provided in § [22.1-271.2](#);
3. Children under 10 years of age who live more than two miles from a public school unless public transportation is provided within one mile of the place where such children live;
4. Children between the ages of 10 and 17, inclusive, who live more than 2.5 miles from a public school unless public transportation is provided within 1.5 miles of the place where such children live; and
5. Children excused pursuant to subsections B and D.

Further, any child who will not have reached his sixth birthday on or before September 30 of each school year whose parent or guardian notifies the appropriate school board that he does not wish the child to attend school until the following year because the child, in the opinion of the parent or guardian, is not mentally, physically, or emotionally prepared to attend school, may delay the child's attendance for one year.

The distances specified in subdivisions 3 and 4 shall be measured or determined from the child's residence to the entrance to the school grounds or to the school bus stop nearest the entrance to the residence of such children by the nearest practical routes which are usable for walking or riding. Disease shall be established by the certificate of a reputable practicing physician in accordance with regulations adopted by the Board of Education.

J. Subject to guidelines established by the Department of Education, any student who is absent from school due to his mental or behavioral health shall be granted an excused absence.

K. Subject to guidelines established by the Department of Education, each school board (i) shall permit one school day-long excused absence per school year for any middle school or high school student in the local school division who is absent from school to engage in a civic event and (ii) may permit additional excused absences for such students who are absent for such purpose. Local school boards may require that the student provide advance notice of the intended absence and require that the student provide documentation of participation in a civic event.

The division superintendent may seek immediate compliance with the compulsory school attendance law as set forth in § [22.1-254](#) after a reasonable effort to seek the student's attendance in the summer school program or after-school session has failed, including direct notification of the parents of such student of the attendance requirement and failure of the parents to secure the student's attendance, when:

1. A student is required to take a special program of prevention, intervention, or remediation in a public summer school program or to participate in another form of remediation as provided in subsection C of § [22.1-253.13:1](#) and in accordance with clause (ii) of subsection A of § [22.1-254](#); and
2. The division superintendent determines that remediation of the student's poor academic performance, passage of the Standards of Learning Assessment in grades three through eight, or promotion is related directly to the student's attendance in the summer school program or participation in another form of remediation.

§ 22.1-254.02. Students transferring from a public school.

When a student transfers from a school division, such school division to the extent practicable, shall obtain written or electronic documentation of such transfer, in order to make an informed status classification of such student in an information management system prescribed by the Board of Education. 2008, c. [422](#).

§ 22.1-254.1. Declaration of policy; requirements for home instruction of children.

A. When the requirements of this section have been satisfied, instruction of children by their parents is an acceptable alternative form of education under the policy of the Commonwealth of Virginia. Any parent of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday may elect to provide home instruction in lieu of school attendance if he (i) holds a high school diploma; (ii) is a teacher of qualifications prescribed by the Board of Education; (iii) provides the child with a program of study or curriculum which may be delivered through a correspondence course or distance learning program or in any other manner; or (iv) provides evidence that he is able to provide an adequate education for the child.

B. Any parent who elects to provide home instruction in lieu of school attendance shall annually notify the division superintendent in August of his intention to so instruct the child and provide a description of the curriculum, limited to a list of subjects to be studied during the coming year, and evidence of having met one of the criteria for providing home instruction as required by subsection A. Effective July 1, 2000, parents electing to provide home instruction shall provide such annual notice no later than August 15. Any parent who moves into a school division or begins home instruction after the school year has begun shall notify the division superintendent of his intention to provide home instruction as soon as practicable and shall thereafter comply with the requirements of this section within 30 days of such notice. The division superintendent shall notify the Superintendent of Public Instruction of the number of students in the school division receiving home instruction.

C. The parent who elects to provide home instruction shall provide the division superintendent by August 1 following the school year in which the child has received home instruction with either (i) evidence that the child has attained a composite score in or above the fourth stanine on any nationally normed standardized achievement test, or an equivalent score on the ACT, SAT, or PSAT test or (ii) an evaluation or assessment which the division superintendent determines to indicate that the child is achieving an adequate level of educational growth and progress, including but not limited to (a) an evaluation letter from a person licensed to teach in any state, or a person with a master's degree or higher in an academic discipline, having knowledge of the child's academic progress, stating that the child is achieving an adequate level of educational growth and progress or (b) a report card or transcript from an institution of higher education, college distance learning program, or home-education correspondence school.

In the event that evidence of progress as required in this subsection is not provided by the parent, the home instruction program for that child may be placed on probation for one year. Parents shall file with the division superintendent evidence of their ability to provide an adequate education for their child in

compliance with subsection A and a remediation plan for the probationary year which indicates their program is designed to address any educational deficiency. Upon acceptance of such evidence and plan by the division superintendent, the home instruction may continue for one probationary year. If the remediation plan and evidence are not accepted or the required evidence of progress is not provided by August 1 following the probationary year, home instruction shall cease and the parent shall make other arrangements for the education of the child which comply with § [22.1-254](#). The requirements of subsection C shall not apply to children who are under the age of six as of September 30 of the school year.

D. Nothing in this section shall prohibit a pupil and his parents from obtaining an excuse from school attendance by reason of bona fide religious training or belief pursuant to subdivision B 1 of § [22.1-254](#).

E. Any party aggrieved by a decision of the division superintendent may appeal his decision within 30 days to an independent hearing officer. The independent hearing officer shall be chosen from the list maintained by the Executive Secretary of the Supreme Court for hearing appeals of the placements of children with disabilities. The costs of the hearing shall be apportioned among the parties by the hearing officer in a manner consistent with his findings.

F. School boards shall make Advanced Placement (AP), Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT), and PreACT examinations available to students receiving home instruction pursuant to this section. School boards shall adopt written policies that specify the date by which such students shall register to participate in such examinations. School boards shall notify such students and their parents of such registration deadline and the availability of financial assistance to low-income and needy students to take such examinations.

G. No division superintendent or local school board shall disclose to the Department of Education or any other person or entity outside of the local school division information that is provided by a parent or student to satisfy the requirements of this section or subdivision B 1 of § [22.1-254](#). However, a division superintendent or local school board may disclose, with the written consent of a student's parent, such information to the extent provided by the parent's consent. Nothing in this subsection shall prohibit a division superintendent from notifying the Superintendent of Public Instruction of the number of students in the school division receiving home instruction as required by subsection B.

5. Persons 16 through 18 years of age who are housed in adult correctional facilities and who are actively pursuing a passing score on a high school equivalency examination approved by the Board of Education but who are not enrolled in an individual student alternative education plan pursuant to subsection E of § [22.1-254](#);

7. Persons required by court order to participate in the testing program.

Under no circumstances shall persons under the age of 16 be eligible for the testing program.

B. From such funds as may be appropriated for this purpose, local school boards shall implement programs of preparation and testing for high school equivalency consistent with guidelines to be developed by the Board of Education. Such guidelines shall include a provision that allows preparatory and testing programs to be offered jointly by two or more school boards.

§ 22.1-258. Appointment of attendance officers; notification when pupil fails to report to school; plan; conference; court proceedings.

Every school board shall have power to appoint one or more attendance officers, who shall be charged with the enforcement of the provisions of this article. Where no attendance officer is appointed by the school board, the division superintendent or his designee shall act as attendance officer.

Whenever any pupil fails to report to school on a regularly scheduled school day and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, a reasonable effort to notify by telephone the parent to obtain an explanation for the pupil's absence shall be made by either the school principal or his designee, the attendance officer, other school personnel, or volunteers organized by the school administration for this purpose. Any such volunteers shall not be liable for any civil damages for any acts or omissions resulting from making such reasonable efforts to notify parents and obtain such explanation when such acts or omissions are taken in good faith, unless such acts or omissions were the result of gross negligence or willful misconduct. This subsection shall not be construed to limit, withdraw, or overturn any defense or immunity already existing in statutory or common law or to affect any claim occurring prior to the effective date of this law. School divisions are encouraged to use noninstructional personnel for this notice.

Whenever any pupil fails to report to school for a total of five scheduled school days for the school year and no indication has been received by school personnel that the pupil's parent is aware of and supports the pupil's absence, and a reasonable effort to notify the parent has failed, the school principal or his designee shall make a reasonable effort to ensure that direct contact is made with the parent in person, through telephone conversation, or through the use of other communications devices to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The school principal or his designee, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance.

If the pupil is absent for more than one additional day after direct contact with the pupil's parent, and school personnel have received no indication that the pupil's parent is aware of and supports the pupil's absence, the school principal or his designee shall schedule a conference with the pupil, his parent, and school personnel. Such conference may include the attendance officer and other community service providers to resolve issues related to the pupil's nonattendance. The conference shall be held no later than 10 school days after the tenth absence of the pupil, regardless of whether his parent approves of the conference. The conference team shall monitor the pupil's attendance and may meet again as necessary to address concerns and plan additional interventions if attendance does not improve. In circumstances in which the parent is intentionally noncompliant with compulsory attendance requirements or the pupil is resisting parental efforts to comply with compulsory attendance requirements, the principal or his designee shall make a referral to the attendance officer. The attendance officer shall schedule a conference with the pupil and his parent within 10 school days and may (i) file a complaint with the juvenile and domestic relations district court alleging the pupil is a child in need of supervision as defined in § [16.1-228](#) or (ii) institute proceedings against the parent pursuant to § [18.2-371](#) or [22.1-262](#). In filing a complaint against the student, the attendance officer shall provide

written documentation of the efforts to comply with the provisions of this section. In the event that both parents have been awarded joint physical custody pursuant to § [20-124.2](#) and the school has received notice of such order, both parents shall be notified at the last known addresses of the parents.

An attendance officer, or a division superintendent or his designee when acting as an attendance officer pursuant to § [22.1-258](#), may complete, sign, and file with the intake officer of the juvenile and domestic relations district court, on forms approved by the Supreme Court of Virginia, a petition for a violation of a school attendance order entered by the juvenile and domestic relations district court pursuant to § [16.1-278.5](#) in response to the filing of a petition alleging the pupil is a child in need of supervision as defined in § [16.1-228](#).

Nothing in this section shall be construed to limit in any way the authority of any attendance officer or division superintendent to seek immediate compliance with the compulsory school attendance law as set forth in this article.

Attendance officers, other school personnel or volunteers organized by the school administration for this purpose shall be immune from any civil or criminal liability in connection with the notice to parents of a pupil's absence or failure to give such notice as required by this section.

§ 22.1-259. Teachers to keep daily attendance records.

Every teacher in every school in the Commonwealth shall keep an accurate daily record of attendance of all children in accordance with regulations prescribed by the Board of Education. Such record shall, at all times, be open to any officer authorized to enforce the provisions of this article who may inspect or copy the same and shall be admissible in evidence in any prosecution for a violation of this article as prima facie evidence of the facts stated therein.

The attendance officer or the division superintendent or his designee shall check the reports submitted pursuant to subsection A of § [22.1-260](#) with reports from the State Registrar of Vital Records and Health Statistics. From these reports and from any other reliable source the attendance officer or the division superintendent or his designee shall, within five days after receiving all reports submitted pursuant to subsection A of § [22.1-260](#), make a list of the names of children who are not enrolled in any school and who are not exempt from school attendance. It shall be the duty of the attendance officer, on behalf of the local school board, to investigate all cases of nonenrollment and, when no valid reason is found therefor, to notify the parent, guardian or other person having control of the child to require the attendance of such child at the school within three days from the date of such notice.

A. The Board of Education shall promulgate regulations for the voluntary participation of school divisions in programs to allow each school-age child to receive educational services at another public school, either in the division in which the child resides or in another division, as selected by the child's parent or guardian. Each public school in a school division participating in an alternative attendance program shall be eligible to participate in an alternative attendance program unless exceptional circumstances, as defined by the Board of Education, render the participation of the school contrary to public interest.

B. The Board's regulations shall be promulgated under the provisions of the Administrative Process Act (§ [2.2-4000](#) et seq.) and shall include, but shall not be limited to, provisions which address the following: the required acknowledgement by a local school of its decision to participate in an alternative

attendance program, including school board resolutions for intradistrict programs and agreements between divisions participating in interdistrict programs; the equitable allocation of places to accommodate students when there are insufficient places to serve such students; transportation and school bus scheduling needs within the local school divisions; school enrollment capacity, class size, pupil-teacher ratios, and staffing levels for related instructional, administrative, and supervisory personnel as required by the Standards of Quality and the Standards for Accrediting Public Schools; the adequacy of school resources to accommodate an increase in student enrollment, grade level designations, and course offerings; the enrollment of students whose education is subject to an individualized education plan (I.E.P.) as required under P.L. 94-142 as amended; the preservation of the uniqueness of schools established for particular educational purposes; the fiscal impact of accommodating parental preference on local school divisions; in the case of interdistrict attendance programs, the establishment of tuition charges authorized by § [22.1-5](#); and the need to maintain racial balance in the public schools. The regulations shall also establish the value of educational services, based on consideration of per pupil expenditures and state aid in the affected school. Any local school board which has been ordered by a state or federal court to achieve racial balance in its public schools shall maintain such racial balance when accommodating preference in the assignment of children to a school.

C. From such funds as may be appropriated, the Board shall provide for the independent evaluation of this alternative attendance program and shall submit the evaluation to the Governor, the Senate, and the House of Delegates by January 1 of each year.

Article 2 - Health Provisions

§ 22.1-270. Preschool physical examinations.

A. No pupil shall be admitted for the first time to any public kindergarten or elementary school in a school division unless such pupil shall furnish, prior to admission, (i) a report from a qualified licensed physician, or a licensed nurse practitioner or licensed physician assistant acting under the supervision of a licensed physician, of a comprehensive physical examination of a scope prescribed by the State Health Commissioner performed within the 12 months prior to the date such pupil first enters such public kindergarten or elementary school or (ii) records establishing that such pupil furnished such report upon prior admission to another school or school division and providing the information contained in such report.

If the pupil is a homeless child or youth as defined in subdivision A 7 of § [22.1-3](#), and for that reason cannot furnish the report or records required by (i) or (ii) of this subsection, and the person seeking to enroll the pupil furnishes to the school division an affidavit so stating and also indicating that, to the best of his knowledge, such pupil is in good health and free from any communicable or contagious disease, the school division shall immediately refer the student to the local school division liaison, as described in Subtitle VII-B of the federal McKinney-Vento Homeless Assistance Act, as amended (42

U.S.C. § 11431 et seq.) (the Act), who shall, as soon as practicable, assist in obtaining the necessary physical examination by the county or city health department or other clinic or physician's office and shall immediately admit the pupil to school, as required by such Act.

B. The physician, or licensed nurse practitioner or licensed physician assistant acting under the supervision of a licensed physician, making a report of a physical examination required by this section shall, at the end of such report, summarize the abnormal physical findings, if any, and shall specifically state what, if any, conditions are found that would identify the child as handicapped.

C. Such physical examination report shall be placed in the child's health record at the school and shall be made available for review by any employee or official of the State Department of Health or any local health department at the request of such employee or official.

D. Such physical examination shall not be required of any child whose parent shall object on religious grounds and who shows no visual evidence of sickness, provided that such parent shall state in writing that, to the best of his knowledge, such child is in good health and free from any communicable or contagious disease.

E. The health departments of all of the counties and cities of the Commonwealth shall conduct such physical examinations for medically indigent children without charge upon request and may provide such examinations to others on such uniform basis as such departments may establish.

F. Parents of entering students shall complete a health information form which shall be distributed by the local school divisions. Such forms shall be developed and provided jointly by the Department of Education and Department of Health, or developed and provided by the school division and approved by the Superintendent of Public Instruction. Such forms shall be returnable within 15 days of receipt unless reasonable extensions have been granted by the superintendent or his designee. Upon failure of the parent to complete such form within the extended time, the superintendent may send to the parent written notice of the date he intends to exclude the child from school; however, no child who is a homeless child or youth as defined in subdivision A 7 of § [22.1-3](#) shall be excluded from school for such failure to complete such form.

§ 22.1-271.2. Immunization requirements.

A. No student shall be admitted by a school unless at the time of admission the student or his parent submits documentary proof of immunization to the admitting official of the school or unless the student is exempted from immunization pursuant to subsection C or is a homeless child or youth as defined in subdivision A 7 of § [22.1-3](#). If a student does not have documentary proof of immunization, the school shall notify the student or his parent (i) that it has no documentary proof of immunization for the student; (ii) that it may not admit the student without proof unless the student is exempted pursuant to subsection C, including any homeless child or youth as defined in subdivision A 7 of § [22.1-3](#); (iii) that the student may be immunized and receive certification by a licensed physician, licensed nurse practitioner, registered nurse or an employee of a local health department; and (iv) how to contact the local health department to learn where and when it performs these services. Neither this Commonwealth nor any school or admitting official shall be liable in damages to any person for complying with this section.

Any physician, nurse practitioner, registered nurse or local health department employee performing immunizations shall provide to any person who has been immunized or to his parent, upon request, documentary proof of immunizations conforming with the requirements of this section.

B. Any student whose immunizations are incomplete may be admitted conditionally if that student provides documentary proof at the time of enrollment of having received at least one dose of the required immunizations accompanied by a schedule for completion of the required doses within 90 cal-

endar days. If the student requires more than two doses of hepatitis B vaccine, the conditional enrollment period shall be 180 calendar days.

The immunization record of each student admitted conditionally shall be reviewed periodically until the required immunizations have been received.

Any student admitted conditionally and who fails to comply with his schedule for completion of the required immunizations shall be excluded from school until his immunizations are resumed.

C. No certificate of immunization shall be required for the admission to school of any student if (i) the student or his parent submits an affidavit to the admitting official stating that the administration of immunizing agents conflicts with the student's religious tenets or practices; or (ii) the school has written certification from a licensed physician, licensed nurse practitioner, or local health department that one or more of the required immunizations may be detrimental to the student's health, indicating the specific nature and probable duration of the medical condition or circumstance that contraindicates immunization.

However, if a student is a homeless child or youth as defined in subdivision A 7 of § [22.1-3](#) and (a) does not have documentary proof of necessary immunizations or has incomplete immunizations and (b) is not exempted from immunization pursuant to clauses (i) or (ii) of this subsection, the school division shall immediately admit such student and shall immediately refer the student to the local school division liaison, as described in the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001, as amended (42 U.S.C. § 11431 et seq.)(the Act), who shall assist in obtaining the documentary proof of, or completing, immunization and other services required by such Act.

D. The admitting official of a school shall exclude from the school any student for whom he does not have documentary proof of immunization or notice of exemption pursuant to subsection C, including notice that such student is a homeless child or youth as defined in subdivision A 7 of § [22.1-3](#).

E. Every school shall record each student's immunizations on the school immunization record. The school immunization record shall be a standardized form provided by the State Department of Health, which shall be a part of the mandatory permanent student record. Such record shall be open to inspection by officials of the State Department of Health and the local health departments.

The school immunization record shall be transferred by the school whenever the school transfers any student's permanent academic or scholastic records.

Within 30 calendar days after the beginning of each school year or entrance of a student, each admitting official shall file a report with the local health department. The report shall be filed on forms prepared by the State Department of Health and shall state the number of students admitted to school with documentary proof of immunization, the number of students who have been admitted with a medical or religious exemption and the number of students who have been conditionally admitted, including those students who are homeless children or youths as defined in subdivision A 7 of § [22.1-3](#).

F. The requirement for Haemophilus Influenzae Type b immunization as provided in § [32.1-46](#) shall not apply to any child admitted to any grade level, kindergarten through grade 12.

G. The Board of Health shall promulgate rules and regulations for the implementation of this section in congruence with rules and regulations of the Board of Health promulgated under § [32.1-46](#) and in cooperation with the Board of Education.

§ 22.1-271.3. Guidelines for school attendance for children infected with human immunodeficiency virus; school personnel training required; notification of school personnel in certain cases.

A. The Board of Education, in cooperation with the Board of Health, shall develop, and revise as necessary, model guidelines for school attendance for children infected with human immunodeficiency virus. The first such guidelines shall be completed by December 1, 1989. The Board shall distribute copies of these guidelines to each division superintendent and every school board member in the Commonwealth immediately following completion.

B. Each school board shall, by July 1, 1990, adopt guidelines for school attendance for children with human immunodeficiency virus. Such guidelines shall be consistent with the model guidelines for such school attendance developed by the Board of Education.

C. Every school board shall ensure that all school personnel having direct contact with students receive appropriate training in the etiology, prevention, transmission modes, and effects of blood-borne pathogens, specifically, hepatitis B and human immunodeficiency viruses or any other infections that are the subject of regulations promulgated by the Safety and Health Codes Board of the Virginia Occupational Safety and Health Program within the Department of Labor and Industry.

D. Upon notification by a school employee who believes he has been involved in a possible exposure-prone incident which may have exposed the employee to the blood or body fluids of a student, the division superintendent shall contact the local health director who, upon immediate investigation of the incident, shall determine if a potentially harmful exposure has occurred and make recommendations, based upon all information available to him, regarding how the employee can reduce any risks from such exposure. The division superintendent shall share these recommendations with the school employee. Except as permitted by § [32.1-45.1](#), the division superintendent and the school employee shall not divulge any information provided by the local health director regarding such student. The information provided by the local health director shall be subject to any applicable confidentiality requirements set forth in Chapter 2 (§ [32.1-35](#) et seq.) of Title 32.1.

§ 22.1-277.04. Short-term suspension; procedures; readmission.

A pupil may be suspended for not more than ten school days by either the school principal, any assistant principal, or, in their absence, any teacher. The principal, assistant principal, or teacher may suspend the pupil after giving the pupil oral or written notice of the charges against him and, if he denies them, an explanation of the facts as known to school personnel and an opportunity to present his version of what occurred. In the case of any pupil whose presence poses a continuing danger to persons or property, or whose presence is an ongoing threat of disruption, the pupil may be removed from school immediately and the notice, explanation of facts, and opportunity to present his version shall be given as soon as practicable thereafter.

Upon suspension of any pupil, the principal, assistant principal, or teacher responsible for such suspension shall report the facts of the case in writing to the division superintendent or his designee and the parent of the pupil suspended. The division superintendent or his designee shall review forthwith the action taken by the principal, assistant principal, or teacher upon a petition for such review by any party in interest and confirm or disapprove such action based on an examination of the record of the pupil's behavior.

The decision of the division superintendent or his designee may be appealed to the school board or a committee thereof in accordance with regulations of the school board; however, the decision of the division superintendent or his designee shall be final if so prescribed by school board regulations.

The school board shall require that any oral or written notice to the parent of a student who is suspended from school attendance for not more than ten days include notification of the length of the

suspension, information regarding the availability of community-based educational programs, alternative education programs or other educational options, and of the student's right to return to regular school attendance upon the expiration of the suspension. The costs of any community-based educational program, or alternative education program or educational option, which is not a part of the educational program offered by the school division, shall be borne by the parent of the student.

School boards shall adopt policies and procedures to ensure that suspended students are able to access and complete graded work during and after the suspension.

§ 22.1-277.05. Long-term suspensions; procedures; readmission.

A. A pupil may be suspended from attendance at school for 11 to 45 school days after providing written notice to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the school board, or a committee thereof, or the superintendent or his designee, in accordance with regulations of the school board. If the regulations provide for a hearing by the superintendent or his designee, the regulations shall also provide for an appeal of the decision to the full school board. Such appeal shall be decided by the school board within 30 days.

If the regulations provide for a hearing by a committee of the school board, the regulations shall also provide that such committee may confirm or disapprove the suspension of a student. Any such committee of the school board shall be composed of at least three members. If the committee's decision is not unanimous, the pupil or his parent may appeal the committee's decision to the full school board. Such appeal shall be decided by the school board within 30 days.

B. A school board shall include in the written notice of a suspension for 11 to 45 school days required by this section notification of the length of the suspension. In the case of a suspension for 11 to 45 school days, such written notice shall provide information concerning the availability of community-based educational, alternative education, or intervention programs. Such notice shall also state that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by the school board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension shall be borne by the parent of the student.

Nothing in this section shall be construed to prohibit the school board from permitting or requiring students suspended pursuant to this section to attend an alternative education program provided by the school board for the term of such suspension.

School boards shall adopt policies and procedures to ensure that suspended students are able to access and complete graded work during and after the suspension.

C. Notwithstanding the provisions of subsections A and B, a long-term suspension may extend beyond a 45-school-day period but shall not exceed 364 calendar days if (i) the offense is one described

in § [22.1-277.07](#) or [22.1-277.08](#) or involves serious bodily injury or (ii) the school board or division superintendent or his designee finds that aggravating circumstances exist, as defined by the Department. Such definition shall include a consideration of a student's disciplinary history.

1998, c. [806](#), § 22.1-277.03; 2001, cc. [688](#), [820](#); 2018, c. [491](#); 2020, c. [337](#).

§ 22.1-277.06. Expulsions; procedures; readmission.

A. Pupils may be expelled from attendance at school after written notice to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the school board or a committee thereof in accordance with regulations of the school board.

If the regulations provide for a hearing by a committee of the school board, the regulations shall also provide that such committee may confirm or disapprove the expulsion of a student. Any such committee of the school board shall be composed of at least three members. If the committee's decision is not unanimous, the pupil or his parent may appeal the committee's decision to the full school board. Such appeal shall be decided by the school board within 30 days.

The regulations shall also provide for subsequent confirmation or disapproval of the proposed expulsion by the school board, or a committee thereof, as may be provided in regulation, regardless of whether the pupil exercised the right to a hearing.

B. The written notice required by this section shall include notification of the length of the expulsion and shall provide information to the parent of the student concerning the availability of community-based educational, training, and intervention programs. Such notice shall state further whether or not the student is eligible to return to regular school attendance, or to attend an appropriate alternative education program approved by the school board, or an adult education program offered by the school division, during or upon the expiration of the expulsion, and the terms or conditions of such readmission. The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his expulsion shall be borne by the parent of the student.

Nothing in this section shall be construed to prohibit the school board from permitting or requiring students expelled pursuant to this section to attend an alternative education program provided by the school board for the term of such expulsion.

If the school board determines that the student is ineligible to return to regular school attendance or to attend during the expulsion an alternative education program or an adult education program in the school division, the written notice shall also advise the parent of such student that the student may petition the school board for readmission to be effective one calendar year from the date of his expulsion, and of the conditions, if any, under which readmission may be granted.

School boards shall establish, by regulation, a schedule pursuant to which such students may apply and reapply for readmission to school. Such schedule shall be designed to ensure that any initial petition for readmission will be reviewed by the school board or a committee thereof, or the division

superintendent, and, if granted, would enable the student to resume school attendance one calendar year from the date of the expulsion. If the division superintendent or a committee of the school board denies such petition, the student may petition the school board for review of such denial.

C. Recommendations for expulsion for actions other than those specified in §§ [22.1-277.07](#) and [22.1-277.08](#) shall be based on consideration of the following factors:

1. The nature and seriousness of the violation;
2. The degree of danger to the school community;
3. The student's disciplinary history, including the seriousness and number of previous infractions;
4. The appropriateness and availability of an alternative education placement or program;
5. The student's age and grade level;
6. The results of any mental health, substance abuse, or special education assessments;
7. The student's attendance and academic records; and
8. Such other matters as he deems appropriate.

No decision to expel a student shall be reversed on the grounds that such factors were not considered.

Nothing in this subsection shall be deemed to preclude a school board from considering any of these factors as "special circumstances" for purposes of §§ [22.1-277.07](#) and [22.1-277.08](#).

1998, c. [806](#), § 22.1-277.03; 2001, cc. [688](#), [820](#); 2005, c. [96](#).

A school administrator, pursuant to school board policy, or a school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. A school board may promulgate guidelines for determining what constitutes special circumstances. In addition, a school board may, by regulation, authorize the division superintendent or his designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in accordance with the procedures set forth in this article. Nothing in this

section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

B. The Board of Education is designated as the state education agency to carry out the provisions of the federal Improving America's Schools Act of 1994 and shall administer the funds to be appropriated to the Commonwealth under this act.

C. Each school board shall revise its standards of student conduct no later than three months after the date on which this act becomes effective. Local school boards requesting moneys apportioned to the Commonwealth through the federal Improving America's Schools Act of 1994 shall submit to the Department of Education an application requesting such assistance. Applications for assistance shall include:

1. Documentation that the local school board has adopted and implemented student conduct policies in compliance with this section; and
2. A description of the circumstances pertaining to expulsions imposed under this section, including (i) the schools from which students were expelled under this section, (ii) the number of students expelled from each such school in the school division during the school year, and (iii) the types of firearms involved in the expulsions.

D. No school operating a Junior Reserve Officers Training Corps (JROTC) program shall prohibit the JROTC program from conducting marksmanship training when such training is a normal element of such programs. Such programs may include training in the use of pneumatic guns. The administration of a school operating a JROTC program shall cooperate with the JROTC staff in implementing such marksmanship training.

E. As used in this section:

"Destructive device" does not include any device that is not designed or redesigned for use as a weapon, or any device originally designed for use as a weapon and that is redesigned for use as a signaling, pyrotechnic, line-throwing, safety, or other similar device, nor shall it include any antique firearm as defined in § [18.2-308.2:2](#).

"Firearm" means any weapon, including a starter gun, that will, or is designed or may readily be converted to, expel single or multiple projectiles by the action of an explosion of a combustible material or the frame or receiver of any such weapon. "Firearm" does not include any pneumatic gun, as defined in subsection E of § [15.2-915.4](#).

"One year" means 365 calendar days as required in federal regulations.

"School property" means any real property owned or leased by the school board or any vehicle owned or leased by the school board or operated by or on behalf of the school board.

F. The exemptions set out in §§ [18.2-308](#) and [18.2-308.016](#) regarding concealed weapons shall apply, mutatis mutandis, to the provisions of this section. The provisions of this section shall not apply to persons who possess such firearm or firearms or pneumatic guns as a part of the curriculum or other programs sponsored by the schools in the school division or any organization permitted by the school to use its premises or to any law-enforcement officer while engaged in his duties as such.

G. This section shall not be construed to diminish the authority of the Board of Education or the Governor concerning decisions on whether, or the extent to which, Virginia shall participate in the federal Improving America's Schools Act of 1994, or to diminish the Governor's authority to coordinate and provide policy direction on official communications between the Commonwealth and the United States government.

§ 22.1-277.08. Expulsion of students for certain drug offenses.

A. School boards shall expel from school attendance any student whom such school board has determined, in accordance with the procedures set forth in this article, to have brought a controlled substance, imitation controlled substance, or marijuana as defined in § [18.2-247](#) onto school property or to a school-sponsored activity. A school administrator, pursuant to school board policy, or a school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. A school board may, by regulation, authorize the division superintendent or his designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in

accordance with the procedures set forth in this article. Nothing in this section shall be construed to require a student's expulsion regardless of the facts of the particular situation.

B. Each school board shall revise its standards of student conduct to incorporate the requirements of this section no later than three months after the date on which this act becomes effective.

§ 22.1-277.2. Authority to exclude students under certain circumstances; petition for readmission; alternative education program.

A. A student, who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in this Commonwealth or in another state or for whom admission has been withdrawn by a private school in this Commonwealth or in another state may be excluded from attendance by a local school board in Virginia, regardless of whether such student has been admitted to another school division or private school in the Commonwealth or in another state subsequent to such expulsion, suspension, or withdrawal of admission upon a finding that the student presents a danger to the other students or staff of the school division after (i) written notice to the student and his parent that the student may be subject to exclusion, the reasons therefor, and, in the event of such exclusion, of the right to appeal the decision at a hearing before the school board or a committee thereof; and (ii) a review of the case has been conducted by the division superintendent or his designee and exclusion has been recommended.

In the case of a suspension of more than thirty days, the term of the exclusion may not exceed the duration of such suspension.

In excluding any such expelled student from school attendance, the local school board may accept or waive any or all of any conditions for readmission imposed upon such student by the expelling school board pursuant to § [22.1-277.06](#). The excluding school board shall not impose additional conditions for readmission to school.

If the decision by the superintendent or his designee to exclude has been appealed to a committee of the school board, the student or his parent shall be provided written notice of the right to appeal the decision to the full board, which shall, within thirty days following any such hearing, in the case of an expulsion or withdrawal of admission and, in the case of a suspension of more than thirty days, within fifteen days following any such hearing, notify in writing the student or his parent of its decision.

B. In lieu of the procedures established in subsection A, a school board may adopt regulations providing that a student may be excluded from attendance after (i) written notice to the student and his parent that the student may be subject to exclusion, including the reasons therefor, and notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the division superintendent or his designee regarding such exclusion; and (ii) a hearing of the case has been conducted

by the division superintendent or his designee, and the decision has been to exclude the student from attendance. The decision of the superintendent or his designee to exclude shall be final unless altered by the school board, upon timely written petition, as established in regulation, of the student so excluded or his parent, for a review of the record by the school board.

C. Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period shall be established by the school board, committee thereof, or superintendent or his designee, as the case may be, at the relevant hearing, the student may re-petition the school board for admission. If the petition for admission is rejected, the school board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may re-petition the school board for admission.

D. The school board may permit students excluded pursuant to this section to attend an alternative education program provided by the school board for the term of such exclusion.

§ 22.1-277.2:1. Disciplinary authority of school boards under certain circumstances; alternative education program.

A. A school board may, in accordance with the procedures set forth in this article, require any student who has been (i) charged with an offense relating to the Commonwealth's laws, or with a violation of school board policies, on weapons, alcohol or drugs, or intentional injury to another person, or with an offense that is required to be disclosed to the superintendent of the school division pursuant to subsection G of § [16.1-260](#); (ii) found guilty or not innocent of an offense relating to the Commonwealth's laws on weapons, alcohol, or drugs, or of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the superintendent of the school division pursuant to subsection G of § [16.1-260](#); (iii) found to have committed a serious offense or repeated offenses in violation of school board policies; (iv) suspended pursuant to § [22.1-277.05](#); or (v) expelled pursuant to § [22.1-277.06](#), [22.1-277.07](#), or [22.1-277.08](#), or subsection C of § [22.1-277](#), to attend an alternative education program. A school board may require such student to attend such programs regardless of where the crime occurred. School boards may require any student who has been found, in accordance with the procedures set forth in this article, to have been in possession of, or under the influence of, drugs or alcohol on a school bus, on school property, or at a school-sponsored activity in violation of school board policies, to undergo evaluation for drug or alcohol abuse, or both, and, if recommended by the evaluator and with the consent of the student's parent, to participate in a treatment program.

As used in this section, the term "charged" means that a petition or warrant has been filed or is pending against a pupil.

B. A school board may adopt regulations authorizing the division superintendent or his designee to require students to attend an alternative education program consistent with the provisions of subsection A after (i) written notice to the student and his parent that the student will be required to attend

an alternative education program and (ii) notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the division superintendent or his designee regarding such placement. The decision of the superintendent or his designee regarding such alternative education placement shall be final unless altered by the school board, upon timely written petition, as established in regulation, by the student or his parent, for a review of the record by the school board.

C. A school board may adopt regulations authorizing the principal or his designee to impose a short-term suspension, pursuant to § [22.1-277.04](#), upon a student who has been charged with an offense involving intentional injury enumerated in subsection G of § [16.1-260](#), to another student in the same school pending a decision as to whether to require that such student attend an alternative education program.

§ 22.1-277.2:2. Alternative education program data.

The Department of Education shall annually collect from each school board and publish on its website data on alternative education programs for students who have been suspended, expelled, or otherwise precluded from attendance at school. Such data shall (i) be published in a manner that protects the identities of individual students; (ii) be disaggregated by local school division and by student race, ethnicity, gender, and disability; and (iii) include:

1. The number of students enrolled in alternative education programs pursuant to each of the five clauses set forth in subsection A of § [22.1-277.2:1](#);

4. The average length of enrollment in an alternative education program per program during each school year;
5. The number of students who transition within the same school year from an alternative education program back into the school at which they were enrolled immediately preceding enrollment in the alternative education program; and
6. Relevant student achievement data, as determined by the Department of Education.

§ 22.1-279.1. Corporal punishment prohibited.

A. No teacher, principal or other person employed by a school board or employed in a school operated by the Commonwealth shall subject a student to corporal punishment. This prohibition of corporal punishment shall not be deemed to prevent (i) the use of incidental, minor or reasonable physical contact or other actions designed to maintain order and control; (ii) the use of reasonable and necessary force to quell a disturbance or remove a student from the scene of a disturbance which threatens physical injury to persons or damage to property; (iii) the use of reasonable and necessary force to prevent a student from inflicting physical harm on himself; (iv) the use of reasonable and necessary force for self-defense or the defense of others; or (v) the use of reasonable and necessary force to obtain possession of weapons or other dangerous objects or controlled substances or paraphernalia which are upon the person of the student or within his control.

B. In determining whether a person was acting within the exceptions provided in this section, due deference shall be given to reasonable judgments at the time of the event which were made by a teacher, principal or other person employed by a school board or employed in a school operated by the Commonwealth.

C. For the purposes of this section, "corporal punishment" means the infliction of, or causing the infliction of, physical pain on a student as a means of discipline.

This definition shall not include physical pain, injury or discomfort caused by the use of incidental, minor or reasonable physical contact or other actions designed to maintain order and control as permitted in subdivision (i) of subsection A of this section or the use of reasonable and necessary force as permitted by subdivisions (ii), (iii), (iv), and (v) of subsection A of this section, or by participation in practice or competition in an interscholastic sport, or participation in physical education or an extra-curricular activity.

§ 22.1-279.1:1. The use of seclusion and restraint in public schools; Board of Education regulations.

The Board shall adopt regulations on the use of seclusion and restraint in public elementary and secondary schools in the Commonwealth that (i) are consistent with its Guidelines for the Development of Policies and Procedures for Managing Student Behavior in Emergency Situations and the Fifteen Principles contained in the U.S. Department of Education's Restraint and Seclusion: Resource Document; (ii) include definitions, criteria for use, restrictions for use, training requirements, notification requirements, reporting requirements, and follow-up requirements; and (iii) address distinctions, including distinctions in emotional and physical development, between (a) the general student population and the special education student population and (b) elementary school students and secondary school students. The Board shall specifically (1) identify and prohibit the use of any method of restraint or

seclusion that it determines poses a significant danger to the student and (2) establish safety standards for seclusion.

§ 22.1-279.2. Repealed.

Repealed by Acts 1995, c. [533](#).

§ 22.1-279.3. Parental responsibility and involvement requirements.

A. Each parent of a student enrolled in a public school has a duty to assist the school in enforcing the standards of student conduct and compulsory school attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property, and supportive of individual rights.

B. A school board shall provide opportunities for parental and community involvement in every school in the school division.

C. Within one calendar month of the opening of school, each school board shall, simultaneously with any other materials customarily distributed at that time, send to the parents of each enrolled student (i) a notice of the requirements of this section; (ii) a copy of the school board's standards of student conduct; and (iii) a copy of the compulsory school attendance law. These materials shall include a notice to the parents that by signing the statement of receipt, parents shall not be deemed to waive, but to expressly reserve, their rights protected by the constitutions or laws of the United States or the Commonwealth and that a parent shall have the right to express disagreement with a school's or school division's policies or decisions.

Each parent of a student shall sign and return to the school in which the student is enrolled a statement acknowledging the receipt of the school board's standards of student conduct, the notice of the requirements of this section, and the compulsory school attendance law. Each school shall maintain records of such signed statements.

D. The school principal may request the student's parent or parents, if both parents have legal and physical custody of such student, to meet with the principal or his designee to review the school board's standards of student conduct and the parent's or parents' responsibility to participate with the school in disciplining the student and maintaining order, to ensure the student's compliance with compulsory school attendance law, and to discuss improvement of the child's behavior, school attendance, and educational progress.

E. In accordance with the due process procedures set forth in this article and the guidelines required by § [22.1-279.6](#), the school principal may notify the parents of any student who violates a school board policy or the compulsory school attendance requirements when such violation could result in the student's suspension or the filing of a court petition, whether or not the school administration has imposed such disciplinary action or filed a petition. The notice shall state (i) the date and particulars of the violation; (ii) the obligation of the parent to take actions to assist the school in improving the student's behavior and ensuring compulsory school attendance compliance; (iii) that, if the student is

suspended, the parent may be required to accompany the student to meet with school officials; and (iv) that a petition with the juvenile and domestic relations court may be filed under certain circumstances to declare the student a child in need of supervision.

F. No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.

G. Upon the failure of a parent to comply with the provisions of this section, the school board may, by petition to the juvenile and domestic relations court, proceed against such parent for willful and unreasonable refusal to participate in efforts to improve the student's behavior or school attendance, as follows:

1. If the court finds that the parent has willfully and unreasonably failed to meet, pursuant to a request of the principal as set forth in subsection D of this section, to review the school board's standards of student conduct and the parent's responsibility to assist the school in disciplining the student and maintaining order, and to discuss improvement of the child's behavior and educational progress, it may order the parent to so meet; or
2. If the court finds that a parent has willfully and unreasonably failed to accompany a suspended student to meet with school officials pursuant to subsection F, or upon the student's receiving a second suspension or being expelled, it may order the student or his parent, or both, to participate in such programs or such treatment, including, but not limited to, extended day programs, summer school, other educational programs and counseling, as the court deems appropriate to improve the student's behavior or school attendance. The order may also require participation in a parenting, counseling or a mentoring program, as appropriate or that the student or his parent, or both, shall be subject to such conditions and limitations as the court deems appropriate for the supervision, care, and rehabilitation of the student or his parent. In addition, the court may order the parent to pay a civil penalty not to exceed \$500.

H. The civil penalties established pursuant to this section shall be enforceable in the juvenile and domestic relations court in which the student's school is located and shall be paid into a fund maintained by the appropriate local governing body to support programs or treatments designed to improve the behavior of students as described in subdivision G 2. Upon the failure to pay the civil penalties imposed by this section, the attorney for the appropriate county, city, or town shall enforce the collection of such civil penalties.

I. All references in this section to the juvenile and domestic relations court shall be also deemed to mean any successor in interest of such court.

§ 22.1-279.3:1. Reports of certain acts to school authorities.

A. Reports shall be made to the division superintendent and to the principal or his designee on all incidents involving (i) the assault or assault and battery, without bodily injury, of any person on a school bus, on school property, or at a school-sponsored activity; (ii) the assault and battery that results in bodily injury, sexual assault, death, shooting, stabbing, cutting, or wounding of any person, abduction of any person as described in § [18.2-47](#) or [18.2-48](#), or stalking of any person as described in § [18.2-60.3](#), on a school bus, on school property, or at a school-sponsored activity; (iii) any conduct involving alcohol, marijuana, a controlled substance, imitation controlled substance, or an anabolic steroid on a school bus, on school property, or at a school-sponsored activity, including the theft or attempted theft of student prescription medications; (iv) any threats against school personnel while on a school bus, on school property or at a school-sponsored activity; (v) the illegal carrying of a firearm, as defined in § [22.1-277.07](#), onto school property; (vi) any illegal conduct involving firebombs, explosive materials or devices, or hoax explosive devices, as defined in § [18.2-85](#), or explosive or incendiary devices, as defined in § [18.2-433.1](#), or chemical bombs, as described in § [18.2-87.1](#), on a school bus, on school property, or at a school-sponsored activity; (vii) any threats or false threats to bomb, as described in § [18.2-83](#), made against school personnel or involving school property or school buses; or (viii) the arrest of any student for an incident occurring on a school bus, on school property, or at a school-sponsored activity, including the charge therefor.

B. Notwithstanding the provisions of Article 12 (§ [16.1-299](#) et seq.) of Chapter 11 of Title 16.1, local law-enforcement authorities shall report, and the principal or his designee and the division superintendent shall receive such reports, on offenses, wherever committed, by students enrolled at the school if the offense would be a felony if committed by an adult or would be a violation of the Drug Control Act (§ [54.1-3400](#) et seq.) and occurred on a school bus, on school property, or at a school-sponsored activity, or would be an adult misdemeanor involving any incidents described in clauses (i) through (viii) of subsection A, and whether the student is released to the custody of his parent or, if 18 years of age or more, is released on bond. As part of any report concerning an offense that would be an adult misdemeanor involving an incident described in clauses (i) through (viii) of subsection A, local law-enforcement authorities and attorneys for the Commonwealth shall be authorized to disclose information regarding terms of release from detention, court dates, and terms of any disposition orders entered by the court, to the superintendent of such student's school division, upon request by the superintendent, if, in the determination of the law-enforcement authority or attorney for the Commonwealth, such disclosure would not jeopardize the investigation or prosecution of the case. No disclosures shall be made pursuant to this section in violation of the confidentiality provisions of subsection A of § [16.1-300](#) or the record retention and redisclosure provisions of § [22.1-288.2](#). Further, any school superintendent who receives notification that a juvenile has committed an act that would be a crime if committed by an adult pursuant to subsection G of § [16.1-260](#) shall report such information to the principal of the school in which the juvenile is enrolled.

C. The principal or his designee shall submit a report of all incidents required to be reported pursuant to this section to the superintendent of the school division. The division superintendent shall annually

report all such incidents to the Department of Education for the purpose of recording the frequency of such incidents on forms that shall be provided by the Department and shall make such information available to the public.

In submitting reports of such incidents, principals and division superintendents shall accurately indicate any offenses, arrests, or charges as recorded by law-enforcement authorities and required to be reported by such authorities pursuant to subsection B.

A division superintendent who knowingly fails to comply or secure compliance with the reporting requirements of this subsection shall be subject to the sanctions authorized in § [22.1-65](#). A principal who knowingly fails to comply or secure compliance with the reporting requirements of this section shall be subject to sanctions prescribed by the local school board, which may include, but need not be limited to, demotion or dismissal.

The principal or his designee shall also notify the parent of any student involved in an incident required pursuant to this section to be reported, regardless of whether disciplinary action is taken against such student or the nature of the disciplinary action. Such notice shall relate to only the relevant student's involvement and shall not include information concerning other students.

Whenever any student commits any reportable incident as set forth in this section, such student shall be required to participate in such prevention and intervention activities as deemed appropriate by the superintendent or his designee. Prevention and intervention activities shall be identified in the local school division's drug and violence prevention plans developed pursuant to the federal Improving America's Schools Act of 1994 (Title IV – Safe and Drug-Free Schools and Communities Act).

D. Except as may otherwise be required by federal law, regulation, or jurisprudence, the principal shall immediately report to the local law-enforcement agency any act enumerated in clauses (ii) through (vii) of subsection A that may constitute a felony offense and may report to the local law-enforcement agency any incident described in subsection A. Nothing in this section shall require delinquency charges to be filed or prevent schools from dealing with school-based offenses through graduated sanctions or educational programming before a delinquency charge is filed with the juvenile court.

Further, except as may be prohibited by federal law, regulation, or jurisprudence, the principal shall also immediately report any act enumerated in clauses (ii) through (v) of subsection A that may constitute a criminal offense to the parents of any minor student who is the specific object of such act. Further, the principal shall report whether the incident has been reported to local law enforcement pursuant to this subsection and, if the incident is so reported, that the parents may contact local law enforcement for further information, if they so desire.

E. A statement providing a procedure and the purpose for the requirements of this section shall be included in school board policies required by § [22.1-253.13:7](#).

The Board of Education shall promulgate regulations to implement this section, including, but not limited to, establishing reporting dates and report formats.

F. For the purposes of this section, "parent" or "parents" means any parent, guardian or other person having control or charge of a child.

G. This section shall not be construed to diminish the authority of the Board of Education or to diminish the Governor's authority to coordinate and provide policy direction on official communications between the Commonwealth and the United States government.

§ 22.1-279.3:3. Alternative school discipline process.

A. A school board may establish an alternative school discipline process to provide the parties involved in an incident described in clause (i) of subsection A of § [22.1-279.3:1](#) the option to enter into a mutually agreed-upon process between the involved parties. Such process shall be designed to hold the student accountable for a noncriminal offense through a mutually agreed-upon standard.

B. If provided for in the process established by the school board, no principal shall report pursuant to subsection D of § [22.1-279.3:1](#) a party who successfully completes the alternative school discipline process. If the parties fail to agree to participate in the process or fail to successfully complete the alternative school discipline process, then the principal may report the incident to the local law-enforcement agency pursuant to subsection D of § [22.1-279.3:1](#).

§ 22.1-279.6. Board of Education guidelines and model policies for codes of student conduct; school board regulations.

A. The Board of Education shall establish guidelines and develop model policies for codes of student conduct to aid local school boards in the implementation of such policies. The guidelines and model policies shall include (i) criteria for the removal of a student from a class, the use of suspension, expulsion, and exclusion as disciplinary measures, the grounds for suspension and expulsion and exclusion, and the procedures to be followed in such cases, including proceedings for such suspension, expulsion, and exclusion decisions and all applicable appeals processes; (ii) standards, consistent with state, federal and case laws, for school board policies on alcohol and drugs, gang-related activity, hazing, vandalism, trespassing, threats, search and seizure, disciplining of students with disabilities, intentional injury of others, self-defense, bullying, the use of electronic means for purposes of bullying, harassment, and intimidation, and dissemination of such policies to students, their parents, and school personnel; (iii) standards for in-service training of school personnel in and examples of the appropriate management of student conduct and student offenses in violation of school board policies; (iv) standards for dress or grooming codes; and (v) standards for reducing bias and harassment in the enforcement of any code of student conduct.

In accordance with the most recent enunciation of constitutional principles by the Supreme Court of the United States of America, the Board's standards for school board policies on alcohol and drugs and search and seizure shall include guidance for procedures relating to voluntary and mandatory drug testing in schools, including which groups may be tested, use of test results, confidentiality of test information, privacy considerations, consent to the testing, need to know, and release of the test results to the appropriate school authority.

In the case of suspension and expulsion, the procedures set forth in this article shall be the minimum procedures that the school board may prescribe.

B. School boards shall adopt and revise, as required by § [22.1-253.13:7](#) and in accordance with the requirements of this section, regulations on codes of student conduct that are consistent with, but may be more stringent than, the guidelines of the Board. School boards shall include in the regulations on codes of student conduct procedures for suspension, expulsion, and exclusion decisions and shall

biennially review the model student conduct code to incorporate discipline options and alternatives to preserve a safe, nondisruptive environment for effective teaching and learning.

C. Each school board shall include in its code of student conduct prohibitions against hazing and profane or obscene language or conduct. School boards shall also cite in their codes of student conduct the provisions of § [18.2-56](#), which defines and prohibits hazing and imposes a Class 1 misdemeanor penalty for violations, that is, confinement in jail for not more than 12 months and a fine of not more than \$2,500, either or both.

D. Each school board shall include in its code of student conduct policies and procedures that include a prohibition against bullying. Such policies and procedures shall (i) be consistent with the standards for school board policies on bullying and the use of electronic means for purposes of bullying developed by the Board pursuant to subsection A and (ii) direct the principal to notify the parent of any student involved in an alleged incident of bullying of the status of any investigation within five school days of the allegation of bullying.

Such policies and procedures shall not be interpreted to infringe upon the First Amendment rights of students and are not intended to prohibit expression of religious, philosophical, or political views, provided that such expression does not cause an actual, material disruption of the work of the school.

E. A school board may regulate the use or possession of beepers or other portable communications devices and laser pointers by students on school property or attending school functions or activities and establish disciplinary procedures pursuant to this article to which students violating such regulations will be subject.

F. Nothing in this section shall be construed to require any school board to adopt policies requiring or encouraging any drug testing in schools. However, a school board may, in its discretion, require or encourage drug testing in accordance with the Board of Education's guidelines and model student conduct policies required by subsection A and the Board's guidelines for student searches required by § [22.1-279.7](#).

G. The Board of Education shall establish standards to ensure compliance with the federal Improving America's Schools Act of 1994 (Part F-Gun-Free Schools Act of 1994), as amended, in accordance with § [22.1-277.07](#).

This subsection shall not be construed to diminish the authority of the Board of Education or to diminish the Governor's authority to coordinate and provide policy direction on official communications between the Commonwealth and the United States government.

H. Each school board shall include in its code of student conduct a prohibition on possessing any tobacco product or nicotine vapor product, as those terms are defined in § [18.2-371.2](#), on a school bus, on school property, or at an on-site or off-site school-sponsored activity.

I. Any school board may include in its code of student conduct a dress or grooming code. Any dress or grooming code included in a school board's code of student conduct or otherwise adopted by a school

board shall (i) permit any student to wear any religiously and ethnically specific or significant head covering or hairstyle, including hijabs, yarmulkes, headwraps, braids, locs, and cornrows; (ii) maintain gender neutrality by subjecting any student to the same set of rules and standards regardless of gender; (iii) not have a disparate impact on students of a particular gender; (iv) be clear, specific, and objective in defining terms, if used; (v) prohibit any school board employee from enforcing the dress or grooming code by direct physical contact with a student or a student's attire; and (vi) prohibit any school board employee from requiring a student to undress in front of any other individual, including the enforcing school board employee, to comply with the dress or grooming code.

§ 22.1-279.7. Guidelines for student searches.

The Board of Education shall develop, in consultation with the Office of the Attorney General, guidelines for school boards for the conduct of student searches, including random locker searches, voluntary and mandatory drug testing, and strip searches, consistent with relevant state and federal laws and constitutional principles.

School boards shall adopt and revise, in accordance with the requirements of this section, regulations governing student searches that are consistent with the guidelines of the Board.

§ 22.1-279.8. School safety audits and school crisis, emergency management, and medical emergency response plans required.

A. For the purposes of this section, unless the context requires otherwise:

"School crisis, emergency management, and medical emergency response plan" means the essential procedures, operations, and assignments required to prevent, manage, and respond to a critical event or emergency, including natural disasters involving fire, flood, tornadoes, or other severe weather; loss or disruption of power, water, communications or shelter; bus or other accidents; medical emergencies, including cardiac arrest and other life-threatening medical emergencies; student or staff member deaths; explosions; bomb threats; gun, knife or other weapons threats; spills or exposures to hazardous substances; the presence of unauthorized persons or trespassers; the loss, disappearance or kidnapping of a student; hostage situations; violence on school property or at school activities; incidents involving acts of terrorism; and other incidents posing a serious threat of harm to students, personnel, or facilities. The plan shall include a provision that the Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be contacted immediately to deploy assistance in the event of an emergency as defined in the emergency response plan when there are victims as defined in § [19.2-11.01](#). The Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be the lead coordinating agencies for those

individuals determined to be victims, and the plan shall also contain current contact information for both agencies.

"School safety audit" means a written assessment of the safety conditions in each public school to (i) identify and, if necessary, develop solutions for physical safety concerns, including building security issues and (ii) identify and evaluate any patterns of student safety concerns occurring on school property or at school-sponsored events. Solutions and responses shall include recommendations for structural adjustments, changes in school safety procedures, and revisions to the school board's standards for student conduct.

B. The Virginia Center for School and Campus Safety, in consultation with the Department of Education, shall develop a list of items to be reviewed and evaluated in the school safety audits required by this section. Such items shall include those incidents reported to school authorities pursuant to § [22.1-279.3:1](#) and shall include a school inspection walk-through using a standardized checklist provided by the Virginia Center for School and Campus Safety, which shall incorporate crime prevention through environmental design principles.

The Virginia Center for School and Campus Safety shall prescribe a standardized report format for school safety audits, additional reporting criteria, and procedures for report submission, which may include instructions for electronic submission.

Each local school board shall require all schools under its supervisory control to annually conduct school safety audits as defined in this section and consistent with such list.

The results of such school safety audits shall be made public within 90 days of completion. The local school board shall retain authority to withhold or limit the release of any security plans, walk-through checklists, and specific vulnerability assessment components as provided in subdivision 4 of § [2.2-3705.2](#). The completed walk-through checklist shall be made available upon request to the chief law-enforcement officer of the locality or his designee. Each school shall maintain a copy of the school safety audit, which may exclude such security plans, walk-through checklists, and vulnerability assessment components, within the office of the school principal and shall make a copy of such report available for review upon written request.

Each school shall submit a copy of its school safety audit to the relevant school division superintendent. The division superintendent shall collate and submit all such school safety audits, in the prescribed format and manner of submission, to the Virginia Center for School and Campus Safety and shall make available upon request to the chief law-enforcement officer of the locality the results of such audits.

C. The division superintendent shall establish a school safety audit committee to include, if available, representatives of parents, teachers, local law-enforcement, emergency services agencies, local community services boards, and judicial and public safety personnel. The school safety audit committee shall review the completed school safety audits and submit any plans, as needed, for improving school safety to the division superintendent for submission to the local school board.

D. Each school board shall ensure that every school that it supervises shall develop a written school crisis, emergency management, and medical emergency response plan, consistent with the definition provided in this section, and shall include the chief law-enforcement officer, the fire chief, the chief of the emergency medical services agency, the executive director of the relevant regional emergency medical services council, and the emergency management official of the locality, or their designees, in the development of such plans. Each school division shall designate an emergency manager. The Department of Education and the Virginia Center for School and Campus Safety shall provide technical assistance to the school divisions of the Commonwealth in the development of the school crisis, emergency management, and medical emergency response plans that describe the components of a medical emergency response plan developed in coordination with local emergency medical services providers, the training of school personnel and students to respond to a life-threatening emergency, and the equipment required for this emergency response. The local school board, the chief law-enforcement officer, the fire chief, the chief of the emergency medical services agency, the executive director of the relevant regional emergency medical services council, and the emergency management official of the locality, or their designees, shall annually review the written school crisis, emergency management, and medical emergency response plans. The local school board shall have the authority to withhold or limit the review of any security plans and specific vulnerability assessment components as provided in subdivision 4 of § [2.2-3705.2](#). The local school division superintendent shall certify this review in writing to the Virginia Center for School and Campus Safety no later than August 31 of each year.

Upon consultation with local school boards, division superintendents, the Virginia Center for School and Campus Safety, and the Coordinator of Emergency Management, the Board of Education shall develop, and may revise as it deems necessary, a model school crisis, emergency management, and medical emergency response plan for the purpose of assisting the public schools in Virginia in developing viable, effective crisis, emergency management, and medical emergency response plans. Such model shall set forth recommended effective procedures and means by which parents can contact the relevant school or school division regarding the location and safety of their school children and by which school officials may contact parents, with parental approval, during a critical event or emergency.

E. Each school board shall ensure that every public school it supervises employs at least one school administrator who has completed, either in-person or online, school safety training for public school personnel conducted by the Virginia Center for School and Campus Safety in accordance with subdivision A 1 of § [9.1-184](#). However, such requirement shall not apply if such required training is not available online.

All school boards shall develop, in cooperation with the local law-enforcement agencies, juvenile and domestic relations court judges and personnel, parents, and the community at large, programs to prevent violence and crime on school property and at school-sponsored events, which shall include prevention of hazing. Activities designed to prevent the recurrence of violence and crime, including hazing, may include such interventions as education relating to Virginia's criminal law, school crime lines, peer mediation, conflict resolution, community service requirements, and any program focused on demonstrating the consequences of violence and crime. School boards are encouraged to develop and use a network of volunteer services in implementing these prevention activities.

§ 22.1-279.10. School resource officers; data.

The Department of Criminal Justice Services, in coordination with the Department of Education and the Department of Juvenile Justice, shall annually collect, report, and publish on its website data on the use of force against students, including the use of chemical, mechanical, or other restraints and instances of seclusion; detentions of students; arrests of students; student referrals to court or court service units; and other disciplinary actions by school resource officers involving students. Such data shall (i) be published in a manner that protects the identities of students and (ii) be disaggregated by local school division and by student age, grade, race, ethnicity, gender, and disability, if such data is available.

§ 22.1-280.2. School crime line defined; development of school crime lines authorized; local school boards' authority; Board of Education to promulgate regulations.

A. As used in this section:

"School crime line" means a confidential, anonymous system providing inducements for students to report any unlawful act occurring in school buildings or on school grounds or during school-sponsored activities to local law-enforcement authorities which is established as a cooperative alliance between the local school board, news media, the community, and law-enforcement officials or through a separate, nonprofit corporation governed by a board of directors or as part of a local "Crime Stoppers" program.

B. In order to reduce crime and violence within the school divisions in the Commonwealth, any local school board may develop a school crime line program as a joint, self-sustaining, cooperative alliance with news media, the community, and law-enforcement authorities to receive, screen, and reward student reports of unlawful acts committed in school buildings or on school grounds or at school

functions, when such reports lead to arrests or recovery of contraband or stolen property. Police or other law-enforcement personnel shall staff every school crime line program, receive reported information from anonymous student callers, screen such information, and direct information for further investigation, as may be appropriate.

C. Such programs may be established (i) by a local school board as a joint, self-sustaining, cooperative alliance with news media, the community, and law-enforcement authorities; (ii) through a separate nonprofit corporation initiated jointly by the local school board, news media, the community, and law-enforcement authorities and governed by a board of directors; or (iii) as part of a local "Crime Stoppers" program.

The governing board of any separate nonprofit school crime line corporation shall include broad-based community representation and shall, through its bylaws, set the policy, coordinate fund raising, and formulate a system of rewards. Prior to implementation of any school crime line program and annually thereafter, the local school board shall review and approve, as complying with the Board of Education's regulations for implementation of school crime lines, its regulations or the bylaws of any nonprofit school crime line corporation or the bylaws of any nonprofit "Crime Stoppers" corporation operating a school crime line. No school crime line program shall be implemented or revised without first obtaining the local school board's approval. Every local school board developing a school crime line program shall also notify all students and their parents or other custodian of the procedures and policies governing the program prior to implementation and annually thereafter.

D. By July 1, 1994, the Board of Education shall promulgate regulations for the implementation of school crime lines, including, but not limited to, appropriate fund raising, and the appropriateness of and limitations on rewards. In developing the regulations, the Board shall, in consultation with the Office of the Attorney General, address issues relating to civil rights, privacy, and any other question of law, including the civic duty to report crime without compensation.

E. Local school boards may establish, as a separate account, a school crime line fund, consisting of private contributions, local appropriations specifically designated for such purposes, and such funds as may be appropriated for this purpose by the Commonwealth pursuant to the appropriation act. No state or local funds appropriated for educational purposes shall be used to implement a school crime line.

§ 22.1-280.2:1. Employment of school security officers.

Local school boards and private or religious schools may employ school security officers, as defined in § [9.1-101](#), for the purposes set forth therein. Such school security officer may carry a firearm in the performance of his duties if (i) within 10 years immediately prior to being hired by the local school board or private or religious school he (a) was an active law-enforcement officer as defined in § [9.1-101](#) in the Commonwealth or (b) was employed by a law-enforcement agency of the United States or any state or political subdivision thereof and his duties were substantially similar to those of a law-

enforcement officer as defined in § [9.1-101](#); (ii) he retired or resigned from his position as a law-enforcement officer in good standing; (iii) he meets the training and qualifications described in subsection C of § [18.2-308.016](#); (iv) he has provided proof of completion of a training course that includes training in active shooter emergency response, emergency evacuation procedure, and threat assessment to the Department of Criminal Justice Services pursuant to subdivision 42 of § [9.1-102](#), provided that if he received such training from a local law-enforcement agency he received the training in the locality in which he is employed; (v) the local school board or private or religious school solicits input from the chief law-enforcement officer of the locality regarding the qualifications of the school security officer and receives verification from such chief law-enforcement officer that the school security officer is not prohibited by state or federal law from possessing, purchasing, or transporting a firearm; and (vi) the local school board or private or religious school grants him the authority to carry a firearm in the performance of his duties.

§ 22.1-280.2:2. Public School Security Equipment Grant Act of 2013.

A. This section shall be known and may be cited as the "Public School Security Equipment Grant Act of 2013."

B. For purposes of this section:

"Authority" means the Virginia Public School Authority.

"Department" means the Department of Education.

"Eligible school division" means a (i) local school division or (ii) regional vocational center, special education center, alternative education center, or academic year Governor's School serving public school students in grades K through 12. The term shall also include the Virginia School for the Deaf and the Blind.

"Local school division" means a school division with schools subject to state accreditation and whose students are required to be reported in fall membership for grades K through 12.

"Security equipment" includes building modifications and fixtures, including security vestibules, vaping detectors, security-related devices located outside of the school building on school property, and security-related devices located on school buses.

C. The Authority shall issue bonds for the purpose of grant payments to eligible school divisions of the Commonwealth to be used exclusively for purchasing security equipment for schools, including any related installation, which is designed to improve and help ensure the safety of students attending public schools in Virginia. Such grants shall not be used to pay for security equipment that is not included or described in a grant application approved by the Department pursuant to subsection D. The amount of grants provided to each eligible school division pursuant to this section shall not exceed \$100,000 for each fiscal year of the Commonwealth. Funds for the payment of such grants shall be provided from the issuance of bonds by the Authority, provided that the Authority shall not issue more than an

aggregate of \$6 million in bonds, after all costs, for such grants during each fiscal year of the Commonwealth. In addition, the Authority shall ensure that no more than an aggregate principal amount of \$30 million in bonds issued under this section shall be outstanding at any time. Eligible school divisions seeking a grant shall apply to the Department, which shall be responsible for administering the grant program.

The Authority shall work with the Department to determine the schedule for the issuance of the bonds, which shall be based in part upon eligible school divisions having sufficient funds to purchase such security equipment. The payment of debt service on such bonds shall be as provided in the general appropriation act.

Such grants shall be in addition to all other grants made to local governments, school boards, or school divisions according to law. In addition, such grants shall not replace or be in lieu of loans to local school boards or interest rate subsidy payments to local school boards pursuant to Chapter 11.1 (§ [22.1-175.1](#) et seq.) of Title 22.1, and the issuance of such bonds and the payment of such grants shall not, except as herein provided, affect or otherwise amend the provisions of such chapter as they relate to the powers and duties of the Authority, local school boards, local governments, or any other entity.

D. Based on the criteria developed by the Department in collaboration with the Department of Criminal Justice Services, eligible school divisions shall apply for a grant by August 1 of each year. As a condition of receiving a grant, a local match of 25 percent of the grant amount shall be required. The Superintendent of Public Instruction is authorized to reduce the local match for local school divisions with a composite index of local ability-to-pay less than 0.2000, including any such school division participating in a regional vocational center, special education center, alternative education center, or academic year Governor's School. The Virginia School for the Deaf and the Blind shall be exempt from the match requirement.

Grants shall be awarded by the Department on a competitive basis. As part of the application for a grant, each eligible school division shall (i) identify with specificity the security equipment for which grants are being sought, as well as the estimated costs to purchase and install the security equipment, and (ii) certify that it is the intent of the eligible school division to purchase the security equipment within six months of approval of any grant by the Department.

If the Department determines that a grant shall be paid to an eligible school division under this section, it shall provide a written certification to the chairman of the Authority directing him to make a grant payment in a specific amount to the eligible school division. The Department, however, shall not make such written certification until it has established that the Authority has sufficient funds to make such grant payment. The Authority shall only make grant payments to an eligible school division for the grants provided under this section upon receipt of such written certification. The Authority shall make such grant payments, and in the amounts as directed by the Department, within 30 days of receipt of the certification.

E. The Department shall develop guidelines concerning the requirements for applying for a grant and the administration of such grants. Such guidelines shall not be subject to the Administrative Process Act (§ [2.2-4000](#) et seq.).

F. In the event that two or more local school divisions became one local school division, whether by consolidation of only the local school divisions or by consolidation of the local governments, such resulting local school division shall be eligible for grants on the basis of the same number of local school divisions as existed prior to September 30, 2012.

G. The Authority shall take all necessary and proper steps as it is authorized to take under law to carry out the provisions of this section.

H. Beginning in 2014, the Department shall make an annual report to the General Assembly by September 1 of each year reporting (i) the total grants paid during the immediately prior fiscal year to each eligible school division and (ii) a general description of the security equipment purchased by eligible school divisions.

§ 22.1-280.2:3. School boards; local law-enforcement agencies; memorandums of understanding.

The school board in each school division in which the local law-enforcement agency employs school resource officers, as defined in § [9.1-101](#), shall enter into a memorandum of understanding with such local law-enforcement agency that sets forth the powers and duties of such school resource officers. The provisions of such memorandum of understanding shall be based on the model memorandum of understanding developed by the Virginia Center for School and Campus Safety pursuant to subdivision A 12 of § [9.1-184](#), which may be modified by the parties in accordance with their particular needs. Each such school board and local law-enforcement agency shall review and amend or affirm such memorandum at least once every two years or at any time upon the request of either party. Each school board shall ensure the current division memorandum of understanding is conspicuously published on the division website and provide notice and opportunity for public input during each memorandum of understanding review period.

A school board may take action against a pupil or the pupil's parent for any actual loss, breakage, or destruction of or failure to return property, owned by or under the control of the school board, caused

or committed by such pupil in pursuit of his studies. Such action may include seeking reimbursement from a pupil or the pupil's parent for any such loss, breakage, or destruction of or failure to return school property.

1. Either parent of such pupil or such pupil; provided that a school board may require that such pupil, if he be less than 18 years of age, as a condition precedent to access to such records, furnish written consent of his or her parent for such access;

B. A parent or pupil entitled to see the records pursuant to subdivision A 1 shall have access to all records relating to such pupil maintained by the school except as otherwise provided by law and need only appear in person during regular hours of the school day and request to see such records. No material concerning such pupil shall be edited or withheld except as otherwise provided by law, and the parent or pupil shall be entitled to read such material personally.

C. The giving of information by school personnel concerning participation in athletics and other school activities, the winning of scholastic or other honors and awards, and other like information shall be governed by the provisions of § [22.1-287.1](#).

The term "scholastic record" also shall not include records of instructional, supervisory, administrative, and ancillary educational personnel that are kept in the sole possession of the maker of the record and are not accessible or revealed to any other person except a temporary substitute for the maker of the record.

B. Whenever a pupil transfers from one school division to another, the scholastic record or a copy of the scholastic record shall be transferred to the school division to which the pupil transfers upon request from such school division. Permission of the parent, guardian, or other person having control or charge of the student shall not be required for transfer of such scholastic record to another school or school division within or outside the Commonwealth.

C. Any notice of disposition received pursuant to § [16.1-305.1](#) shall not be retained after the student has been awarded a diploma or a certificate as provided in § [22.1-253.13:4](#).

D. Every student's scholastic record shall be available to the student and his parent, guardian, or other person having control or charge of the student for inspection during the regular school day. Permission of the parent, guardian, or other person having control or charge of the student, or of a student who is 18 years of age or older, shall not be required for transfer of such scholastic record to another school or school division within or without this Commonwealth.

Consistent with federal law and regulation, each school shall annually notify parents of students currently enrolled and in attendance of their rights under the federal Family Educational Rights and Privacy Act (20 U.S.C. § 1232g) and related regulations.

A school responding to a request for the transfer of the scholastic record from another school division need not provide written notice of the transfer of the record, including the identity of the requester, to the parent, guardian, or other person having control or charge of the student, or to a student who is 18 years of age or older, if the school has previously included in the annual notice required by this subsection a statement that it forwards such records to such requesting school divisions.

E. Whenever the division superintendent is notified by the Department of Juvenile Justice, pursuant to § [16.1-287](#), or by a school division employee responsible for education programs in a local jail or a detention center, that a pupil who last attended a school within the school division is a pupil in a school of a juvenile correctional center of the Department of Juvenile Justice, or a pupil in an educational program in a local jail or detention center, the school division superintendent or his designee shall transfer the scholastic record of such pupil to the designated juvenile correctional center or local jail or a detention center, as the case may be, within five work days. The Department of Juvenile Justice shall transfer the scholastic record of a student who has been discharged from a juvenile correctional center to the relevant school division within five work days of the student's discharge.

The Board of Education shall adopt regulations concerning the transfer and management of scholastic records from one school division to another, to the learning centers of the Department of Juvenile Justice, and to educational programs in local jails and detention centers.

Upon receiving notice of a foster care placement of a student across jurisdictional lines, the sending school division and the receiving school division, as such school divisions are defined in subsection D of § [22.1-3.4](#), shall expedite the transfer of the scholastic record of the student.

F. The division superintendent or his designee shall notify the local police or sheriff's department for investigation as a possible missing child of any enrolled pupil whose scholastic record he is unable to obtain within 60 days or sooner, if the division superintendent or his designee has reason to suspect that the pupil is a missing child.

G. Superintendents and their designees shall be immune from any civil or criminal liability in connection with any notice to a police or sheriff's department of a pupil lacking a scholastic record or failure to give such notice as required by this section.

H. Except as provided in §§ [16.1-309](#) and [22.1-287](#) and this section, a superintendent or his designee, or other school personnel who unlawfully discloses information obtained pursuant to § [16.1-305.1](#) shall be guilty of a Class 3 misdemeanor.

§ 22.1-294. Probationary terms of service for principals, assistant principals, and supervisors; evaluation; reassigning principal, assistant principal, or supervisor to teaching position.

A. A person employed as a principal, assistant principal, or supervisor, including a person who has previously achieved continuing contract status as a teacher, shall serve a probationary term of three years in such position in the same school division before acquiring continuing contract status as principal, assistant principal, or supervisor. With such funds as may be appropriated by the General Assembly for such purpose, school boards shall provide each probationary principal, except probationary principals who have prior successful experience as principals, as determined by the local school board in a school division, a mentor, as described in guidelines developed by the Board, during the first year of the probationary period, to assist such probationary principal in achieving excellence in administration.

B. Each local school board shall adopt for use by the division superintendent clearly defined criteria for a performance evaluation process for principals, assistant principals, and supervisors that are consistent with the performance standards set forth in the Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents as provided in § [22.1-253.13:5](#) and that includes, among other things, an assessment of such administrators' skills and knowledge; student academic progress and school gains in student learning; and effectiveness in addressing school safety and enforcing student discipline. The division superintendent shall implement such performance evaluation process in making employment recommendations to the school board pursuant to § [22.1-293](#). Principals and assistant principals who have achieved continuing contract status shall be formally evaluated at least once every three years and evaluated informally at least once each year that they are not formally evaluated. Probationary principals and assistant principals shall be evaluated each school year. The division superintendent shall consider such evaluations, among other things, in making recommendations to the school board regarding the nonrenewal of the probationary contract of any principal or assistant principal.

C. Continuing contract status acquired by a principal, assistant principal, or supervisor shall not be construed (i) as prohibiting a school board from reassigning such principal, assistant principal, or supervisor to a teaching position if notice of reassignment is given by the school board by June 15 of any year or (ii) as entitling any such principal, assistant principal, or supervisor to the salary paid him as principal, assistant principal, or supervisor in the case of any such reassignment to a teaching position.

D. No such salary reduction and reassignment, however, shall be made without first providing such principal, assistant principal, or supervisor with written notice of the reason for such reduction and reassignment and an opportunity to present his or her position at an informal meeting with the division superintendent, the division superintendent's designee, or the school board. Before recommending such reassignment, the division superintendent shall consider, among other things, the performance evaluations for such principal, assistant principal, or supervisor. The principal, assistant principal, or supervisor shall elect whether such meeting shall be with the division superintendent, the division superintendent's designee, or the school board. The school board, division superintendent, or the division superintendent's designee shall determine what processes are to be followed at the meeting. The decision to reassign and reduce salary shall be at the sole discretion of the school board.

The intent of this section is to provide an opportunity for a principal, assistant principal, or supervisor to discuss the reasons for such salary reduction and reassignment with the division superintendent, his designee, or the school board, and the provisions of this section are meant to be procedural only. Nothing contained herein shall be taken to require cause, as defined in § [22.1-307](#), for the salary reduction and reassignment of a principal, assistant principal, or supervisor.

E. As used in this section, "supervisor" means a person who holds an instructional supervisory position as specified in the regulations of the Board of Education and who is required to hold a license as prescribed by the Board of Education.

Such policies shall include, but need not be limited to, incentives for excellence in teaching, including financial support for teachers attending professional development seminars or those seeking and obtaining national certification.

C. School boards shall develop a procedure for use by division superintendents and principals in evaluating teachers that is appropriate to the tasks performed and addresses, among other things, student academic progress and the skills and knowledge of instructional personnel, including, but not limited to, instructional methodology, classroom management, and subject matter knowledge.

Teachers employed by local school boards who have achieved continuing contract status shall be formally evaluated at least once every three years and more often as deemed necessary by the principal, and they shall be evaluated informally during each year in which they are not formally evaluated. Any teacher who has achieved continuing contract status who receives an unsatisfactory formal evaluation and who continues to be employed by the local school board shall be formally evaluated in the following year. The evaluation shall be maintained in the employee's personnel file.

Any dispute over such unfounded information exclusive of opinions retained in the personnel file, or in a separate sealed file, notwithstanding the provisions of the Government Data Collection and Dissemination Practices Act (§ [2.2-3800](#) et seq.), shall be settled through the employee grievance procedure as provided in §§ [22.1-306](#) and [22.1-308](#) through [22.1-314](#).

C. Teacher performance indicators or other data collected by or for the Department of Education or the local school board or made available to and able to be used by the local school board to judge the performance or quality of a teacher, maintained in a teacher's personnel file or otherwise, shall be confidential but may be disclosed, in a form that does not personally identify any student or other teacher, (i) pursuant to court order, (ii) for the purposes of a grievance proceeding involving the teacher, or (iii) as otherwise required by state or federal law. Nothing in this subsection shall be construed to prohibit the release or to limit the availability of nonidentifying, aggregate teacher performance indicators or other data.

Whatever rate is paid, however, shall be the same for school board members and employees of the board.

Any person making a materially false statement regarding a finding of child abuse and neglect is guilty of a Class 1 misdemeanor and upon conviction, the fact of said conviction is grounds for the Board of Education to revoke such person's license to teach.

E. As a condition of awarding a contract for the provision of services that require the contractor or his employees to have direct contact with students on school property during regular school hours or during school-sponsored activities, the school board shall require the contractor to provide certification of whether any individual who will provide such services has been convicted of any violent felony set forth in the definition of barrier crime in subsection A of § [19.2-392.02](#); any offense involving the sexual molestation, physical or sexual abuse, or rape of a child; or any crime of moral turpitude.

This subsection shall not apply to a contractor or his employees providing services to a school division in an emergency or exceptional situation, such as when student health or safety is endangered or when repairs are needed on an urgent basis to ensure that school facilities are safe and habitable, when it is reasonably anticipated that the contractor or his employees will have no direct contact with students.

F. No school board shall award a contract for the provision of services that require the contractor or his employees to have direct contact with students on school property during regular school hours or during school-sponsored activities when any individual who provides such services has been convicted

§ 22.1-296.2. Fingerprinting required; reciprocity permitted.

A. As a condition of employment, the school boards of the Commonwealth shall require any applicant who is offered or accepts employment after July 1, 1989, whether full-time or part-time, permanent, or temporary, to submit to fingerprinting and to provide personal descriptive information to be forwarded along with the applicant's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding such applicant. The school board may (i) pay for all or a portion of the cost of the fingerprinting or criminal records check or (ii) in its discretion, require the applicant to pay for all or a portion of the cost of such fingerprinting or criminal records check.

The Central Criminal Records Exchange, upon receipt of an applicant's record or notification that no record exists, shall report to the school board whether or not the applicant has ever been convicted of a felony or a Class 1 misdemeanor or an equivalent offense in another state.

To conserve the costs of conducting criminal history record checks to applicants and school boards, upon the written request and permission of the applicant, a school board shall inform another school board with which reciprocity has been established, and to which the applicant also has applied for employment, of the results of the criminal history record information conducted within the previous ninety days that it obtained concerning the applicant. Criminal history record information pertaining to an applicant for employment by a school board shall be exchanged only between school boards in the Commonwealth in which a current agreement of reciprocity for the exchange of such information has been established and is in effect. Reciprocity agreements between school boards shall provide for the apportionment of the costs of the fingerprinting or criminal records check between the applicant and the school board, as prescribed in this section. However, school boards that enter into reciprocity agreements shall not each levy the costs of the fingerprinting or criminal records check on the applicant.

B. The division superintendent shall inform the relevant school board of any notification of arrest of a school board employee received pursuant to § [19.2-83.1](#). The school board shall require such

employee, whether full-time or part-time, permanent, or temporary, to submit to fingerprinting and to provide personal descriptive information to be forwarded along with the employee's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding such employee. The school board may (i) pay for all or a portion of the cost of the fingerprinting or criminal records check or (ii) in its discretion, require the applicant to pay for all or a portion of the cost of such fingerprinting or criminal records check.

The Central Criminal Records Exchange, upon receipt of an employee's record or notification that no record exists, shall report to the school board whether or not the employee has been convicted of any of the offenses listed in subsection A of this section. The contents of the employee's record shall be used by the school board solely to implement the provisions of §§ [22.1-307](#) and [22.1-315](#).

C. The Central Criminal Records Exchange shall not disclose information to the school board regarding charges or convictions of any crimes not specified in this section. If an applicant is denied employment or a current employee is suspended or dismissed because of information appearing on his criminal history record, the school board shall provide a copy of the information obtained from the Central Criminal Records Exchange to the applicant or employee. The information provided to the school board shall not be disseminated except as provided in this section.

The Central Criminal Records Exchange, upon receipt of an applicant's record or notification that no record exists, shall report to the governing board or administrator, or to a private organization coordinating such records on behalf of such governing board or administrator pursuant to a written agreement with the Department of State Police, that the applicant meets the criteria or does not meet the criteria for employment based on whether or not the applicant has ever been convicted of any barrier crime as defined in § [19.2-392.02](#).

B. The Central Criminal Records Exchange shall not disclose information to such governing board, administrator, or private organization coordinating such records regarding charges or convictions of any crimes. If any applicant is denied employment because of information appearing on the criminal

history record and the applicant disputes the information upon which the denial was based, the Central Criminal Records Exchange shall, upon request, furnish the applicant the procedures for obtaining a copy of the criminal history record from the Federal Bureau of Investigation. The information provided to the governing board, administrator, or private organization coordinating such records shall not be disseminated except as provided in this section. A governing board or administrator employing or previously employing a temporary teacher or a private organization coordinating such records on behalf of such governing board or administrator pursuant to a written agreement with the Department of State Police may disseminate, at the written request of such temporary teacher, whether such teacher meets the criteria or does not meet the criteria for employment pursuant to subsection A to the governing board or administrator of another accredited private elementary or secondary school in which such teacher has accepted employment. Such governing board, administrator, or private organization transferring criminal records information pursuant to this section shall be immune from civil liability for any official act, decision, or omission done or made in the performance of such transfer, when such acts or omissions are taken in good faith and are not the result of gross negligence or willful misconduct.

Fees charged for the processing and administration of background checks pursuant to this section shall not exceed the actual cost to the state of such processing and administration.

C. Effective July 1, 2017, the governing board or administrator of a private elementary or secondary school that is accredited pursuant to § [22.1-19](#) that operates a child day program or family day system regulated by the Department pursuant to Chapter 14.1 (§ [22.1-289.02](#) et seq.) shall accept evidence of a background check in accordance with § [22.1-289.035](#) for individuals who are required to undergo a background check in accordance with that section as a condition of employment in lieu of the background check required by subsection A.

D. The governing boards or administrators of private elementary and secondary schools that are accredited pursuant to § [22.1-19](#) shall adopt and implement policies prohibiting any individual who is a governing board member, administrator, employee, contractor, or agent of a private elementary or secondary school to assist a governing board member, administrator, employee, contractor, or agent of such private elementary or secondary school in obtaining a new job if such individual knows or has probable cause to believe that the individual seeking new employment engaged in sexual misconduct regarding a minor or student in violation of law.

E. For purposes of this section, "governing board" or "administrator" means the unit or board or person designated to supervise operations of a system of private schools or a private school accredited pursuant to § [22.1-19](#).

A. Every school board and every governing board or administrator of a private school accredited pursuant to § [22.1-19](#) shall require, as a condition of employment, that any applicant who is offered or accepts employment requiring direct contact with students, whether full-time or part-time, permanent or temporary, provide written consent and the necessary personal information for the school board, governing board, or administrator to obtain a search of the registry of founded complaints of child abuse and neglect maintained by the Department of Social Services pursuant to § [63.2-1515](#). The school board, governing board, or administrator shall ensure that all such searches are requested in conformance with the regulations of the Board of Social Services. In addition, where the applicant has resided in another state within the last five years, the school board, governing board, or administrator shall require as a condition of employment that such applicant provide written consent and the necessary personal information for the school board, governing board, or administrator to obtain information from each relevant state as to whether the applicant was the subject of a founded complaint of child abuse and neglect in such state. The school board, governing board or administrator shall take reasonable steps to determine whether the applicant was the subject of a founded complaint of child abuse and neglect in the relevant state. The Department of Social Services shall maintain a database of central child abuse and neglect registries in other states that provide access to out-of-state school boards, for use by local school boards, governing boards, and administrators. The applicant may be required to pay the cost of any search conducted pursuant to this subsection at the discretion of the school board, governing board, or administrator. From such funds as may be available for this purpose, however, the school board or the governing board or administrator may pay for the search.

The Department of Social Services shall respond to such request by the school board, governing board, or administrator in cases where there is no match within the central registry regarding applicants for employment within 10 business days of receipt of such request. In cases where there is a match within the central registry regarding applicants for employment, the Department of Social Services shall respond to such request by the school board, governing board, or administrator within 30 business days of receipt of such request. The request and response may be sent electronically or by first-class mail or facsimile transmission.

B. If the response obtained pursuant to subsection A indicates that the applicant is the subject of a founded case of child abuse and neglect, such applicant shall be denied employment or the employment shall be rescinded.

C. If an applicant is denied employment because of information appearing on his record in the registry, the school board, governing board, or administrator shall provide a copy of the information obtained from the registry to the applicant. The information provided to the school board, governing board, or administrator by the Department of Social Services shall be confidential and shall not be disseminated by the school board, governing board, or administrator.

§ 22.1-298.1. Regulations governing licensure.

A. As used in this section:

"Alternate route to licensure" means a nontraditional route to teacher licensure available to individuals who meet the criteria specified in the guidelines developed pursuant to subsection N or regulations issued by the Board of Education.

"Industry certification credential" means an active career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a professional license in the Commonwealth, or successfully completing an occupational competency examination.

"Licensure by reciprocity" means a process used to issue a license to an individual coming into the Commonwealth from another state when that individual meets certain conditions specified in the Board of Education's regulations.

"Professional teacher's assessment" means those tests mandated for licensure as prescribed by the Board of Education.

"Provisional license" means a nonrenewable license issued by the Board of Education for a specified period of time, not to exceed three years, to an individual who may be employed by a school division in the Commonwealth and who generally meets the requirements specified in the Board of Education's regulations for licensure, but who may need to take additional coursework, pass additional assessments, or meet alternative evaluation standards to be fully licensed with a renewable license.

"Renewable license" means a license issued by the Board of Education for 10 years to an individual who meets the requirements specified in the Board of Education's regulations.

B. The Board of Education shall prescribe, by regulation, the requirements for the licensure of teachers and other school personnel required to hold a license. Such regulations shall include procedures for (i) the denial, suspension, cancellation, revocation, and reinstatement of licensure; (ii) written reprimand of license holders on grounds established by the Board, in accordance with law, notice of which shall be made by the Superintendent of Public Instruction to division superintendents or their

designated representatives; and (iii) the immediate and thorough investigation by the division superintendent or his designee of any complaint alleging that a license holder has engaged in conduct that may form the basis for the revocation of his license. At a minimum, such procedures for investigations contained in such regulations shall require (a) the division superintendent to petition for the revocation of the license upon completing such investigation and finding that there is reasonable cause to believe that the license holder has engaged in conduct that forms the basis for revocation of a license; (b) the school board to proceed to a hearing on such petition for revocation within 90 days of the mailing of a copy of the petition to the license holder, unless the license holder requests the cancellation of his license in accordance with Board regulations; and (c) the school board to provide a copy of the investigative file and such petition for revocation to the Superintendent of Public Instruction at the time that the hearing is scheduled. The Board of Education shall revoke the license of any person for whom it has received a notice of dismissal or resignation pursuant to subsection F of § [22.1-313](#) and, in the case of a person who is the subject of a founded complaint of child abuse or neglect, after all rights to any administrative appeal provided by § [63.2-1526](#) have been exhausted. Regardless of the authority of any other agency of the Commonwealth to approve educational programs, only the Board of Education shall have the authority to license teachers to be regularly employed by school boards, including those teachers employed to provide nursing education.

The Board of Education shall prescribe by regulation the licensure requirements for teachers who teach only online courses, as defined in § [22.1-212.23](#). Such license shall be valid only for teaching online courses. Teachers who hold a 10-year renewable license issued by the Board of Education may teach online courses for which they are properly endorsed.

C. The Board of Education's regulations shall include requirements that a person seeking initial licensure:

1. Demonstrate proficiency in the relevant content area, communication, literacy, and other core skills for educators by achieving a qualifying score on professional assessments or meeting alternative evaluation standards as prescribed by the Board;

3. Complete study in gifted education, including the use of multiple criteria to identify gifted students; and

The certification or training program shall (i) be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross, and (ii) include hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. The Board shall provide a waiver for this requirement for any person with a disability whose disability prohibits such person from completing the certification or training;
4. Every person seeking licensure with an endorsement as a teacher of the blind and visually impaired shall demonstrate proficiency in reading and writing Braille;
5. Every teacher seeking an initial license in the Commonwealth with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement. If a teacher seeking an initial license in the Commonwealth has not attained an industry certification credential in the area in which the teacher seeks endorsement, the Board may, upon request of the employing school division or educational agency, issue the teacher a provisional license to allow time for the teacher to attain such credential;
6. Every person seeking initial licensure or renewal of a license shall complete awareness training, provided by the Department of Education, on the indicators of dyslexia, as that term is defined by the Board pursuant to regulations, and the evidence-based interventions and accommodations for dyslexia;

E. No teacher who seeks a provisional license shall be required to meet any requirement set forth in subdivision D 1, 3, 6, or 8 as a condition of such licensure, but each such teacher shall complete each such requirement during the first year of provisional licensure.

F. The Board shall issue a license to an individual seeking initial licensure who has not completed professional assessments as prescribed by the Board, if such individual (i) holds a provisional license that will expire within three months or, at the discretion of the school board and division superintendent, within six months if the individual has received a satisfactory mid-year performance review in the current school year; (ii) is employed by a school board; (iii) is recommended for licensure by the division superintendent; (iv) has attempted, unsuccessfully, to obtain a qualifying score on the professional assessments as prescribed by the Board; (v) has received an evaluation rating of proficient or above on the performance standards for each year of the provisional license, and such evaluation was conducted in a manner consistent with the Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents; and (vi) meets all other requirements for initial licensure.

G. Each local school board or division superintendent may waive for any individual whom it seeks to employ as a career and technical education teacher and who is also seeking initial licensure or renewal of a license with an endorsement in the area of career and technical education any applicable requirement set forth in subsection C or subdivision D 2, 4, or 6.

H. The Board's regulations shall require that initial licensure for principals and assistant principals be contingent upon passage of an assessment as prescribed by the Board.

I. The Board shall establish criteria in its regulations to effectuate the substitution of experiential learning for coursework for those persons seeking initial licensure through an alternate route as defined in Board regulations. Such alternate routes shall include eligibility for any individual to receive, notwithstanding any provision of law to the contrary, a renewable one-year license to teach in public high schools in the Commonwealth if he has:

2. Completed at least 30 credit hours of teaching experience as an instructor at a regionally accredited institution of higher education;

3. Received qualifying scores on the professional teacher's assessments prescribed by the Board, including the communication and literacy assessment and the content-area assessment for the endorsement sought; and

4. Met the requirements set forth in subdivisions D 1 and 3.

J. Notwithstanding any provision of law to the contrary, the Board (i) may provide for the issuance of a provisional license, valid for a period not to exceed three years, pursuant to subdivision D 5 or to any person who does not meet the requirements of this section or any other requirement for licensure imposed by law and (ii) shall provide for the issuance of a provisional license, valid for a period not to exceed three years, to any former member of the Armed Forces of the United States or the Virginia National Guard who has received an honorable discharge and has the appropriate level of experience or training but does not meet the requirements for a renewable license.

Each such individual shall establish a file in the Department of Education by submitting a complete application packet, which shall include official student transcripts. No service requirements or licensing assessments shall be required for any such individual.

L. The Board shall include in its regulations an alternate route to licensure for elementary education preK-6 and an alternate route to licensure for special education general curriculum K-12. Each such alternate route to licensure shall require individuals to (i) meet the qualifying scores on the content area assessment prescribed by the Board for the endorsements sought and (ii) complete an alternative certification program that provides training in the pedagogy and methodology of the respective content or special education areas prescribed by the Board. The curriculum of any such alternative certification program shall be approved by the Board. Nothing in this subsection shall preclude the Board from establishing other alternate routes to licensure.

M. The Board, in its regulations providing for licensure by reciprocity established pursuant to sub-section K, shall (i) permit applicants to submit third-party employment verification forms and (ii) grant special consideration to individuals who have successfully completed a program offered by a provider that is accredited by the Council for the Accreditation of Educator Preparation.

Any such alternate route may include alternatives to the regulatory requirements for teacher preparation, including alternative professional assessments and coursework. The petitioner may proffer or the Board may impose conditions in conjunction with the approval of such petition.

§ 22.1-299.7. Microcredential program; certain STEM subjects.

A. The Department of Education may establish a microcredential program for the purpose of permitting any public elementary or secondary school teacher who holds a renewable or provisional license or

any individual who participates in any alternate route to licensure program to complete additional coursework and earn microcredentials in science, technology, engineering, and mathematics (STEM) endorsement areas, including computer science, for which there is a high need for additional qualified teachers.

B. The Department of Education shall direct the Advisory Board on Teacher Education and Licensure to convene a workgroup including pertinent education stakeholders to determine how any micro-credential awarded pursuant to any microcredential program established pursuant to subsection A will be used to award add-on endorsements and certifications for teachers in STEM endorsement areas, including computer science, for which there is a high need for additional qualified teachers.

C. Any course offered through any microcredential program established pursuant to subsection A shall be offered in-person or in a blended format of in-person and online instruction.

D. Any teacher who holds a renewable license and who participates, through any microcredential program offered pursuant to subsection A, in courses that do not contribute to an endorsement is eligible for professional development points toward renewal of his license for the number of in-person hours of coursework completed, upon providing a certificate of such participation from the course provider.

§ 22.1-300. Tuberculosis certificate.

As a condition to employment, every public school employee, including without limitation teachers, cafeteria workers, janitors and bus drivers, shall submit a certificate signed by a licensed physician, or by a registered nurse licensed pursuant to Article 2 (§ [54.1-3016](#) et seq.) of Chapter 30 of Title 54.1, stating that such employee appears free of communicable tuberculosis. Such certificate shall be based on recorded results of such skin tests, X-rays and other examinations, singly or in combination, as are deemed necessary by a licensed physician that have been performed within the twelve months' period immediately preceding submission of the certificate. After consulting with the local health director, any school board may require the submission of such certificates annually, or at such intervals as it deems appropriate, as a condition to continued employment.

Code 1950, § 22-249; 1968, c. 445; 1970, c. 526; 1973, c. 491; 1974, c. 160; 1977, c. 220; 1979, c. 262; 1980, c. 559; 1994, c. [68](#); 2000, c. [476](#).

§ 22.1-301. Costs of medical examinations and of furnishing medical records.

It shall be unlawful for any school board to require any instructional employee to pay the costs of a medical examination or the cost of furnishing medical records required as a condition to continued employment. Nothing in this section shall prohibit the immediate supervisor from requesting an employee to submit a physician's certificate verifying the illness of an employee at the employee's expense.

Code 1950, § 22-249; 1968, c. 445; 1970, c. 526; 1973, c. 491; 1974, c. 160; 1977, c. 220; 1979, c. 262; 1980, c. 559.

§ 22.1-302. Written contracts required; execution of contracts; qualifications of temporarily employed teachers; rules and requirements.

A. A written contract, in a form permitted by the Board of Education's regulations, shall be made by the school board with each teacher employed by it, except those who are temporarily employed, before such teacher enters upon his duties. Such contract shall be signed in duplicate, with a copy thereof furnished to both parties.

The standard 10-month contract shall include 200 days, including (i) a minimum of 180 teaching days or 990 instructional hours and (ii) up to 20 days for activities such as teaching, participating in professional development, planning, evaluating, completing records and reports, participating on committees or in conferences, or such other activities as may be assigned or approved by the local school board.

A temporarily employed teacher, as used in this section, means (i) one who is employed to substitute for a contracted teacher for a temporary period of time during the contracted teacher's absence or (ii) one who is employed to fill a teacher vacancy for a period of time, but for no longer than 90 teaching days in such vacancy, unless otherwise approved by the Superintendent of Public Instruction on a case-by-case basis, during one school year.

B. Temporarily employed teachers, as defined in this section, shall be at least 18 years of age and shall hold a high school diploma or have passed a high school equivalency examination approved by the Board of Education.

A temporarily employed teacher is not required to be licensed by the Board of Education, nor is the local school board required to enter into a written contract with a temporarily employed teacher. However, local school boards shall establish employment qualifications for temporarily employed teachers that may exceed these requirements for the employment of such teachers. School boards shall also seek to ensure that temporarily employed teachers who are engaged as long-term substitutes exceed baseline employment qualifications.

C. A separate contract in a form permitted by the Board of Education shall be executed by the school board with a teacher who is receiving a monetary supplement for any athletic coaching or extra-curricular activity sponsorship assignment. This contract shall be separate and apart from the contract for teaching.

Termination of a separate contract for any athletic coaching or extracurricular activity sponsorship assignment by either party thereto shall not constitute cause for termination of the separate teaching contract of the coach or teacher.

All such contracts shall require the party intending to terminate the coaching or extracurricular activity sponsorship contract to give reasonable notice to the other party before termination thereof shall become effective.

For the purposes of this section, "extracurricular activity sponsorship" means an assignment for which a monetary supplement is received, requiring responsibility for any student organizations, clubs, or groups, such as service clubs, academic clubs and teams, cheerleading squads, student publication and literary groups, and visual and performing arts organizations except those that are conducted in conjunction with regular classroom, curriculum, or instructional programs.

§ 22.1-303. Probationary terms of service for teachers.

A. A probationary term of service of three years in the same school division shall be required before a teacher is issued a continuing contract. School boards shall provide each probationary teacher except probationary teachers who have prior successful teaching experience, as determined by the local school board in a school division, a mentor teacher, as described by Board guidelines developed pursuant to § [22.1-305.1](#), during the first year of the probationary period, to assist such probationary teacher in achieving excellence in instruction. During the probationary period, such probationary teacher shall be evaluated annually based upon the evaluation procedures developed by the employing school board for use by the division superintendent and principals in evaluating teachers as required by subsection C of § [22.1-295](#). A teacher in his first year of the probationary period shall be evaluated informally at least once during the first semester of the school year. The division superintendent shall consider such evaluations, among other things, in making any recommendations to the school board regarding the nonrenewal of such probationary teacher's contract as provided in § [22.1-305](#).

Any teacher hired on or after July 1, 2001, shall be required, as a condition of achieving continuing contract status, to have successfully completed training in instructional strategies and techniques for intervention for or remediation of students who fail or are at risk of failing the Standards of Learning assessments. Local school divisions shall be required to provide said training at no cost to teachers employed in their division. In the event a local school division fails to offer said training in a timely manner, no teacher will be denied continuing contract status for failure to obtain such training.

B. Once a continuing contract status has been attained in a school division in the Commonwealth, another probationary period need not be served in any other school division unless such probationary period, not to exceed two years, is made a part of the contract of employment. Further, when a teacher has attained continuing contract status in a school division in the Commonwealth and separates from

and returns to teaching service in a school division in Virginia by the beginning of the third year, such teacher shall be required to serve a probationary period not to exceed two years, if made a part of the contract for employment.

C. For the purpose of calculating the years of service required to attain continuing contract status, at least 160 contractual teaching days during the school year shall be deemed the equivalent of one year in the first year of service by a teacher.

D. Teachers holding three-year local eligibility licenses issued prior to July 1, 2013, shall not be eligible for continuing contract status while teaching under the authority of such license. Upon attainment of a collegiate professional or postgraduate professional license issued by the Department of Education, such teachers shall serve a probationary term of service of three years prior to being eligible for continuing contract status pursuant to this section.

§ 22.1-303.1. Immunity from civil liability for certain individuals.

Any teacher who, in good faith, participates in conducting a peer review of another teacher or a person who conducts a review of a teacher as a mentor teacher shall be immune from civil liability for any act, omission or statement made in the performance of these duties unless such act, omission or statement was made in bad faith or with malicious intent.

§ 22.1-304. Reemployment of teacher who has not achieved continuing contract status; effect of continuing contract; resignation of teacher; reduction in number of teachers.

A. If a teacher who has not achieved continuing contract status receives notice of reemployment, he must accept or reject in writing within 15 days of receipt of such notice. Except as provided in § [22.1-305](#) and except in the case of a reduction in force as provided in subsection F, written notice of non-renewal of the probationary contract must be given by the school board on or before June 15 of each year. If no such notice is given a teacher by June 15, the teacher shall be entitled to a contract for the ensuing year in accordance with local salary stipulations including increments.

B. Teachers employed after completing the probationary period shall be entitled to continuing contracts during good behavior and competent service. Written notice of noncontinuation of the contract by either party must be given by June 15 of each year; otherwise the contract continues in effect for the ensuing year in conformity with local salary stipulations including increments.

C. A teacher may resign after June 15 of any school year with the approval of the local school board or, upon authorization by the school board, with the approval of the division superintendent. The teacher shall request release from contract at least two weeks in advance of intended date of resignation. Such request shall be in writing and shall set forth the cause of resignation.

If the division superintendent has been authorized to approve resignations, a teacher may, within one week, withdraw a request to resign. Upon the expiration of the one-week period, the division superintendent shall notify the school board of his decision to accept or reject the resignation. The school board, within two weeks, may reverse the decision of the division superintendent.

In the event that the board or the division superintendent declines to grant the request for release on the grounds of insufficient or unjustifiable cause, and the teacher breaches such contract, disciplinary action, which may include written reprimand, suspension, or revocation of the teacher's license, may be taken pursuant to regulations prescribed by the Board of Education.

D. As soon after June 15 as the school budget shall have been approved by the appropriating body, the school board shall furnish each teacher a statement confirming continuation of employment, setting forth assignment and salary.

Nothing in the continuing contract shall be construed to authorize the school board to contract for any financial obligation beyond the period for which funds have been made available with which to meet such obligation.

E. A school board may reduce the number of teachers, whether or not such teachers have reached continuing contract status, because of decrease in enrollment or abolition of particular subjects.

F. Within two weeks of the approval of the school budget by the appropriating body, but no later than July 1, school boards shall notify all teachers who may be subject to a reduction in force due to a decrease in the school board's budget as approved by the appropriating body.

G. If a school board implements a reduction in workforce pursuant to this section, such reduction shall not be made solely on the basis of seniority but must include consideration of, among other things, the performance evaluations of the teachers potentially affected by the reduction in workforce.

Code 1950, § 22-217.4; 1968, c. 691; 1978, c. 147; 1979, c. 98; 1980, c. 559; 1992, c. 132; 1993, c. 294; 1996, c. [840](#); 2000, c. [709](#); 2001, c. [540](#); 2002, c. [714](#); 2003, c. [706](#); 2012, cc. [106](#), [687](#); 2013, cc. [588](#), [650](#); 2019, c. [587](#); 2020, c. [513](#).

§ 22.1-305. Nonrenewal of contract of probationary teacher.

A. Before a division superintendent recommends to the school board nonrenewal of the contract of a teacher who has not achieved continuing contract status, the division superintendent shall consider, among other things, the performance evaluations for such teacher required by § [22.1-303](#) and shall notify the teacher of the proposed recommendation. Upon written request of the teacher within five working days after receipt of such notice, the division superintendent or his designee shall orally provide the specific reasons, if any, for such recommendation, along with supporting documentation, including such performance evaluations, to the teacher and, if requested by the teacher, to his or her representative. Within 10 days after receiving such reasons, the teacher may request, by notification in writing to the division superintendent, a conference before the division superintendent. Upon such request, the division superintendent shall set a date for the conference, which shall be within 30 days

of the request, and shall give the teacher at least 15 days' notice of the time and place of the conference.

B. The conference shall be before the division superintendent or his designee. No such designee shall have recommended to the division superintendent the nonrenewal of the teacher's contract. The teacher and the person or persons who recommended the nonrenewal of the teacher's contract to the division superintendent, or a representative of either or both, shall be allowed to participate in the conference, but no such representative shall be an attorney.

C. If the conference is before a designee of the division superintendent, the designee shall communicate his recommendations to the division superintendent and to the teacher.

D. The division superintendent shall notify the teacher, in writing, of his intention with respect to the recommendation within 10 days after the conference.

E. In any case in which a teacher requests reasons for the recommendation as provided in this section, written notice of nonrenewal of the contract by the school board must be given either within 10 days after the time for requesting a conference has expired and the teacher has not made a timely request for a conference or, if a conference is requested, within 30 days after the division superintendent notifies the teacher of his intention with respect to the recommendation and the provisions of [§ 22.1-304](#) requiring such notice on or before June 15 shall not be applicable.

F. The conference shall be confidential and no written or oral communication of such conference shall be made to anyone other than the school board, in executive session, and employees of the school division having an interest therein; however, both the teacher and the division superintendent, upon request, may provide the reasons for the nonrenewal to a potential employer of the teacher.

G. The provisions of this section shall be inapplicable when a decrease in enrollment or the abolition of a particular subject or reduction in the number of classes offered in a particular subject causes a reduction in the number of teachers; however, a statement to that effect shall be placed in the personnel file of each teacher whose contract is nonrenewed for any such reason.

H. The intent of this section is to provide an opportunity for a probationary teacher to discuss the reasons for nonrenewal with the division superintendent or his designee, and the provisions of this section are meant to be procedural only. Nothing contained herein shall be taken to require cause, as defined in [§ 22.1-307](#), for the nonrenewal of the contract of a teacher who has not achieved continuing contract status nor shall the failure of the school board or the division superintendent to comply with any time requirement herein constitute a basis for continued employment of the teacher.

§ 22.1-305.1. Mentor teacher programs.

A. The Board of Education shall establish, from such funds as may be appropriated by the General Assembly, mentor teacher programs utilizing specially trained public school teachers as mentors to

provide assistance and professional support to teachers entering the profession and to improve the performance of experienced teachers who are not performing at an acceptable level.

The Board shall issue guidelines for such mentor teacher programs and shall set criteria for beginning and experienced teacher participation, including self-referral, and the qualifications and training of mentor teachers. Such guidelines shall provide that the mentor programs be administered by local school boards, with the assistance of an advisory committee made up of teachers, principals, and supervisors, and that mentors (i) be classroom teachers who have achieved continuing contract status and who work in the same building as the teachers they are assisting or be instructional personnel who are assigned solely as mentors; (ii) be assigned a limited number of teachers at one time; however, instructional personnel who are not assigned solely as mentors should not be assigned to more than four teachers at one time; and (iii) guide teachers in the program through demonstrations, observations, and consultations to promote instructional excellence. Local school boards shall strive to provide adequate release time for mentor teachers during the contract day.

B. The local school board shall serve as fiscal agent for the participating school boards in matters concerning the mentor teacher programs. The Department of Education shall allocate, from such funds as are appropriated, moneys to participating school divisions for the purpose of supporting such programs which shall include, but not be limited to, compensation for mentor teachers.

There is hereby established the Advisory Board on Teacher Education and Licensure (the Advisory Board), which shall consist of three legislative members to be appointed as follows: two members of the House of Delegates to be appointed by the Speaker of the House of Delegates, one member of the Senate to be appointed by the Senate Committee on Rules, and 21 nonlegislative citizen members to be appointed by the Board of Education. Ten nonlegislative citizen members of the Advisory Board shall be classroom teachers, with at least the following representation: three elementary school teachers, three middle school teachers, and three high school teachers. § 22.1-306. Definitions.

As used in this article, unless the context requires a different meaning :

"Business day" means any day that the relevant school board office is open.

"Day" means calendar days unless a different meaning is clearly expressed in this article. Whenever the last day for performing an act required by this article falls on a Saturday, Sunday, or legal holiday, the act may be performed on the next day that is not a Saturday, Sunday, or legal holiday.

"Dismissal" means the dismissal of any teacher during the term of such teacher's contract.

"Grievance" means a complaint or dispute by a teacher relating to his employment, including (i) disciplinary action including dismissal; (ii) the application or interpretation of (a) personnel policies, (b) procedures, (c) rules and regulations, (d) ordinances, and (e) statutes; (iii) acts of reprisal against a

teacher for filing or processing a grievance, participating as a witness in any step, meeting, or hearing relating to a grievance, or serving as a member of a fact-finding panel; and (iv) complaints of discrimination on the basis of race, color, creed, religion, political affiliation, disability, age, national origin, sex, pregnancy, childbirth or related medical conditions, marital status, sexual orientation, gender identity, or military status. Each school board shall have the exclusive right to manage the affairs and operations of the school division. Accordingly, the term "grievance" shall not include a complaint or dispute by a teacher relating to (a) establishment and revision of wages or salaries, position classifications, or general benefits; (b) suspension of a teacher or nonrenewal of the contract of a teacher who has not achieved continuing contract status; (c) the establishment or contents of ordinances, statutes, or personnel policies, procedures, rules, and regulations; (d) failure to promote; (e) discharge, lay-off, or suspension from duties because of decrease in enrollment, decrease in enrollment or abolition of a particular subject, or insufficient funding; (f) hiring, transfer, assignment, and retention of teachers within the school division; (g) suspension from duties in emergencies; (h) the methods, means, and personnel by which the school division's operations are to be carried on; or (i) coaching or extra-curricular activity sponsorship.

While these management rights are reserved to the school board, failure to apply, where applicable, the rules, regulations, policies, or procedures as written or established by the school board is grievable.

Chapter 50.

Teachers may be dismissed for incompetency, immorality, noncompliance with school laws and regulations, disability as shown by competent medical evidence when in compliance with federal law, conviction of a felony or a crime of moral turpitude, or other good and just cause. A teacher shall be dismissed if such teacher is or becomes the subject of a founded complaint of child abuse and neglect, pursuant to § [63.2-1505](#), and after all rights to any administrative appeal provided by § [63.2-1526](#) have been exhausted. The fact of such finding, after all rights to any administrative appeal provided by § [63.2-1526](#) have been exhausted, shall be grounds for the local school division to recommend that the Board of Education revoke such person's license to teach. No teacher shall be dismissed or placed on probation solely on the basis of the teacher's refusal to submit to a polygraph examination requested by the school board.

§ 22.1-308. Grievance procedure.

A. The Board of Education shall prescribe a grievance procedure which shall include the following:

1. Except in the case of dismissal or placing on probation, a first step which shall provide for an informal, initial processing of a grievance by the most immediate appropriate supervisor through a discussion;
2. A requirement that all stages of the grievance beyond the first step be in writing on forms prescribed by the Board of Education and supplied by the school board;
3. A requirement that in reducing the grievance to writing, the teacher shall specify the specific relief sought through the use of the procedure;
4. The right of the grievant and the respondent to present appropriate witnesses and be represented by legal counsel and another representative;
5. Reasonable time limitations, prescribed by the Board, for the grievant to submit an initial complaint and to appeal each decision through the steps of the grievance procedure which shall correspond generally or be equivalent to the time prescribed for response at each step;
6. Termination of the right of the grievant to further appeal upon failure of the grievant to comply with all substantial procedural requirements of the grievance procedure without just cause;
7. The right of the grievant, at his option, upon failure of the respondent to comply with all substantial procedural requirements without just cause, to advancement to the next step or, in the final step, to a decision in his favor;
8. A final step which shall provide for a final decision on the grievance by the school board;
9. The provisions of §§ [22.1-309](#) through [22.1-313](#).

B. Representatives referred to in subsection A 4 of this section may examine, cross-examine, question and present evidence on behalf of a grievant or respondent in the grievance procedure without being in violation of the provisions of § [54.1-3904](#).

C. Nothing in the procedure shall be construed to restrict any teacher's right to seek or a school division administration's right to provide customary review of complaints that are not included within the definition of a grievance.

Code 1950, § 22-217.5:2; 1979, c. 298; 1980, c. 559; 1992, c. 679.

In the event a division superintendent determines to recommend dismissal of any teacher, written notice shall be sent to the teacher notifying him of the proposed dismissal and informing him that within 10 business days after receiving the notice the teacher may request a hearing before the school

board or, at the option of the local school board, a hearing officer appointed by the school board as provided in § [22.1-311](#). During such 10-business-day period and thereafter until a hearing is held in accordance with the provisions of this section, if one is requested by the teacher, the merits of the recommendation of the division superintendent shall not be considered, discussed or acted upon by the school board except as provided for in this section. At the request of the teacher, the division superintendent shall provide the reasons for the recommendation in writing or, if the teacher prefers, in a personal interview. In the event a teacher requests a hearing pursuant to § [22.1-311](#), the division superintendent shall provide, within 10 days of the request, the teacher or his representative with the opportunity to inspect and copy his personnel file and all other documents relied upon in reaching the decision to recommend dismissal. Within 10 days of the request of the division superintendent, the teacher or his representative shall provide the division superintendent with the opportunity to inspect and copy the documents to be offered in rebuttal to the decision to recommend dismissal. The division superintendent and the teacher or his representative shall be under a continuing duty to disclose and produce any additional documents identified later which may be used in the respective parties' cases-in-chief. The cost of copying such documents shall be paid by the requesting party.

For the purposes of this section, "personnel file" means any and all memoranda, entries, or other documents included in the teacher's file as maintained in the central school administration office or in any file on the teacher maintained within a school in which the teacher serves.

§ 22.1-311. Hearing before school board, hearing officer, or fact-finding panel.

A. Upon a timely request for a hearing pursuant to § [22.1-309](#), the school board or, at the option of the school board, a hearing officer appointed by the school board or a three-member fact-finding panel shall set a hearing and the teacher shall be given at least 10 days' written notice of the time and the place. The hearing shall be private unless the teacher requests the hearing to be public. At the hearing the teacher may appear with or without a representative and be heard, presenting testimony of witnesses and other evidence. The school board may hear a recommendation for dismissal and make a determination whether to make a recommendation to the Board of Education regarding the teacher's license at the same hearing or hold a separate hearing for each action.

B. Each school board may appoint an impartial hearing officer from outside the school division to conduct hearings pursuant to this section. A hearing officer shall not have been involved in the recommendation of dismissal as a witness or a representative. A hearing officer shall possess some knowledge and expertise in public education and education law and be capable of presiding over an administrative hearing. The hearing officer shall schedule and preside over such hearings and shall create a record or recording of such proceedings. The hearing officer shall make a written recommendation to the school board, a copy of which shall be provided to the teacher. The hearing officer

shall transmit the recommendation and the record or recording of the hearing to the school board as soon as practicable and no more than 10 business days after the hearing. In the event of a hearing before a hearing officer, the school board may make its decision upon the record or recording of such hearing, pursuant to § [22.1-313](#), or the school board may elect to conduct a further hearing to receive additional evidence by giving written notice of the time and place to the teacher and the division superintendent within 10 business days after the board receives the record or recording of the initial hearing. Such notice shall also specify each matter to be inquired into by the school board.

C. Each school board may elect for a three-member fact-finding panel to conduct hearings pursuant to this section. The teacher and the division superintendent shall each select one panel member, and the two panel members so selected shall select an impartial hearing officer to serve as the chairman of the panel. The fact-finding panel shall schedule and preside over such hearings and shall create a record or recording of such proceedings. The fact-finding panel shall make a written recommendation to the school board, a copy of which shall be provided to the teacher. The fact-finding panel shall transmit the recommendation and the record or recording of the hearing to the school board as soon as practicable but in no case more than 10 business days after the hearing. In the event of a hearing before a fact-finding panel, the school board may make its decision upon the record or recording of such hearing, pursuant to § [22.1-313](#), or the school board may elect to conduct a further hearing to receive additional evidence by giving written notice of the time and place of the hearing to the teacher and the division superintendent within 10 business days after the board receives the record or recording of the initial hearing. Such notice shall also specify each matter to be inquired into by the school board.

D. A record or recording of any hearing conducted pursuant to this section shall be made. The parties shall share the cost of the recording equally. In proceedings concerning grievances not related to dismissal, the recording may be dispensed with entirely by mutual consent of the parties. In such proceedings, if the recording is not dispensed with, the two parties shall share the cost of the recording equally; if either party requests a transcript, that party shall bear the expense of its preparation. In cases of dismissal, the record or recording shall be preserved for a period of six months. If the school board requests that a transcript be made at any time prior to expiration of the six-month period, it shall be made and copies shall be furnished to both parties. The school board shall bear the cost of the transcription.

E. Witnesses who are employees of the school board shall be granted release time if the hearing is held during the school day. The hearing shall be held at the school in which most witnesses work, if feasible.

§ 22.1-312. Repealed.

Repealed by Acts 2013, cc. [588](#) and [650](#), cl. 2.

§ 22.1-313. Decision of school board; generally.

A. The school board shall retain its exclusive final authority over matters concerning employment and supervision of its personnel, including dismissals and suspensions.

B. In the case of a hearing before the school board, the school board shall give the teacher its written decision as soon as practicable but in no case more than 30 days after the hearing.

C. In the case of a hearing before a hearing officer appointed by the school board or a three-member fact-finding panel, the school board shall give the teacher its written decision as soon as practicable but in no case more than 30 days after receiving the record or recording of the hearing; however, should there be a further hearing before the school board, such decision shall be furnished the teacher as soon as practicable but in no case more than 30 days after such further hearing.

D. A teacher may be dismissed or suspended by a majority of a quorum of the school board.

E. The school board's attorney, assistants, or representative, if he or they represented a participant in the prior proceedings, the grievant, the grievant's attorney or representative, and notwithstanding the provisions of § [22.1-69](#), the superintendent shall be excluded from any executive session of the school board which has as its purpose reaching a decision on a grievance. However, immediately after a decision has been made and publicly announced, as in favor of or not in favor of the grievant, the school board's attorney or representative and the superintendent may join the school board in executive session to assist in the writing of the decision.

F. In those instances when licensed personnel are dismissed or resign due to a conviction of any felony, any offense involving the sexual molestation, physical or sexual abuse or rape of a child, any offense involving drugs, or due to having become the subject of a founded case of child abuse or neglect, the local school board shall notify the Board of Education within 10 business days of such dismissal or the acceptance of such resignation.

Code 1950, § 22-217.8; 1968, c. 691; 1974, c. 18; 1979, c. 298; 1980, c. 559; 1983, c. 327; 1992, c. 679; 2003, c. [187](#); 2008, cc. [474](#), [827](#); 2013, cc. [588](#), [650](#); 2020, c. [875](#).

§ 22.1-314. Decision of school board; issue of grievability; appeal.

Decisions regarding whether or not a matter is grievable shall be made by the school board at the request of the school division administration or grievant and such decision shall be made within 10 business days of such request. The school board shall reach its decision only after allowing the school division administration and the grievant opportunity to present written or oral arguments regarding grievability. The decision as to whether the arguments shall be written or oral shall be in the discretion of the school board. Decisions of the school board may be appealed to the circuit court having jurisdiction in the school division for a hearing on the issue of grievability.

Proceedings for review of the decision of the school board shall be instituted by filing a notice of appeal with the school board within 10 business days after the date of the decision and giving a copy thereof to all other parties. Within 10 business days thereafter, the school board shall transmit to the clerk of the court to which the appeal is taken a copy of its decision, a copy of the notice of appeal, and

the exhibits. The failure of the school board to transmit the record within the time allowed shall not prejudice the rights of the grievant. The court, on motion of the grievant, may issue a writ of certiorari requiring the school board to transmit the record on or before a certain date. Within 10 business days of receipt by the clerk of such record, the court, sitting without a jury, shall hear the appeal on the record transmitted by the school board and such additional evidence as may be necessary to resolve any controversy as to the correctness of the record. The court, in its discretion, may receive such other evidence as the ends of justice require. The court may affirm the decision of the school board or may reverse or modify the decision. The decision of the court shall be rendered no later than the fifteenth day from the date of the conclusion of the hearing. Such determination of grievability shall be made subsequent to the reduction of the grievance to writing but prior to any hearing or the right to such determination shall be deemed to have been waived.

Article 4 - SUSPENSION

§ 22.1-315. Grounds and procedure for suspension.

A. A teacher or other public school employee, whether full-time or part-time, permanent, or temporary, may be suspended for good and just cause when the safety or welfare of the school division or the students therein is threatened or when the teacher or school employee has been charged by summons, warrant, indictment or information with the commission of a felony; a misdemeanor involving (i) sexual assault as established in Article 7 (§ [18.2-61](#) et seq.) of Chapter 4 of Title 18.2, (ii) obscenity and related offenses as established in Article 5 (§ [18.2-372](#) et seq.) of Chapter 8 of Title 18.2, (iii) drugs as established in Article 1 (§ [18.2-247](#) et seq.) of Chapter 7 of Title 18.2, (iv) moral turpitude, or (v) the physical or sexual abuse or neglect of a child; or an equivalent offense in another state. Except when a teacher or school employee is suspended because of being charged by summons, warrant, indictment or information with the commission of one of the above-listed criminal offenses, a division superintendent or appropriate central office designee shall not suspend a teacher or school employee for longer than sixty days and shall not suspend a teacher or school employee for a period in excess of five days unless such teacher or school employee is advised in writing of the reason for the suspension and afforded an opportunity for a hearing before the school board in accordance with §§ [22.1-311](#) and [22.1-313](#), if applicable. Any teacher or other school employee so suspended shall continue to receive his or her then applicable salary unless and until the school board, after a hearing, determines otherwise. No teacher or school employee shall be suspended solely on the basis of his or her refusal to submit to a polygraph examination requested by the school board.

B. Any school employee suspended because of being charged by summons, warrant, information or indictment with one of the offenses listed in subsection A may be suspended with or without pay. In the event any school employee is suspended without pay, an amount equal to his or her salary while on suspended status shall be placed in an interest-bearing demand escrow account. Upon being found not guilty of one of the offenses listed in subsection A or upon the dismissal or nolle prosequi of

the charge, such school employee shall be reinstated with all unpaid salary and accrued interest from the escrow account, less any earnings received by the school employee during the period of suspension, but in no event shall such payment exceed one year's salary.

C. In the event any school employee is found guilty by an appropriate court of one of the offenses listed in subsection A and, after all available appeals have been exhausted and such conviction is upheld, all funds in the escrow account shall be repaid to the school board.

D. No school employee shall have his or her insurance benefits suspended or terminated because of such suspension in accordance with this section.

E. Nothing in this section shall be construed to limit the authority of a school board to dismiss or place on probation a teacher or school employee pursuant to Article 3 (§ [22.1-306](#) et seq.) of this chapter.

F. For the purposes of this section, the placing of a school employee on probation pursuant to the terms and conditions of § [18.2-251](#) shall be deemed a finding of guilt.

Article 5 - INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL

§ 22.1-316. Agreement entered into and enacted into law; form of agreement.

The Interstate Agreement on Qualification of Educational Personnel is hereby enacted into law and entered into with all jurisdictions legally joined therein in the form substantially as follows:

INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL

Article I.

Purpose, Findings, and Policy.

A. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it and to authorize specific interstate educational personnel contracts to achieve that end.

B. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations

from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel without reference to their states of origin can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

Article II.

Definitions.

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.
2. "Designated state official" means the educational official of a state selected by that state to negotiate and enter into, on behalf of his state, contracts pursuant to this agreement.
3. "Accept" or any variant thereof means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.
4. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.
5. "Originating state" means a state or subdivision thereof whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.
6. "Receiving state" means a state or subdivision thereof which accepts educational personnel in accordance with the terms of a contract made pursuant to Article III of this section.

Article III.

Interstate Educational Personnel Contracts.

A. The designated state official of a party state may make one or more contracts on behalf of his state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it and the subdivisions of those states with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which he finds that there are programs of education, licensure standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable even though not identical to that prevailing in his own state.

B. Any such contract shall provide for:

1. Its duration.

2. The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

3. Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

4. Any other necessary matters.

C. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

D. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

E. The licensure or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. Any license or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a license or other qualifying document initially granted or approved in the receiving state.

F. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV.

Approved and Accepted Programs.

A. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

B. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

Article V.

Interstate Cooperation.

The party states agree that:

1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement.
2. They will facilitate and strengthen cooperation in interstate licensure and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in licensure and other elements of educational personnel qualification.

Article VI.

Agreement Evaluation.

The designated state officials of any party states may meet from time to time as a group to evaluate progress under the agreement and to formulate recommendations for changes.

Article VII.

Other Arrangements.

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII.

Effect and Withdrawal.

- A. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.
- B. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.
- C. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX.

Construction and Severability.

This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of the Administrative Process Act (§ [2.2-4000](#) et seq.) shall be applicable to proceedings under this subsection.

B. Pursuant to the procedures set forth in subsection C and in addition to the authority for other disciplinary actions provided in this chapter, the Superintendent of Public Instruction may issue a summary order of suspension of the license of a residential or day school for students with disabilities, in conjunction with any proceeding for revocation, denial, or other action, when conditions or practices exist in the school that pose an immediate and substantial threat to the health, safety, and welfare of the students who are residing or attending the school and the Superintendent of Public Instruction believes the operation of the school should be suspended during the pendency of such proceeding.

Such hearing shall be held no later than three business days after the issuance of the summary order of suspension and shall be convened by the Superintendent of Public Instruction or his designee.

After such hearing, the Superintendent of Public Instruction may issue a final order of summary suspension or may find that such summary suspension is not warranted by the facts and circumstances presented. A final order of summary suspension shall include notice that the licensee may appeal the Superintendent of Public Instruction's decision to the appropriate circuit court no later than 10 days

following issuance of the order. The sole issue before the court shall be whether the Superintendent of Public Instruction had reasonable grounds to require the licensee to cease operations during the pendency of the concurrent revocation, denial, or other proceeding. The concurrent revocation, denial, or other proceeding shall not be affected by the outcome of any hearing on the appropriateness of the summary suspension.

The willful and material failure to comply with the summary order of suspension or final order of summary suspension shall be punishable as a Class 2 misdemeanor. The Superintendent of Public Instruction may require the cooperation of any other agency or subdivision of the Commonwealth in the relocation of students who are residents of a home or facility whose license has been summarily suspended pursuant to this section and in any other actions necessary to reduce the risk of further harm to students.

§ 22.1-330. Same; investigation; time within which to correct unsatisfactory conditions.

The Board or Department may, upon its own motion, and shall, upon the verified complaint in writing of any person setting forth facts which, if proved, would constitute grounds for refusal, suspension or revocation of a license, investigate the actions of any applicant for or any person or persons holding or claiming to hold a license to operate a school.

Before refusing to renew, revoking or suspending any license, the Board may grant such period of time as it deems reasonable to correct any unsatisfactory condition.

§ 22.1-331. Violations.

Any person who opens, operates or conducts any school without a license required by this chapter shall be guilty of a Class 2 misdemeanor. Each day such person permits the school to be open and operate without such a license shall constitute a separate offense.

Chapter 17 - COMPACT FOR EDUCATION; EDUCATION COMMISSION OF THE STATES

§ 22.1-336. Compact entered into and enacted into law; form of compact.

The compact for education is hereby enacted into law and entered into with all jurisdictions legally joining therein in the form substantially as follows:

Article I.

A. It is the purpose of this compact to:

1. Establish and maintain close cooperation and understanding among executive, legislative, professional, educational and lay leadership on a nationwide basis at the state and local levels.
2. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.
3. Provide a clearinghouse of information on matters relating to educational problems and how they are being met in different places throughout the nation so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.
4. Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

B. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

C. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states as well as in the excellence of its own educational systems and institutions because individuals are highly mobile throughout the nation and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

Article II.

As used in this compact, "state" means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

Article III.

A. The Education Commission of the States, hereinafter called "the Commission," is hereby established. The Commission shall consist of seven members representing each party state. One of such members shall be the governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the Commission, six members shall be appointed and

serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the Commission, the guiding principle for the composition of the membership on the Commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations, be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education and lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution designated by the governor having responsibility for one or more programs of public education. In addition to the members of the Commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

B. The members of the Commission shall be entitled to one vote each on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action of the Commission shall be only at a meeting at which a majority of the commissioners are present. The Commission shall meet at least once a year. In its bylaws and subject to such directions and limitations as may be contained therein, the Commission may delegate the exercise of any of its powers to the steering committee or the executive director except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III (J).

C. The Commission shall have a seal.

D. The Commission shall elect annually from among its members a chairman, who shall be a governor, a vice-chairman and a treasurer. The Commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the Commission and, together with the treasurer and such other personnel as the Commission may deem appropriate, shall be bonded in such amount as the Commission shall determine. The executive director shall serve as secretary of the Commission.

E. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director, subject to the approval of the steering committee, shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Commission and shall fix the duties and compensation of such personnel. The Commission in its bylaws shall provide for the personnel policies and programs of the Commission.

F. The Commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

G. The Commission may accept for any of its purposes and functions under this compact any and all donations and grants of money, equipment, supplies, materials and services, conditional or otherwise,

from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation and may receive, utilize and dispose of the same. Any donation or grant accepted by the Commission pursuant to this paragraph or services borrowed pursuant to paragraph F of this article shall be reported in the annual report of the Commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant or services borrowed and the identity of the donor or lender.

H. The Commission may establish and maintain such facilities as may be necessary for transacting its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

I. The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto with the appropriate agency or officer in each of the party states.

J. The Commission annually shall make to the governor and legislature of each party state a report covering the activities of the Commission for the preceding year. The Commission may make such additional reports as it may deem desirable.

Article IV.

In addition to authority conferred on the Commission by other provisions of this compact, the Commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources;
2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems;
3. Develop proposals for adequate financing of education as a whole and at each of its many levels;
4. Conduct or participate in research of the types referred to in this article in any instance where the Commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private;
5. Formulate suggested policies and plans for the improvement of public education as a whole or for any segment thereof and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials;
6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

Article V.

A. If the laws of the United States specifically so provide or if administrative provision is made therefor within the federal government, the United States may be represented on the Commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law and may be drawn from any one or more branches of the federal government. No such representative shall have a vote on the Commission.

B. The Commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states and may advise any such agencies or officers concerning any matter of mutual interest.

Article VI.

A. To assist in the expeditious conduct of its business when the full Commission is not meeting, the Commission shall elect a steering committee of thirty-two members which, subject to the provisions of this compact and consistent with the policies of the Commission, shall be constituted and function as provided in the bylaws of the Commission. One fourth of the voting membership of the steering committee shall consist of governors, one fourth shall consist of legislators, and the remainder shall consist of other members of the Commission. A federal representative on the Commission may serve without vote on the steering committee. Chapter 23 - SOUTHERN REGIONAL EDUCATION COMPACT

§ 22.1-358. Form of Compact.

The General Assembly hereby enacts, and the Commonwealth of Virginia hereby enters into, the Southern Regional Education Compact of 1950 with any and all states legally joining therein according to its terms agreed to in Senate Joint Resolution 22 (1950), as amended by the House Joint Resolution No. 28 (1956), in the form substantially as follows:

§ 1. Agreement.

In consideration of the mutual agreements, covenants and obligations assumed by the respective States who are parties to this compact (hereinafter referred to as States), the States do hereby form a geographical district or region consisting of the areas lying within the boundaries of the contracting

States which, for the purposes of this compact, shall constitute an area for regional education supported by public funds derived from taxation by the constituent States and derived from other sources for the establishment, acquisition, operation and maintenance of regional educational schools and institutions for the benefit of citizens of the respective States residing within the region so established as may be determined from time to time in accordance with the terms and provisions of this compact.

§ 2. Southern Regional Education Board established; membership; terms.

The States do further hereby establish and create a joint agency, which shall be known as the Board of Control for Southern Regional Education (hereinafter referred to as the Board). The members of the Board shall consist of the Governor of each State, ex officio, and four additional citizens of each State to be appointed by the Governor thereof, at least one of whom shall be selected from the field of education, and at least one of whom shall be a member of the Legislature of that State. The Governor shall continue as a member of the Board during his tenure of office as Governor of the State, but the members of the Board appointed by the Governor shall hold office for a period of four years following the initial staggering of terms. Vacancies on the Board caused by death, resignation, refusal or inability to serve, shall be filled by appointment by the Governor for the unexpired portion of the term.

§ 3. Officers and meetings.

The officers of the Board shall be a Chairman, a Vice-Chairman, a Secretary, a Treasurer, and such additional officers as may be created by the Board from time to time. The Board shall meet annually and officers shall be elected to hold office until the next annual meeting. The Board shall have the right to formulate and establish by-laws not inconsistent with the provisions of this compact to govern its own actions in the performance of the duties delegated to it including the right to create and appoint an Executive Committee and a Finance Committee with such powers and authority as the Board may delegate to them from time to time. The Board may, within its discretion, elect as its Chairman a person who is not a member of the Board, provided such person resides within a signatory State, and upon such election such person shall become a member of the Board with all the rights and privileges of such membership.

§ 4. Powers and duties.

It shall be the duty of the Board to submit plans and recommendations to the States from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation and maintenance of educational schools and institutions within the geographical limits of the regional area of the States, of such character and type and for such educational purposes, professional, technological, scientific, literary, or otherwise, as they may deem and determine to be proper, necessary or advisable. Title to all such educational institutions when so established by appropriate legislative actions of the States and to all properties and facilities used in connection

therewith shall be vested in the Board as the agency of and for the use and benefit of the States and the citizens thereof, and all such educational institutions shall be operated, maintained and financed in the manner herein set out, subject to any provisions or limitations which may be contained in the legislative acts of the States authorizing the creation, establishment and operation of such educational institutions.

In addition, the Board shall have the power to enter into such agreements or arrangements with any of the States and with educational institutions or agencies, as may be required in the judgment of the Board, to provide adequate services and facilities for the graduate, professional, and technical education for the benefit of the citizens of the respective States residing within the region, and such additional and general power and authority as may be vested in the Board from time to time by legislative enactment of the States.

§ 5. Supplemental agreements.

Any two or more States who are parties of the compact shall have the right to enter into supplemental agreements providing for the establishment, financing and operation of regional educational institutions for the benefit of citizens residing within an area that constitutes a portion of the general region created, such institutions to be financed exclusively by such States and to be controlled exclusively by the members of the Board representing such States provided such agreement is submitted to and approved by the Board prior to the establishment of such institutions.

§ 6. Funding.

Each State agrees that, when authorized by the legislature, it will from time to time make available and pay over to the Board such funds as may be required for the establishment, acquisition, operation and maintenance of such regional educational institutions as may be authorized by the States under the terms of this compact, the contribution of each State at all times to be in the proportion that its population bears to the total combined population of the States who are parties as shown from time to time by the most recent official published report of the Bureau of the Census of the United States of America; or upon such other basis as may be agreed upon.

§ 7. Effective date.

This compact shall not take effect or be binding upon any State unless and until it shall be approved by proper legislative action of as many as six or more of the States whose governors have subscribed to this compact within a period of 18 months from the subscribed date. When and if six or more States shall have given legislative approval to this compact within the 18-month period, it shall be and become binding upon the six or more States 60 days after the date of legislative approval by the sixth State and the governors of such six or more States shall name the members of the Board from their

States, and the Board shall then meet on call of the governor of any State approving this compact, at which time the Board shall elect officers, adopt bylaws, appoint committees and otherwise fully organize. Other States whose names are subscribed to this compact shall thereafter become parties upon approval of this compact by legislative action within two years from the subscribed date, upon such conditions as may be agreed upon at the time. However, any State whose constitution may require amendment in order to permit legislative approval of the compact, shall become a party upon approval of this compact by legislative action within seven years from the subscribed date, upon such conditions as may be agreed upon at the time.

§ 8. Termination and withdrawal.

After becoming effective this compact shall thereafter continue until terminated by unanimous action of the States. A State may withdraw from this compact if such withdrawal is approved by its legislature. Such withdrawal shall become effective two years after written notice to the Board accompanied by a certified copy of the requisite legislative action, but such withdrawal shall not relieve the withdrawing State from its obligations accruing up to the effective date of such withdrawal. Any State so withdrawing shall ipso facto cease to have any claim to or ownership of any of the property held or vested in the Board or to any of the funds of the Board held under the terms of this compact.

§ 9. Defaulting states.

If any State shall at any time become in default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon the State as authorized by and in compliance with the terms and provisions of this compact, all rights, privileges and benefits of such defaulting State, its members on the Board and its citizens shall ipso facto be and become suspended from and after the date of such default. Unless such default shall be remedied and made good within a period of one year immediately following the date of such default this compact may be terminated with respect to such defaulting State by an affirmative vote of three-fourths of the members of the Board (exclusive of the members representing the State in default), from and after which time such State shall cease to be a party to this compact and shall have no further claim to or ownership of any of the property held by or vested in the Board or to any of the funds of the Board held under the terms of this compact, but such termination shall in no manner release such defaulting State from any accrued obligation or otherwise affect this compact or the rights, duties, privileges or obligations of the remaining States.

2004, c. [1000](#).

§ 22.1-359. Southern Regional Education Board; appointment; terms; compensation and expenses.

The Commonwealth's representatives to the Southern Regional Education Board in compliance with the Southern Regional Education Compact shall consist of: the Governor, who shall serve ex officio, and four citizens to be appointed by the Governor of whom one shall be selected from the field of education and one shall be a member of the legislature. The legislative member shall serve a term coin-

cident with his term of office. The gubernatorial appointees shall serve four-year terms. All appointees may be reappointed for successive terms.

Any legislative member of the Board shall receive such compensation as provided in § [30-19.12](#) and shall be reimbursed for all reasonable and necessary expenses incurred in the performance of his duties as provided in §§ [2.2-2813](#) and [2.2-2825](#). The costs of compensation and expenses of the legislative members shall be provided from existing appropriations to the Virginia Commission on Intergovernmental Cooperation for the attendance of conferences. Nonlegislative citizen members shall receive such compensation and reimbursement for all their reasonable and necessary expenses in the performance of their duties as may be appropriated or made available for such purposes.

3. Veterans of the uniformed services, except as provided in subsection A; and

4. Other U.S. Department of Defense personnel and other federal agency civilian and contract employees not defined as active duty members of the uniformed services.

Article IV. Educational Records and Enrollment.

A. Unofficial or "hand-carried" education records. In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial educational records containing uniform information as determined by the Interstate Commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records pending validation by the official records, as quickly as possible.

B. Official education records/transcripts. Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education records from the school in the sending state. Upon receipt of this request, the school in the sending state will process and furnish the official education records to the school in the receiving state within 10 days or within such time as is reasonably determined under the rules promulgated by the Interstate Commission.

C. Immunizations. Compacting states shall give 30 days from the date of enrollment or within such time as is reasonably determined under the rules promulgated by the Interstate Commission for students to obtain any immunization(s) required by the receiving state. D. Kindergarten and first grade entrance age. Students shall be allowed to continue their enrollment at the grade level in the receiving state commensurate with their grade level (including kindergarten) from a local education agency in the sending state at the time of transition, regardless of minimum age. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on their validated level from a local education agency in the sending state.

Article V. Placement and Attendance.

A. Course placement. When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school and/or educational assessments conducted at the school in the sending state if the courses are offered. Course placement includes, but is not limited to, honors, International Baccalaureate, advanced placement, vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This

does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course(s).

B. Educational program placement. The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation/placement in like programs in the sending state. Such programs include, but are not limited to, (i) gifted and talented programs and (ii) English as a second language (ESL) programs. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

C. Special education services. In compliance with the federal requirements of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. § 1400 et seq., the receiving state shall initially provide comparable services to a student with disabilities based on his or her current Individualized Education Program (IEP) and in compliance with the requirements of § 504 of the Rehabilitation Act, 29 U.S.C. § 794, and with Title II of the Americans with Disabilities Act, 42 U.S.C. §§ 12131-12165, and the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II Plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Placement flexibility. Local education agency administrative officials shall have flexibility in waiving course/program prerequisites or other preconditions for placement in courses/programs offered under the jurisdiction of the local education agency.

E. Absence as related to deployment activities. A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

Article VI. Eligibility.

A. Eligibility for enrollment.

1. Children of military families shall be eligible for enrollment in the public schools of Virginia provided that the documents required by §§ [22.1-3.1](#) and [22.1-3.2](#) are provided and subject to the authority of a local education agency to exclude such children from attendance pursuant to § [22.1-277.2](#) or if such children have been found guilty or adjudicated delinquent for any offense listed in subsection G of § [16.1-260](#) or any substantially similar offense under the laws of any state, the District of Columbia, or the United States or its territories;

2. Special power of attorney, relative to the guardianship of a child of a military family, and executed under Title 10, United States Code, § 1044b, shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent;

3. A local education agency shall be prohibited from charging local tuition to a military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent; and

4. A military child, placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he or she was enrolled while residing with the custodial parent.

B. Eligibility for extracurricular participation. State and local education agencies shall facilitate the opportunity for military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

Article VII. Graduation.

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

A. Waiver requirements. Local education agency administrative officials shall waive specific courses required for graduation if similar coursework has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

B. Exit exams. States shall accept: (i) exit or end-of-course exams required for graduation from the sending state, (ii) national norm-referenced achievement tests, or (iii) alternative testing acceptable to the receiving state, in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state, then the provisions of subsection C of this Article shall apply. Within 12 months of the effective date of this compact, the Interstate Commission shall adopt a rule addressing the acceptance of exit exams.

C. Transfers during senior year. Should a military student transferring in his or her senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending local education agency, with the cooperation of the receiving local education agency, shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with subsections A and B of this Article.

Article VIII. State Coordination.

A. Each member state shall, through the creation of a State Council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and

military installations concerning the state's participation in, and compliance with, this compact and Interstate Commission activities. While each member state may determine the membership of its own State Council, its membership must include at least: (i) the state superintendent of education, (ii) the superintendent of a school district with a high concentration of military children, (iii) one representative from a military installation, and (iv) one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the State Council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the State Council.

B. Each member state shall employ a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

C. The Governor of each member state shall appoint or designate a compact commissioner responsible for the administration and management of the state's participation in the compact and who is empowered to establish statewide policy related to matters governed by this compact.

D. The compact commissioner and the military family education liaison described herein shall be ex officio members of the State Council, unless either is already a full voting member of the State Council.

Article IX. Interstate Commission on Educational Opportunity for Military Children.

The member states hereby create the Interstate Commission on Educational Opportunity for Military Children. The activities of the Interstate Commission are the formation of public policy and are a discretionary state function. The Interstate Commission shall:

A. Be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth herein and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

B. Consist of one Interstate Commission voting representative from each member state who shall be that state's compact commissioner and who is empowered to establish statewide policy related to matters governed by this compact.

1. Each member state represented at a meeting of the Interstate Commission is entitled to one vote;

2. A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission;

3. A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the Interstate Commission, the Governor or State Council may delegate voting authority to another person from the state for a specified meeting; and

4. The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

C. Consist of ex officio, nonvoting representatives who are members of interested organizations. Such ex officio members, as defined in the bylaws, may include, but not be limited to, members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. Department of Defense, the Education Commission of the States, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members.

D. Meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings.

E. Establish an executive committee, whose members shall include the officers of the Interstate Commission and such other members of the Interstate Commission as determined by the bylaws. Members of the executive committee shall serve a one-year term. Members of the executive committee shall be entitled to one vote each. The executive committee shall have the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact, including enforcement and compliance with the provisions of the compact, its bylaws and rules, and other such duties as deemed necessary. The U.S. Department of Defense shall serve as an ex officio, nonvoting member of the executive committee.

F. Establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

G. Public notice shall be given by the Interstate Commission of all meetings, and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting, or portion thereof, when it determines by two-thirds vote that an open meeting would be likely to:

1. Relate solely to the Interstate Commission's internal personnel practices and procedures;
2. Disclose matters specifically exempted from disclosure by federal and state statute;
3. Disclose trade secrets or commercial or financial information that is privileged or confidential;
4. Involve accusing a person of a crime or formally censuring a person;
5. Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;
6. Disclose investigative records compiled for law-enforcement purposes; or

7. Specifically relate to the Interstate Commission's participation in a civil action or other legal proceeding.

H. For a meeting, or portion of a meeting, closed pursuant to the provisions of subsection G, the Interstate Commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exemptible provision. The Interstate Commission shall keep minutes, which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Interstate Commission.

I. The Interstate Commission shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules, which shall specify the data to be collected, the means of collection and data exchange, and reporting requirements. Such methods of data collection, exchange, and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

J. The Interstate Commission shall create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the Interstate Commission, any member state, or any local education agency.

Article X. Powers and Duties of the Interstate Commission.

The Interstate Commission shall have the following powers:

A. To provide for dispute resolution among member states.

B. To promulgate rules and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact. The rules shall have the force and effect of regulations adopted under the Administrative Process Act (§ [2.2-4000](#) et seq.), and shall be binding in the compact states to the extent and in the manner provided in this compact.

C. To issue, upon request of a member state, advisory opinions concerning the meaning or interpretation of the interstate compact, its bylaws, rules, and actions.

M. To establish a budget and make expenditures.

N. To adopt a seal and bylaws governing the management and operation of the Interstate Commission.

S. To perform such functions as may be necessary or appropriate to achieve the purposes of this compact.

T. To provide for the uniform collection and sharing of information between and among member states, schools, and military families under this compact.

Article XI. Organization and Operation of the Interstate Commission.

A. The Interstate Commission shall, by a majority of the members present and voting, within 12 months after the first Interstate Commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including but not limited to:

7. Providing "start-up" rules for initial administration of the compact.

B. The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice-chairperson, and a treasurer, each of whom shall have the authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice-chairperson, shall preside at all meetings of the Interstate Commission. The officers so elected shall serve without compensation or remuneration from the Interstate Commission provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the Interstate Commission.

C. Executive Committee, officers, and personnel.

1. The executive committee shall have such authority and duties as may be set forth in the bylaws, including but not limited to: (i) managing the affairs of the Interstate Commission in a manner consistent with the bylaws and purposes of the Interstate Commission; (ii) overseeing an organizational structure within and appropriate procedures for the Interstate Commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and (iii) planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the Interstate Commission.

2. The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for such period, upon such terms and conditions, and for such compensation as the Interstate Commission may deem appropriate. The executive director shall serve as secretary to the Interstate Commission, but shall not be a member of the Interstate Commission. The executive director shall hire and supervise such other persons as may be authorized by the Interstate Commission.

D. The Interstate Commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of Interstate Commission employment, duties, or responsibilities, provided that such person

shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

1. The liability of the Interstate Commission's executive director and employees or the Interstate Commission representatives, acting within the scope of their employment or duties for acts, errors, or omissions occurring within such person's state, may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

2. The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the Attorney General or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend such Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

3. To the extent not covered by the state involved, member state, or the Interstate Commission, the representatives or employees of the Interstate Commission shall be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

Article XII. Rulemaking Functions of the Interstate Commission.

A. Rulemaking authority. The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this Act, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

B. Rulemaking procedure. Rules shall be made pursuant to a rulemaking process that substantially conforms to the "Model State Administrative Procedure Act," of 1981, Uniform Laws Annotated, Vol. 15, p. 1 (2000) as amended, as may be appropriate to the operations of the Interstate Commission.

C. Not later than 30 days after a rule is promulgated, any person may file a petition for judicial review of the rule provided that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success.

The court shall give deference to the actions of the Interstate Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

D. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

Article XIII. Oversight, Enforcement, and Dispute Resolution.

A. Oversight.

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as regulations adopted under the Administrative Process Act (§ [2.2-4000](#) et seq.);

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact that may affect the powers, responsibilities, or actions of the Interstate Commission; and

3. The Interstate Commission shall be entitled to receive all service of process in any such proceeding and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

B. Default, technical assistance, suspension, and termination.

If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the Interstate Commission shall:

1. Provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default, and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state must cure its default;

2. Provide remedial training and specific technical assistance regarding the default;

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default;

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be

given by the Interstate Commission to the Governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states;

5. The state that has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination, including obligations the performance of which extends beyond the effective date of suspension or termination;

6. The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or that has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state; and

7. The defaulting state may appeal the action of the Interstate Commission by petitioning the United States District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

C. Dispute resolution.

1. The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes that are subject to the compact and that may arise among member states and between member and nonmember states.

2. The Interstate Commission shall promulgate a rule providing for mediation for disputes as appropriate.

Article XIV. Financing of the Interstate Commission.

A. The Interstate Commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

B. The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff, which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

C. The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Interstate Commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant and

the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

Article XV. Member States, Effective Date, and Amendment.

A. Any state is eligible to become a member state.

B. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than 10 of the states. Thereafter it shall become effective and binding as to any other member state upon enactment of the compact into law by that state. The Governors of nonmember states or their designees shall be invited to participate in the activities of the Interstate Commission on a nonvoting basis prior to adoption of the compact by all states.

C. The Interstate Commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

Article XVI. Withdrawal and Dissolution.

A. Withdrawal.

1. Once effective, the compact shall continue in force and remain binding upon each and every member state, provided that a member state may withdraw from the compact specifically by repealing the statute that enacted the compact into law.

2. Withdrawal from this compact shall be by the enactment of a statute repealing the same.

3. The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within 60 days of its receipt thereof.

4. The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal, including obligations the performance of which extends beyond the effective date of withdrawal.

5. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

B. Dissolution of compact.

1. This compact shall dissolve effective upon the date of the withdrawal or default of the member state that reduces the membership in the compact to one member state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

Article XVII. Severability and Construction.

- A. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.
- B. The provisions of this compact shall be liberally construed to effectuate its purposes.
- C. Nothing in this compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

Article XVIII. Binding Effect of Compact and Other Laws.

A. Other laws.

1. Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with this compact.
2. All member states' laws conflicting with this compact are superseded to the extent of the conflict.

B. Binding effect of the compact.

1. All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the member states.
2. All agreements between the Interstate Commission and the member states are binding in accordance with their terms.
3. In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state.
